NEWS FROM OUR NATIONAL CAPITAL President Wilson Signs Underwood-Simmons Tariff

Bill.

Washington. - Surrounded by the leaders of a united democracy, President Wilson signed the Underwood Simmons tariff bill at the White telegrama House, Simultaneously were sent to customs collectors throughout the country by the treas ury department, putting into actual operation the first democratic tariff revision since 1894.

A happy group of legislators, mem bers of the cabinet and friends encircled the president as he signed the bill, using two gold pens. He pre sented to Representative Underwood the pen that had written the word "Woodrow," and the one which had completed his name to Senator Sim-

Many Tariff Rates Abolished by Bill. The Underwood Simmons hill brings into effect one of the most far-reach ing revisions of tariff rates and revenue laws enacted for many years.

A new income tax, applying directly to the incomes of citizens; the abolition of all tariff on scores of items of immense importance to American industry and American consumers, and a heavy reduction of tariff rates on most of the articles in general use in this country are its chief features.

While certain portions of the new law do not take effect at once, most of its provisions and almost all the direct tariff reductions do.

The federal government has been spending nearly a billion dollars a year and the new tariff law will raise less than one-third of that sum. Recent estimates by tariff experts in congress predict that the rates will their duties as public carriers. income tax will raise \$127,000,000. The remainder of the government's great income is made up principally of internal revenue taxes and postal receipts.

New Bill Summarized.

A brief summary of the new tariff law as prepared for the senate follows: Average percentage of tariff rates as compared with the value of all im-

ported merchandise: Old law, 37 per cent; new law, 27 per cent. Value of annual imports added to

the free list, \$147,000,000. Estimated revenues from all impor-

rates: Old law, \$305,000,000; new law, \$249,000,000 Estimated revenue from corporation

and income taxes: Old law, \$37,000, 000; new law, \$122,000,000.

Altogether, consumers in the United States probably will receive from abroad, free from all tariff, more than \$1,000,000,000 worth of merchandise during the next year. During 1912 the amount of "free imported" was more than \$880,000,000, and when the tariff is entirely removed from wool, sugar, iron ore and cheap iron and other important items, the total is expected to increase notably. Under the old law more than 53 per cent of all goods. brought to the United States from all parts of the world paid no tariff, and that proportion will be increased by the new law.

The free wool provision of the new law takes effect December 1, 1913, and the free sugar provision May 1, 1916.

BRANCHES OF PARTY AIM TOWARD UNITY

Washington .- Senator Cummins out lined in part the reform plans of the so-called "concillation committee" of Republicans and Progressives which hopes to bring about the holding of a national Republican convention early in 1914.

The change in the representation of southern states in the national convention is a secondary matter in the programme of the committee. With the added support of many Republican leaders who did not participate last spring in the "get-together" conference in Chicago, they will insist that the control of the Republican national committee over scating of delegates in a national convention be abolished.
