### Senate Banking Committee Is Likely to Report Four-Bank Plan.

Washington, D. C.—When the senate banking and currency committee ended its first week of deliberations it appeared certain that the bill to be reported to the senate would contain certain provisions for a four regional reserve, government controlled bank system, the \$100,000,000 stock of which will be offered to the public.

With progress on the fundamentals of the senate measure just begun, only the framework of the Glass-OWen measure has been retained. The most radical change in the administration measure has been the complete removal of the regional reserve banks from bank control. Briefly, the following were the provisions of the measure, which it was believed would govern its final drafting.

Four regional reserve banks with a total capitalization of \$100,000,000, divided according to the financial location of the center from which the banks will operate.

Absolute control of the banks by the government and regional reserve boards, to be appointed by the president.

The regional reserve bank stock to bear either 5 or 6 per cent interest and to be sold to the public by subscription, the balance, if any, to be taken up by the member banks. This stock will have no voting power, and will not share in the surplus. That will accrue to the government.

#### Co-operation With States Proposed.

If congress, at the regular session, will authorize an additional loan of \$100,000,000 to the reclamation fund, in accordance with the recommendation to be submitted by Secretary Lane, the interior department will undertake, in co-operation with the several states, to redeem those Carey act projects which have proven failures, and which threaten, without some such aid, to entail heavy loss on settlers who have undertaken to establish homes under their canals.

The plan of the interior department is to have the federal government join with the states in completing Carey act projects which have fallen into disrepute through failure of contractors or from other cause.

#### Members Lose Mileage.

Senators and representatives will be obliged to forego the mileage bill at the coming regular session of congress, much as they may dislike to do so. The fact that the special session is to run into the regular session without substantial break makes it impracticable for congress to pass the mileage appropriations this winter, and if any attempt is made to put such a bill through it will be killed by public opinion.

Senators and members have received mileage for the special session.

#### Mail Efficiency Is Aim.

Postmaster General Burleson has decided to standardize the entire postal service, so far as possible, with a view to greater efficiency. To this end the department will operate several model offices, "dynamos" from which to charge the entire system of offices throughout the country. These offices will be used to discover the best practical way of administering the postal facilities and to test out devices and methods that may prove of value.

In transportation of stocks, bonds and other securities, the interstate commerce commission held that a carrier is responsible, in case of loss, for the market value of the securities only and not the par value.

By direction of President Wilson, Commissioner of Internal Revenue Osborne instructed collectors throughout the country that the recent action of congress in removing deputy collectors from the protection of the civil service did not mean a return to the spoils system and was taken only for efficiency.

National Issues Loom in Off-Election.

Washington.—Although it is an "off year" in politics, the election on November 4 furnished several local campaign situations that assumed national importance. Three governors were balloted for in Massachusetts, New Jersey and Virginia—and in more than a score of the larger cities mayors were elected. In all of these it is certain the votes cast by republicans and progressives were closely watched and analyzed.

## HUERTA ORDERED TO RETIRE IMMEDIATELY

### President Wilson Sends Ultimatum to Dictator and Demands Quick Action.

Mexico City.—President Huerta must resign the presidency of Mexico without loss of time and must not leave as his successor General Aureliano Blanquet, his minister of War, or any other member of his official family or of the unofficial coterie whom he might be expected to control.

This ultimatum from Washington was conveyed to President Huerta through his private secretary, Senor Rabago by Nelson O'Shaughnessy, the American Charge d'Affaires, acting under instructions from the State Department.

Official Mexico is no longer in doubt that the Washington administration favors the rebel cause and is convinced that this is the means taken by President Wilson and Secretary Bryan to assist Carranza to win.

Changes in the military situation throughout the country included, according to reports, the advance of the rebels to attack Zacatecas, but the government believes that the garrison there is sufficiently strong to resist an attack successfully. Queretaro, capital of the state of the same name, on the main line of the National Railway, south of San Luis Potosi, is surrounded by rebels and practically in a state of siege. North of San Luis Potosi a new method has been adopted by the rebels to prevent the operation of trains. Placards addressed to employees have been posted notifying them they would be hanged if they attempted to run the trains. As a result the men are refusing to take out the trains.

#### WALLS CRUSH TENEMENTS

Explosion in Hartford, Conn., of Mysterious Origin, Kills Seven.

Hartford, Conn.—At least seven persons are dead or dying as the result of an explosion in Loveland's five-story brick warehouse. The walls of the building toppled on the roofs of two adjoining wooden tenement houses.

Michael Greenburg, one of the partners of the warehouse, declared to newspapermen that the building was dynamited. He refused to assign any motive for such an act.

The explosion seemed to wreck the building in a diagonal manner, one whole side—the one that fell on the adjoining house—falling down.

## MEXICAN SENDS AN APPEAL TO BRYAN

Nogales, Sonora.—Through Dr. Henry Allen Tupper, of the international peace forum, who is regarded as an unofficial agent of the American secretary of state, Geneviano Carranza, head of the rebel constitutionalists of Mexico, transmitted to the United States government an official statement which suggests that President Wilson can solve the Mexican problem merely by according to the constitutionalists the right to import arms freely from the United States.

The struggle in Mexico will continue until one side or the other is beaten into helplessness, the statement asserts. It further declares that the constitutionalists are confident of wiping out Dictator Huerta and his partisans in a short time if the embargo on arms is lifted.

Carranza come here from Hermosillo, the rebel capital, with Tupper, who had been with him there for several days. The rebel chief intended at first to ask recognition from the American government, but after conference with advisers, determined to confine requests to the lifting of the ban on the shipment of arms across the border.
