when it became apparent that only pubicity would bring forth

The college agreed to carry on the work two seasons; the county Silver cup, to be awarded to the paid its second installment as any one may learn from the records on January 4th, 1918, there- Entries open to ranchmen only. by fulfilling its part of the contract. If the college faculty de International Livestock Exposired assistance to collect the sition this coming December balance of the contribution it Entries close December 7th. falled to make its wishes known, even after the judge offered his services. The judge has a letter on file from the college officials stating that the failure to report the status of the matter was due to a misunderstading between the college officials.

The county judge, therefore, has no further cause to antagonize the state institution, but is ready and anxious for perfect cooperation. The college has indorsed the idea of fifty or more small tracts as the judge sug gested. The appropriation is made so now if old man Morson and other speculaters will be patient we hope they will be able ere long to unload their jack pine town lots and lands for at least all they are worth. The county court, however, is more interested in the farmers than the promoters and the county judge has enough faith in the good sense of the voters that he dares defy all grafters and promoters. so Brother Morson, if you have a "recall" up your sleeve, turn G. SPRINGER.

County Judge.

Portland Stock Market

North Portland, Or., Nov. 14th 1913.—Receipts of cattle quite heavy this week, in fact far above the requirements of the trade, outlet is limited to a very few buyers and most of them are using but a few cars each week Strictly prime steers are selling around \$7.50 to \$7.65, and a real good grade of medium weight cattle from \$7.25 to \$7.40. lower grades of killing cattle from \$6.75 to \$7.

75 top grades selling \$6 to \$6.25. with a few sales having been W W Brown, commissioner's fees 55 00 70 00 made as high as \$6.50 to \$6.65, 11 25 quite a number of sales from \$5.mand at prices ranging from \$5.-Allen Willcoxen road work dist 25 452 55 534 90

While hogs have been coming freely this week, the quality and in London some famous letters, among these books. At an expense of many finish have been the best in them one by Ruskin denouring Shelthousands of dollars and nearly two some time, consequently buyers ley's style—"one might write Shelley have bought quite liberally, and by Shrewsbury cleek." He then prohave paid steady prices all week. with tops selling at \$8, other grades \$7.85 to \$7.95.

All grades of sheep and lambs have found ready sale, with top kinds selling a little stronger, and others fully steady with last week. We predict a strong market on strictly top grades for some time to come.

Like mosaic paven. There sat a gentleman—flushed and shy—And a girl with corkserew curf in her eye. On the grass between was a large cel ple And a ham bone, cleanly shaven. And the gentleman asked in accents mild, "Was it quite enough soaked before it was biled?"

And the lady replied as she pulled a vilet off the little lawn islet, "Didn't I tell you—Jane would spile it?" for some time to come.

At the request of Wm. Pollman of Baker, Oregon, president and founder of The Cattle and Horse Raisers' Association which has been recently formed for the protection of people interested in Home Companion.

this industry against the rustling MILKING SHORTHORNS of catt'e and horses throughout all the states of the Northwest, we beg to inform you that the officers of this association will Mr. Editor:—In the November the Imperial Hotel in Portland maintain their headquarters at 5th issue of The La Pine Inter-during the Pacific International Mountain appeared a headline Livestock Exposition which will like this, "Judge Springer's Let- be held at The Union Stock Yards, North Portland, Oregon, Under the above heading an ef- December 8 13, 1913, and that on fort is made to show that Crook the night of December 11th at 8 county was delinquent in paying p. m., a meeting will be held in the second half of its contributhe new public library at 10th tion. We also hope proves that it was no fault of that you will become a member of this association as we believe stration work was not carried that it will be of mutual benefit to everybody interested in the As to the county judge seeking livestock industry. We will be to avoid a public controversy, pleased to answer any enquiries we admit that it is a fact, but in regard to the intent of this association.

We also beg to announce that the facts, the judge "bawled her the management of the Imperial out" and now we know the truth. Hotel in Portland, has put up a special prize in the way of a exhibitor of the best heavy range steer, three years old and over. same to be shown at the Pacific

Advertisers Are In Good Company

By HOLLAND.

MR. BUSINESS MAN, have you ever thought that advertising puts you in good company? It is an old saying that a man is known by the company be keeps. When you join the ranks of the advertisers you join the ranks of the biggest and most successful merchants and manufacturers of the world.

How many concerns can you name in Chicago, in New York, in Kansas City, in Boston, in any large city in the country? Name them and you will notice that all are big advertisers and all are lead-ers in their lines. Ask your cessful merchants they know in the big cities and in each case the name of a great advertiser will be mentioned.

The same rule is true of smaller cities and towns. The successful merchants are the advertisers. The advertiser stamps himself as one havhis wares, as one proud of his calling and seeking publicity and the test of patronage.

JOIN THE RANKS OF SUCCESSFUL ADVERTISERS.

Pulley Horsepower.
A rule for finding horsepower of pulley is to multiply the circumferace of the pulley in feet by the revolutions per minute and the product thus obtained by the width of the belt in inches and divide the result by 600. The quotient will be the borsepower which the pulley is capable of trans-Cow market is slow, extreme mitting. This rule is founded on the fact that good, ordinary single leather belting, with a tension of fifty-five pointds per inch wide, will require fifty square feet of belt surface passing over the pulley per minute for one horsepower. Fifty square feet per minute are equal to a belt one inch wide running 600 feet per minute.

> Ruskin's Burlesque of Shelley. ceeds to give a specimen of how it could be done:

No Cross Examination. "Did the attorney for the defense

cross examine you?"

FOR THE NORTHWEST

(By PROF. THOS. SHAW.)

There is now in the quarantine at South Quebec the largest importation of milking Shortharns ever brought to America. Herotofore only a few individuals of this class have ever crossed the Atlantic for this country. These cattle were purchased in Eng-land by Mr. J. J. Hill, and will be brought to his North Oaks farm not far from St. Paul. Mr. Hill is a atrong believer in the value of the two purpose cow, that is, the cow for milk and also for beef, usually spoken of now as the dual purpose cow, and of cows of this class he regards none as superior to the collaing Shorthorns, called in Britain the dairy Shorthorn. He believes that this type of cow is one that is admirably sulted to the needs of the average farmer, and in this he is unquestionably right, not withstanding the leaching of many in our experiment stations to the con-

Many in those stations have taught that there was no place for the dual cow on the farm. They have said she was "a myth, a delusion and a snare." They have claimed that to keep her on the farm was like "going to hunt prairie chickens with a buil pup," or like "riding into battle on a heavy draught horse." Those men were honest in their statements, but they simply did not know. They thought they knew, but they were mistaken. More over, they claimed that dual cattle could not be bred. For twenty-five years some of those men have been diligently propagating that nonsense, and the public funds have borne the

The folly of such teaching will be apparent from the following: In Eng-tand there is today an association for promoting the interests of this breed. This association has now 185 members. In 1912 it published the records of milk projection from 234 females, of which quite a percentage were helfers with their first lactation pe-

The average of milk production from these was between 7,000 and 8,000 pounds for the year. Some higher than 13,000 pounds. At Kelenscott, Lechlade, Gloucestershire, the owner, Robert Hobbs, has kept milking Shorthorns constantly since 1878. cows in milk. Since 1908 the average of all these, including a large lot of beffers, in milk production has been considerably more than 6,000 rounds a one-year milk record ending May 31, 1913, gave 13,533 pounds, and the cow Rose 57th 14,277 pounds. Many other instances of similar production may be cited. Cows of this breed stand first in the milking trials of the shows more frequently than those of any other breed, including the milking

While the production of milk is thus highly satisfactory, all the males not wanted for beef are grown into bul-They are reared on skim milk and adjuncts during the milk period. They are sold at the age of eighteen to thirty months. At twenty-four m-nths they usually average not less than 1,200 pounds, and sell for \$100 to \$125 each. They are favorites with the butcher, as there is less loss in cutting up the carcass than with bul-locks reared on the dams. There is a larger proportion of lean and less undesirable fat on the hand reared steers. It is a fact that fully 80 per cent of the milk used in Britain comes from pure and grade Shorthorns and nearly as high a percentage of the meat. Mr. Powell, the venerable secretary of the Shorthorn association, told the writer that even many of the breeders of Scotch Shorthorns are now milking their herds. Think of the prices which those cattle bring. At the dispersal sale of Garrett Taylor last year 183 females of all ages sold for an average of £83, 16s, 6d. The people of Argentina, South Africa, New Zealand and Australia are now buying these cattle in large numbers.

claim that they can't be bred. Mr. Hill's Shorthorn importation consists of twenty-eight animals, of which three are males. The females are young rows from two to six years old. They are all now milking and will calve again in due time. Individually they rank high, having been chosen with much care. They have milk records running from 6,000 to 10,000 pounds a year.

There is certainly large room for this class of cattle in all the Northwestern states. This does not mean that there is no place for the dairy There is a wide place also for the dairy breeds, but viewed from the standpoint of the present and prospective demand for beef there is a much larger place for dual cattle. This in future must come from the arable farm, and it must come mainly from dual cattle that wil, be milked.

Cost of Living.

Look out for another boost in the price of kerosene. It has been found that this useful fluid is highly efficaclous in exterminating grasshoppers .-Chicago Tribune.

The New York Press discovers that wedding presents are not on the free list. Why doesn't somebody start a crusade about the high cost of invitations?-Cleveland Plain Dealer.

Wives of New York men who are trying to cut the cost of living by doing their own shopping in a public market will probably hire a taxi to take them downtown and a few servants to carry their bundles .- Milwaukee Sentinel.
