A young mule, the property of Reeves Wilcoxon, is in grave danger of being taken before a Federal grand jury for robbing the U. S. mail. Last week the scamp watched his chance and taking the Redmond Spokesman's weekly budget from the mail bag proceeded to masticate same. Some of those jawbreakers used by the correspondent, however, proved too much, even for the mule, but it is safe to say the Spokesman contained no Powell Butte items last week.

Mrs. M. M. Patton left Thursday for Opal City after a pleasant visit with her brother, N. P. Alley, and family. Mrs. Patton's home is in Portland and she will return there after overseeing some work on her homestead near Opal City.

J. A. Riggs moved his steers from the Wilson place to his home place Saturday. With such fine open weather the cattle are doing well on pasture.

A banquet served by the members of the Powell Butte Sorosis to their husbands and sweethearts at the home of Mrs. Ida Morse Thursday evening was a decided success. Conveyances began to arrive at 7 and by 8 o'clock the entire company had gathered. By previous agreement no lady was permitted to take her husband for a dinner partner and indeed this exchange seemed to be most agreeable to the husbands. Plates were laid for 54 in the well appointed dining room whose snowy tables were ablaze with numerous candles. A delicious three-course dinner was served, consisting of oyster cock-tail, celery salad, baked chicken and dressing, scalloped potatoes, baked beans, roast pork, cranberries, pickles, pumpkin pie, assorted cakes, plum pudding and coffee. A short literary program followed the feast. Mrs. G. Truesdale, in the capacity of toast master, requested a roll call to which each lady responded with a toast to the guests. Mrs. Van Morse next favored the company with an excellent reading. Miss Mable Allen also read a humorous selection. Both these numbers were much enjoyed. The ladies gave a toast in concert that was greatly enjoyed.

## High School Notes

At last the Domestic Science kitchen is in working order and rumor has it that already some savory dishes have been prepared by the girls of that department.

Fortunate, indeed, were the students and faculty of the high school who went with Miss Herman to Europe Wednesday morning during assembly. In her pleasing manner Miss Herman personally conducted us through many interesting places in Germany, enlightening the voyage with unique stories and little personal touches which delighted all who heard her. In the quaint old city of Nuremberg she left us, but has promised that in the near future she will take us to Rome, Paris and London.

The class in stock judging, accompanied by their instructor, H. E. Pratt, visited the Oliver Powell ranch Saturday morning.

Last Friday evening the Alpha tryout for the inter-society declamation contest was held in the assembly room of the high school. ## Snakes and Their Food.

No serpents are vegetarian. The majority hunt birds and mammals; a few of the smaller kinds are insectivorous, certain little tropical burrowers spending their lives as ogres in ant hills, feeding upon the larvae; some eat frogs, lizards, and other snakes. The tropical marine serpents catch fish exclusively and rarely come upon land except to leave their eggs. Scarcely one will devour dead food in nature, yet may be taught to take it in captivity.

## Rafts.

Rafts were used by nearly all the nations of antiquity. Herodotus, the father of history, tells us that they were in use in ancient Chaldea.

## Portland Cattle Market

A large proportion of the week's cattle business has been on a lower basis, due to the general inferiority of the stuff marketed. When an occasional prime load of steers or cows appeared in the yards, order buyers snapped them up quickly at top prices. A steer sale Monday at \$7.75 and a load or two at \$7.40 and \$7.50 is an example, but the bulk of sales were at \$7.00 and \$7.25. The poorest lot of cows and heifers seen here for weeks caused the session to drag. Killers are simply oversupplied on poor beef quality. Other butcher

## Ashwood Wants Roads

Continued from first page.

Ashwood, thence to Gateway. The land and labor was nearly all subscribed and there it was dropped. For the lack of this one road two postoffices and two rural free-delivery routes are being held up.

County Judge Springer, while on his pre-election tour of the county, promised the people some good roads, but still we pull laboriously up hills and put on the brake going down the other side. Horses rest when their drivers are opening the hundred and one gates and it takes four horses to pull an empty wagon.

Do we favor good roads? Yes. But we want some where we can use them and do not want to pay taxes to build roads for our automobile friends in Washington and California.
