

Columbia Semi-Malleable Range

In the Columbia Range, we believe we are offering one of the very best and most attractive ranges made. It's a sanitary range. No place for dirt and scrubbing water to lodge year after year until the dirtiest place in the house is under the kitchen range, as is the case with all ranges running to the floor. It is a handy range, too. The polished top makes it easy to clean. The lift-up plate in front makes it handy to empty trash, etc. The damper handle in front is always cool. We are selling these ranges at a very low figure considering quality and will put them out on the easy payment plan.

WE WOULD BE GLAD TO HAVE YOU CALL AND MAKE A PERSONAL INSPECTION

J. E. STEWART & COMPANY

Powell Butte

Lon A. Reed left Tuesday for Hermiston, Oregon, after a two weeks' visit at the home of his wife's parents, Mr. and Mrs. Tuck. Mr. Reed may conclude to locate here, in which event Mrs. Reed and daughter will join him later.

N. P. Alley was a business visitor to Prineville Wednesday.

Mrs. A. W. Bayn and daughters Gladys and Hazel went to Prineville Tuesday, the former returning home Wednesday, while the young ladies remained to resume their studies in high school.

A pleasant session of the Powell Butte Sorosis was held at the home of Mrs. J. J. Chapman, Wednesday. The afternoon was given over to plans for a sale and supper which the ladies are to give on the evening of February 21st, in the new Wilson school house. Before the hour for departure a delicious luncheon was served by the hostess, assisted by her sister, Miss Lucy Poore. The next meeting will be January 24th, at which time Mrs. Ida Morse and daughter will be hostesses.

Allen Wilcoxon and his father-in-law, Geo. H. Roe, were Prineville visitors Wednesday.

Miss Marie Austin, a popular "hello girl" in the Redmond telephone exchange, visited Thursday at the Allen Wilcoxon home.

Mr. and Mrs. N. B. Golden, who recently sold their farm here, left Friday for Portland, where they will spend some time visiting a son and daughter before they decide on a future location. It is probable they will remain in the Valley however.

Mrs. John Kissler, of Redmond, came out Friday for a visit at the home of her son, Geo. Kissler and family.

Mr. Moore and sons have been hauling lumber from Redmond the past week preparatory to starting work on the new house which they will build on their recently acquired farm, the Golden place.

S. D. Mustard, H. K. Allen, J. L. Gibson, W. G. Mustard, Chris. Seitz, G. C. Grindale and A. O. Walker were Powell Butte farmers who shipped hogs to Portland last week. The Farmers' Warehouse at Redmond had charge of the shipment.

J. P. Doherty has been visiting Reeves Wilcoxon the past week. We understand that Mr. Doherty will establish his residence on his ditch land soon for the purpose of making final proof.

Several of our people started plowing last week. This would not indicate a very severe winter.

Mrs. Geo. H. Roe, mother of Mrs.

Allen Wilcoxon, at whose home she is visiting, is reported to be quite ill. Her many friends hope for a speedy recovery.

Mr. and Mrs. Frank McCaffery, of Redmond, visited Thursday in this section, guests of Mr. and Mrs. E. L. Iverson.

Notwithstanding the many difficulties encountered by patrons of the new school district No. 90, their dream of a comfortable little school house wherein their children might be instructed in the ways of future good citizenship is fast being realized. With the last coat of paint and the preparing of blackboards, the building, which is a thoroughly satisfactory one for the needs of the present, will be presented to the district by the building committee with only a small debt against its otherwise clear title. The land for the school was donated by Wm. Wilson, of Alaska, a large land owner in these parts. Mr. Wilson also donated the paint. Cash to buy building material has been donated by almost every landowner in the district, and the work of building has been donated also. That this good work has been completed is due to the untiring energy of the patrons who rather than send their children any where from 3 to 5 miles to school attempted this plan of building a schoolhouse on undeeded lands and in many cases have worked hardships on themselves that their scheme might succeed.

Harry Speer brought a load of lumber down from Bend Saturday to be used in remodeling the house on his homestead.

Free Dry Land Alfalfa Seed

The increased interest in alfalfa growing in the Central Oregon country is shown in the fact that W. C. Wilkes, assistant general freight and passenger agent of the Oregon Trunk Railway, has received over 150 applications for seed for dry farm cropping. Working in conjunction with Senator Geo. E. Chamberlain, of Washington, the Oregon Trunk officials have asked and have been granted several times the amount of the original allotment of alfalfa seed for this section. About six pounds of the seed are estimated to be necessary for one acre. Applicants who indicate they will try hard to get the best results for the seeding and follow instructions literally regarding planting, preparation, care of ground, etc., are usually given first consideration. No one, however, has been refused. It is believed that if there is a general cultivation of alfalfa it will be better for all concerned.

Cooking Rice.
About the best way rice can be cooked is to boil it for twenty minutes in two and a half times its bulk of water. If covered with a piece of cheesecloth it will keep warm for an hour. At the same time the rice will not only be tender and sweet, but will have retained a good share of whatever nutriment it originally possessed.

Pupil of the Eye.
The pupil of the eye is a deep hole filled by a transparent lens and fitted with a most exquisite arrangement of muscles which widen it when the light is dim and narrow it in a strong glare.

Palmer Writing System

The Text-book Commission last June adopted the A. N. Palmer Writing System for use throughout the state of Oregon. This adoption is good for six years.

In order that the people may have full benefit of the system the Palmer people have agreed to give free instruction to every public school teacher in Oregon. These drill papers are received once a week and the course continues until each teacher shall have developed her skill in this muscular movement writing system to such an extent that she may be granted a diploma. Of course it will require a much longer time for some than for others. It is most gratifying to note that most of our teachers are taking up this special writing system offered by the Palmer people. The graded school teachers make application for membership through their various principals. The rural teachers make application for membership through the county superintendents of each county.

Below are the names of the districts and rural teachers who are availing themselves of the opportunity offered in Crook county:

- District 2, Hildreth Geyer, Prineville.

The Declamatory Contest

The annual inter-society declamatory contest between the Alpha and Ochoconian literary societies of Crook County High School was held Friday evening, January 9, in the M. E. church. The church was crowded with the friends of the contestants who showed their appreciation of each number by hearty applause.

The winners in each division are as follows: Oratorical, Orville Yancey, Alpha, first; Elmer Thomas, Ochoconian, second. Dramatic,

Ruby Wood, Ochoconian, first; Beatrice Johnson, Ochoconian, second. Humorous, Florence Waldron, Alpha, first; Gladys Bayn, Alpha, second. The contest as a whole was won by the Alpha society.

Mrs. Edwards' violin solo was much appreciated as were also the vocal duet by the Misses Williams and the instrumental trio by the Misses Slayton and Miss Elma Noble.
