

FORCED TO RAISE MONEY

It is easy said, but not so easily done, even if you do hold a sale for that purpose, and as I fully understand that, especially at this time of the year, it will be a hard matter. Just the same I **MUST** and am willing to furnish ample proof, and in order to meet my obligations and keep my credit, I will sacrifice my stock and sell at absolute cost and below (excepting a few contract articles) until I have raised the **sum of \$2,000.00** which must be raised **THIS MONTH**. Some friend will say, "He ought to have done this before the holidays." Well, neighbor, in the first place I expected to do enough business so I would not have to, as I bought very heavy for the holidays. Second, I do not believe in sales, especially in my line, and believe me I would not hold this one if I possibly could get out of it, but now that I must I'll hold it right, and assure you that never at no sale have you been able to buy cheaper in **high grade jewelry** than you will now. Get that watch now. I can furnish any standard make. To mention every article would take too much space, but below I give a little idea of how I will cut the prices.
