WOMAN AND HOME.

The level of public entertainment is sinking, and the overemphasis of sex in the maga-Blmos, fiction, plays and even the opera is immentable. But the solution is in our own hands, and I for one have stopped going to theaters where such plays are produced, and I have discontintied my subscription to two magnames that have taken up the prevailing deplorable fashion of emphasizing the sex question in fletion. Keep these things out and you will to a long way to-ward changing "heaven is our home" to "our home is heaven." There is woman, for one, to make it so. For self sucrifice, devotion, legalty, gentleness and subordination of self woman always was and always will be leagues gihead of us men. I recoffect that when I was in Chlna a mandarin said to me that the greatest thing that Christ had accomplished was the elevation of woman to her proper sphere. Andrew Carnegie.

PROFIT SHARING.

The question is, Can we go on still further with the wage sys-tem and democracy? I think not. We have seen for twenty years the growing hostility between these two camps-labor and capital. Under the wage system it was inevitable that there should be two forces. We have tried various devices to end this strife-arbitration of varions kinds and the Canadian sys-An industrial method which gives the workman or operative the same motive and interest which the owner feels is the thing that is desirable-that is, the road to efficiency-to increase not only a single trade like yours, but the efficiency and sess of the whole bearle How do it? CHURCH ARISTOCRATIC.

The wage corner has small voice in the matter. The modern church is seldom organized so as to reach him. He has dropped the churca-at least, the Protestant churches-or the churches have dropped him. The churches are dying of dry rot, yet within them few seem to realize why. That cause largely lies in the conservative determination to insist on various credal platforms. and once this policy is adopted the exodus of the progressive part of the church membership is only a question of time. The church does not represent today the whole people as once it did. Disheartened by its proved im-mobility, its would be reformers have left it or have been driven forth from it. Its 'standpatters' remain within it, rule its deliberations and direct its policy. In a democratic age and country the American churches are aristoeratic.-Dr. William S.
