Up-to-Date and Novel

Advertising Methods Adopted by an Enterprising House.

That The Prineville Mercantile Co. is fast becoming metropolitan in the methods of advertising used by our merchants to call the buying public's attention to the many splendid values which they are offering, also that the wide-awake firm of The Prineville Mercantile Co. are keeping up with and just a little ahead of the times in an advertising respect is again practically demonstrated by what is perhaps the most elaborate system of advertising ever attempted by any business house in this section, namely: the giving away of a beautiful \$400 Parlor Grand Piano which is now on exhibition at their store.

The piano retails at \$400.00 each, guaranteed for ten years. The principal points of superiority of this celebrated Grand piano over any other of this class of instruments lie in the three strings in unison with overstrung bass, the splendidly pitched scale and true sounding board which give the instrument that rich, deep, even tone so much admired.

In a recent interview with Messrs. Jordan & Robinson regarding this decided innovation in advertising, Mr. Jordan stated: "We have been enjoying the patronage and confidence of the buyers of this community for some time now and by always trying to keep our stocks complete the saying that 'You can get it at Jordan's has become a household expression.

In giving away this piano we are actuated by a double purpose, to show our appreciation of the patronage of our friends during the past, also to encourage new trade and to bring the many splendid values we are now showing in all lines to the attention of every buyer in this territory. The plan we are using in giving away this piano is equitable and fair to all, simply this, every person buying one dollar's worth of anything in our store will receive a coupon good for 100 votes. The person returning to us the largest number of votes will be given the piano absolutely free of all cost. No favors will be shown. Our reputation for 'square dealing' assures our customers of that fact."

This four hundred dollar Parlor Grand Piano is surely a present worth having and we predict a very "merry race" for votes during the next few months.

The Prineville Mercantile Co. is surely to be congratulated upon their broad-minded methods and "Trade Getter" advertising system.

C. C. H. S. Notes

The domestic science department entertained the high school board and the high school faculty at a six-course dinner last week. The viands were prepared by the girls in the department kitchen and served in the department dining room. The girls proved that they knew the "why, what and how" of cookery by their manner of cooking and serving this dinner.

The Ladies' Annex of the Prineville Commercial Club gave the domestic science department a check for five dollars last Tuesday. The money was given for the purpose of purchasing needed kitchen utensils. The girls were very happy because of the interest and kindness shown them.

The faculty of Crook County High School are preparing a schedule for a summer school to be held in Prineville in time for the county teachers to take advantage of the work in preparing for state examinations. Students will also be allowed to make up back work and there will be a class in methods. All those interested should write Superintendents Myers or Baughman.

The juniors are arranging for a class play in the near future.

Orations are the chief topic in the English department just at present. The contest date is rapidly approaching.

The German classes are doing good work this year. Already Miss Herman can converse with her pupils in the language of the Kaiser.

The manual training boys are turning out some fine pieces of work. They are anxious for the patrons of the school to visit them in their industrial room.

The botany classes were given a rare treat when they were taken by their instructor, Mr. Smith, to his home where they had the privilege of studying 150 specimens of Oregon flowers that were artistically mounted and displayed upon the walls of several rooms. The flowers had been collected and mounted by Mrs. Edwards during the past year and given as illustrations for her upon "Oregon Flowers" at the Shumia Club meeting Saturday. The club met at Mr. Smith's home and he asked the privilege of allowing his classes to inspect the fine collection.

A Carelessly Treated Cold

is the source of most sickness because drugged pills, syrups and alcoholic mixtures are uncertain and unsafe.

Scott's Emulsion has been relied upon by physicians for forty years as the safe and sensible remedy to suppress the cold and build up the enfeebled forces to avert throat and lung troubles.

Don't tolerate alcoholic substitutes, but insist on the Genuine Scott's Emulsion. One bottle usually lasts longer than a cold. Every druggist has it. 13-73
