

## Property Owners Must Help the Firemen

The firemen's rally last Friday evening was well attended. W. F. King was chosen chairman. He explained the need of a better fire organization.

Councilman Elkins explained a sort of tentative plan he had in mind. Beds located near the fire apparatus would be furnished twelve men who would form the nucleus of two companies. The rooms and bed, together with janitor service, to be provided by the city.

The chairman thought that if two men from each company would volunteer to take the initiative and go ahead and see the old members that interest enough would be taken to re-establish the old fire companies. A rising vote was taken to see how many of those present were willing to join and the result was so encouraging that volunteers from the old companies were called for. Lester Cohrs and George Reams offered from No. 1, Mayor Clifton and Theodore Mingers from No. 2 and Gardiner Perry and Jack Summers for the Board of Fire Delegates.

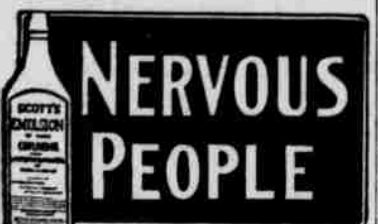

Another matter that did not sit very well with the firemen was the absence of property owners. Why a matter of such concern to people with homes should be passed up was beyond comprehension. One thing is certain, unless property owners take more interest in the department the city will have to levy a tax for fire protection.

Are you wearing lenses that are not satisfactory? If you are having trouble with your eyes, it will pay you to come direct to me. I will give your eyes a thorough and careful examination free of charge and tell you the exact condition they are in.

**I Fit Every Conceivable Style of SPECTACLES and EYEGALASSES**

Dr. Behrendt is now introducing the late Kryptok Invisible Bifocals and Toric Lens, which is without doubt the finest lens ever put on the market. Perfect fitting glasses, ground especially for weak eyes, astigmatism, near-sightedness, far-sightedness, reading or fine work.

We especially solicit complicated cases. Our experience often enables us to give satisfaction when others have failed. Our glasses cure headache, neuralgia, nervousness, tired eyes, aching eyes, styes, granulated lids, bloodshot eyes, etc.

Remember that our responsibility does not end until you have obtained the satisfaction you expect.

**Parents Should Not Neglect Their Children's Eyes**

For a pair of glasses, worn for a few months, will often enable a child's eyes to strengthen and fully develop, while neglect at this critical time will so injure the eyes as to make it necessary, sooner or later, for them to put on glasses and wear them continually.
