Valuable Rights-of-Way Given Freely

The Prineville Commercial Club is not relaxing in its efforts to get the best possible mileage out of the money expended on the roads east of this city. Of course the club has no say in the location of the roads or grades. The matter is left entirely with the people who use them and the county judge. In all other matters the club is right behind the good roads movement pushing and helping all it can. The spirit of road betterment keeps growing all the time in the country southeast of Prineville. Ralph Porfily, J. N. Williamson and J. H. Gray & Son have given free rights-of-way through their ranches. In some cases right through irrigated fields. It is this freehanded generosity on the part of the ranchers that is so encouraging to the members of the Prineville Commercial Club who have worked so hard for this road improvement. When Seth Dixon and others will travel forty miles to hold a meeting at Granville Nye's place in order to eliminate hills from the grade, it means much more than the physical discomfort of the journey. It means that the whole country will get behind the movement for good roads and push it to a successful conclusion.

E. E. Lytle, Railroad Builder, in Prineville

E. E. Lytle, the builder of the Shaniko and Tillamook railroads, arrived in Prineville last evening. He was accompanied by Engineer Von Planta of the Metolius-Prineville R. R. Messrs. Baldwin and Smith are showing the gentlemen around the country this afternoon.

Prof. Lewark is Called to Virginia

Prof. Lewark, principal of the Prineville public school, has received a very flattering offer from an agricultural high school in Virginia and will leave for that state at the close of school here. The high school farm is a large one and requires supervision the year round. Mr. and Mrs. Lewark have done first-class work here in their chosen profession.

H. L. Priday Topps Portland Market

H. L. Priday of Trout creek has topped the Portland market so far this year for heavy steers. He had a carload of fancy heavy stuff that sold for \$8.10 last week. Prime light cattle sold from \$8 to \$8.35. A carload of fancy steers brought the latter figure. The prospects are good for the continuation of a good market for some time to come. Receipts of hogs have been of moderate volume, the demand quite good from all sources and prices 10c to 15c higher. A number of cars were sold on Monday's market at \$8.75 and four loads of Idaho hogs at \$8.80.

There has been a lot of sheep and lambs on the market this week. The demand has slackened considerable, while the market is not much lower. It is hard to move sheep at last week's prices. There has been quite a number of cars of spring lambs from Southern Oregon and California points consequently buyers are neglecting our shorn lambs and yearlings.

Benson Issues Worthless Checks

John Benson is the name of a new boarder at the county jail. He drew several checks on the Madras bank and passed them on the local merchants. They all came back marked "no funds." The Sage of Harney Visits Prineville

William Hanley, the sage of Harney county, passed through Prineville Monday on his way to Portland. Hanley wasn't talking much politics, intimating that he would have plenty to say later on. He is a dyed-in-the-wool westerner, though, and leaves no doubt in your mind as to where he stands on the conservation question. He believes in the West for the West.

E. L. Milner of Madras Wants to be Sheriff

E. L. Milner of Madras announces himself this week as a candidate for the nomination of sheriff on the democratic ticket. He has been a resident of this county four years. During that time he has been superintendent of the Madras Flour Mills. Lately he has become interested in farm lands. His race is being made, he says, as a people's candidate, and not backed by any faction or ring.

Just seven more days in which to register. Only 398 have registered in Prineville. This isn't enough. Bend has only 254, which shows that the people over there are remiss in their duty. Perfect fitting glasses, ground especially for weak eyes, astigmatism, near-sightedness, far-sightedness, reading or fine work.

We especially solicit complicated cases. Our experience often enables us to give satisfaction when others have failed.

Our glasses cure headache, neuralgia, nervousness, tired eyes, aching eyes, styes, granulated lids, bloodshot eyes, etc.

Remember that our responsibility does not end until you have obtained the satisfaction you expect.

Parents Should Not Neglect Their Children's Eyes

For a pair of glasses, worn for a few months, will often enable a child's eyes to strengthen and fully develop, while neglect at this critical time will so injure the eyes as to make it necessary, sooner or later, for them to put on glasses and wear them continually.
