

OREGON NEWS NOTES OF GENERAL INTEREST

Events Occurring Throughout
the State During the Past
Week.

Want Men to Call Own Recall.

Eugene.—A writ of mandamus asking the circuit court to compel William Smeed, chairman, W. H. Wood, member of the school board, and W. J. King, clerk of the Walthersville school district, in this county, to call a special election for the recall of Smeed and Wood, has been filed. The recall was invoked upon these men some time ago, but they refused to call the election. In their official capacity they were the only ones who could call such an election, and it is in this unsettled state that the matter has remained. The trouble is over the employment of a teacher and his salary, about which some of the patrons of the school complained.

Registration for State is 179,716.

Salem.—Secretary of State Olcott announced Monday that the total registration as reported to him by the county clerks was 179,716. There are only four days remaining on which to register for the primary, and, unless there is a big increase on these days, the total will not be more than 200,000 or about 40,000 more than it was in 1912, when the women were not entitled to vote and the population of the state was considerably smaller.

Cool Line is Rushed.

Marshfield.—The construction work on the Willamette-Pacific railroad, between Marshfield and the Tenmile lakes, a distance of 17 miles, is progressing as fast as labor can hasten it. Hauser & Houser, the contractors, have all but three miles and a half of the right-of-way cleared and it is expected the force of about 600 men will be doubled soon.

Birds Come Back.

Klamath Falls.—Not in many years has the number of geese in the Klamath country been as large as now, when the big game birds are returning for nesting. All day and all night, the honks of flocks are to be heard, as the birds wend their way toward upper Klamath lake, and steamboat men say that the lake is literally alive with them.

CAVALRY SURVEY IS MADE

After Conference With Officials Lieutenant Hennessey Talks of Project. Portland.—Pendleton, Klamath Falls, Medford, and possibly Baker will be among the Oregon towns at which cavalry troops will be organized for the regiment projected by Lieutenant P. J. Hennessey, U. S. A., who is detailed as military instructor at the Oregon agricultural college, Corvallis.

It is regarded as certain that troops, consisting of about 55 men each, could be raised at each of these towns, and at other towns in southern, central and eastern Oregon. The Rogue River valley, of which Medford is the center, could possibly provide two or more troops. Another might be raised at Roseburg.

Lieutenant Hennessey came to Portland from Salem, where he had a conference with Governor West about raising the regiment. He found the chief executive enthusiastic over the idea, even to the point of announcing his desire to become a member of the organization.

Polk Fair is Under Way.

Monmouth.—Active preparations have been begun by the pupils in the schools of this city and other sections of southern Polk county for the annual school children's industrial fair to be held in Dallas next September, county. Valuable prizes in livestock and cash are on the list. More than \$500 in prizes has been offered by altruistic citizens of the

Manslaughter is Alexander Verdict. Grants Pass.—William Alexander, a 75-year-old prospector, was convicted by a jury in the circuit court of manslaughter. Alexander was charged with the murder of John Norling and Curtis Masterson in a cabin on Sucker creek on January 13, and the present trial was for the killing of Norling, he not having yet been on trial for the killing of Masterson.

To Dismiss Baker Cases.

Baker.—The case against all city officials of Copperfield, indicted following the crusade by Governor West, will be dismissed, District Attorney Godwin has announced, following the acquittal of Mayor William Stewart on a charge of violating liquor laws, by a jury in five minutes.

Alleged Murderer Held.

Marshfield.—James Ferrari, accused of killing John Kelly at Henryville, was indicted by the Coos county grand jury at Coquille for first-degree murder.

GENERAL FUNSTON

Brigadier General Frederick Funston, who will command the first detachment of troops landed at Vera Cruz.

GERMANS HELP AMERICANS

Mexicans at Tampico Cry "Death to Gringos," "Viva Huerta."

Galveston.—Refugees from Mexico arriving here brought fresh stories of sudden flight, of privation and insult to the American flag. Many of the refugees were nearly destitute, with children in their arms.

The story of the anti-American riot in Tampico, when German officers and steamers went to the rescue of the Americans and escorted 20 women and children aboard the German cruiser Dresden, was told by refugees. Officers of the battleship Connecticut said, but for this assistance, there would have been bloodshed.

After dark crowds swarmed the plaza, where fierce speeches were made and parades formed. "Viva Huerta" and "Death to the Gringos" cried the crowd. Stones were thrown and windows smashed. Then it was that Captain Von Kohler, of the German cruiser Dresden, sent a terse note to General Zaragoza, in command of the port of Tampico, that if he did not stop the rioting that "I will see to it personally that it is stopped."

Soldiers Go to Vera Cruz.

Galveston, Tex.—Twenty hours after orders to start for the front were received from Washington four regiments of infantry, comprising 3400 men, carrying 12 machine guns, sailed for Vera Cruz. The brigade will be commanded by Brigadier-General Frederick Funston.

Anti-Home Rulers Get 70,000 Rifles.

Belfast.—Outwitting the authorities, who had prohibited arms importation into Ireland, it was learned that anti-home rulers succeeded in landing 70,000 rifles and distributed them among the Ulster Orangemen.

COLORADO WIRES FOR FEDERAL SOLDIERS

Denver.—Yielding to the importunities of 800 militant Colorado women, Governor Ammons sent to the president a telegram "urgently requesting" that the chief executive order at least one battalion of infantry and troop of cavalry from the U. S. army into the Colorado strike zone.

The telegram sets forth in considerable detail the situation that has prevailed in southern Colorado since last September, and adds:

"There are probably 3000 men armed in open insurrection. I have available 650 militiamen without ability to materially increase this number. The situation has passed beyond the ability of the state to control. This domestic violence is the result of an industrial controversy between interstate organizations with headquarters outside of this state. I urgently request that you send forthwith not less than one battalion of infantry and one troop of cavalry."

American Consul Thrown Into Jail.

Washington.—United States Consul General Phillip C. Hanna, at Monterey, reported to Secretary Bryan that he had been humiliated and placed in jail by Mexicans on April 22. He was kept behind the bars until released two days later by the constitutionalists when they captured the city.

THE MARKETS

Portland.

Wheat—Club, 92c; bluestem, 99c; red Russian, 90c.
Hay—Timothy, \$16; alfalfa, \$13.
Butter—Creamery, 25c.
Eggs—Ranch, 19c.

Seattle.

Wheat—Bluestem, 98c; club, 92c; red Russian, 90c.
Hay—Timothy, \$17 per ton; alfalfa, \$14 per ton.
Eggs—22c.
Butter—Creamery, 28c.

BRIEF NEWS OF OREGON

A new strawberry cannery is being built at Hood River and it is expected the plant will be in operation in time for the care of this year's crop.

Work of remodeling the statehouse at Salem is progressing rapidly and it will be completed this summer, it is expected.

Halibut fishing at Newport promises to be a thriving industry this year. A number of Portland men are interested in boats which will be used.

Bandon is the scene of some activity on account of gold being found in paying quantities in black sands. Work is returning \$3 to \$30 a ton.

With the stock show but little more than a month ahead, Union is making preparations to hold the annual event on a vast scale.

Bumper crop of strawberries is predicted for the Marion county section, the growers seeing no dangers ahead aside from possibility of frosts. Rains have not hurt blossoms.

What is said to be a new kind of oyster has been discovered in the reefs off Newport. The bivalve is larger than transplanted eastern variety and resembles the Japanese product.

In event the president issues a call for militia, the Oregon militia will concentrate and organize for field service at Clackamas, under plans arranged by the militia division of the war department.

The damage to the prune crop in a radius of 15 miles from Salem is said to be about \$300,000 as result of recent heavy rains. If the cold weather continues the loss will be heavier, says Robert Paulus, secretary of the Salem fruit union.

Representative Hawley has received by parcel post squared pieces of manzanita of beautiful color from Ashland. The committee on agriculture plans giving the speaker a gavel made of wood from the various states represented by its members. Hawley was asked to procure the manzanita.

In his initiative petition, which was filed with the secretary of state April 24, William A. Carter, republican candidate for governor, estimates that a saving of over \$500,000 annually will be saved the taxpayers of the state by the abolition of certain boards and commissions and the consolidation of others provided for in the petition.

Whether the prohibition party will put up a candidate of its own for governor or will endorse one of the candidates of the other parties already in the field will be the most important step to be decided at the state convention of the prohibition party to be held in Portland May 5 and 6.

Greek drama in the original Greek tongue for the first time in the Pacific northwest will be played in Portland May 13 and 14 by the students and faculty of Reed college. The Antigone of Sophocles to the accompaniment of the special music written by Mendelssohn is the drama selected for production.

If a plan approved by the local school board and the local dental association is carried out Pendleton will next year install a free dental clinic in her public schools for children who cannot afford to consult the dentist. The board will equip an office, and the local dentists will donate their services free of charge on certain days.

Thousands of voters of Oregon are debating the question of the effect that woman suffrage in this state will have upon the prohibition election next fall. Many take the view that the women will vote upon this proposition as their husbands and brothers do. Others argue that the women will in many instances take upon themselves the responsibility of voting as they think best.

President Wilson has been asked to sanction the organization in Portland of a regiment of prospectors and miners to take the field in Mexico. This regiment would be composed of men who are accustomed to the outdoor life, and their ability to give good account of themselves, either in field or mountain, under any and all circumstances, is their chief claim for recognition.

Representative Sinnott has introduced a bill conveying to Klamath Falls all the unsurveyed lands on Lake Ewauna for a public park. He has also submitted to the committee on public lands an amendment to the coal land leasing bill, providing that lessees pay all the state and county taxes on leaseholds. This, he thinks, will tend to remove the objections to the policy of reserving such lands in public ownership.

The secretary of the treasury informs Senator Chamberlain that information gathered from the departments requiring room in the federal building at Astoria indicates that a three-story building having 9000 feet of ground area will be necessary. The cost of such a building, to be brick faced and fire proof throughout, will be \$250,000. Senator Chamberlain will introduce a bill providing for the erection of such a building on the present site.

BUICK

The Car that
Sells by the
Train Load

The Buick Car Sets Mark in a Run

Twenty and One-Tenth Miles Made on One Gallon of "Gas"

Twenty and one-tenth miles on one gallon of gasoline by a six-cylinder Buick car! That's the mark that the Buick Motor Company may advertise to the world as an official performance.

Not only did the Buick "Six" set this remarkable economy mark on January 14, but the Model B-25, under similar running conditions, made 22.7 miles per gallon, while a third machine, a Model B-37, with no gravity feed tank for the measured gallon of gasoline, made 17.97 miles. The later two models are fours.

With F. E. Edwards, former American Automobile Association technical expert and one of the most conscientious officials in the industry, in charge of the technical committee and with Darwin Hatch, St. Clair Couzens, Reed Parker and E. G. Westlake to furnish the affidavits as passengers in the Buick cars, the machines were taken to Thirty-third street and South Park avenue, Chicago, where the attested Warner speedometers were set and officially recorded by Messrs. Edwards and Hatch, engines were run until they had sucked the gasoline leads dry and the technical committee carefully supplied each car with one gallon of gasoline that rated 62 in a temperature 55 degrees Fahrenheit.

Soon after the machines reached Jackson Park, where a two-mile circuit at and near the lake shore was utilized for a testing ground, the wind set in off the lake, the roadways became sheeted in ice and the temperature fell to 32 degrees. The southwest wind, that blew 23 miles an hour at the start, shifted off the lake and became raw and cold, offering great resistance to the machines.

The Buick "six" weighed 4550 pounds, with four passengers and equipment, the "25" weighed 3300 pounds and the "37" 3780 pounds, including four passengers and equipment. The "six" has an engine 3 3/4x5, the "25" has a bore and stroke of 3 3/4 each, while the "37" is 3 3/4x5. The gear ratio of the "six" is 3 3/4 to 1, while the others have a 4-to-1 gear ratio.

Notice of Sheriff's Sale.

By virtue of an execution and order of sale duly issued by the clerk of the circuit court of the county of Crook, state of Oregon, dated the 27th day of March, 1914, in a certain action in the circuit court for said county and state, wherein the Bend Company, a corporation, as plaintiffs and judgment creditors, recovered judgment against G. C. and N. A. Cooper, partners, doing business as the Terrebonne Lumber Co., for the sum of Seven Hundred Nineteen and 20-100 dollars together with interest thereon at the rate of 10 per cent per annum from the 27th day of April, 1912, until paid, and for costs and disbursements.

Notice is hereby given that I will

ON THE 24 DAY OF MAY, 1914,
at the front door of the court house in Prineville, in said county, at 2 o'clock in the afternoon of said day, sell at public auction to the highest bidder, for cash, the following described property, to-wit:

Lots eight (8) and nine (9), in block one hundred and twenty-four (124), Hillman, Crook county, Oregon. Taken and levied upon as the property of the said G. C. and N. A. Cooper, partners, doing business under the firm name and style of the Terrebonne Lumber Co., or as much thereof as may be necessary to satisfy the said judgment in favor of The Bend Company, a corporation, against said Terrebonne Lumber Co. with interest thereon, together with all costs and disbursements that have or may accrue.

FRANK ELKINS, Sheriff.
Dated at Prineville, Oregon, April 1, 1914.

Stock Brands Must Be Renewed by June 3

Owing to the fact that at the last session of the Legislature a change was made in the law for branding livestock, I desire to give notice to all stockmen of Crook county that unless their brands are renewed before June 3, 1914, said brands will be cancelled. To renew these brands I have adopted the plan of recording the brand in the same way that it was first recorded. By doing this it will be necessary to file a leather with the brand burned upon the same, together with the application for recording the brand. The fee for recording is 50 cents. Applications may be received by writing to this office. It will not be necessary to renew brands that were recorded at this office after June 1, 1913.

THERE is work on your farm for an International Harvester tractor every week in the year. It will pull your plows, disks, drills, harrows, binders, haul your products and supplies, do road work, run your thrasher, ensilage cutter, husker and shredder, concrete mixer, well drill, etc.

For best tractor service use an IHC oil tractor—Mogul or Titan. They are built to meet field difficulties. Their mechanism is simple. Moving parts are carefully protected. There is no unnecessary weight. They satisfy buyers.

IHC oil tractors—Mogul and Titan, are built in sizes for all farms, from 6-12 to 30-60 H. P., to operate on kerosene and gasoline.

Write for catalogues and other information on International tractors and oil engines and we will tell you where to see the machines.
