

Railroad Men Very Favorably Impressed

Messrs. C. W. Wilkes and W. R. Skey, the railroad men who were here last week looking up the tonnage and the lay of the land generally in this neighborhood, finished their labors last night. The gentlemen are now prepared to make an exhaustive report to their respective companies. Both were very favorably impressed with Prineville and its tributary country. Stock-raising, hogs and dairying should make this country famous, they think.

Mr. Wilkes stated that they had seen more of this country in the past ten days than many of the old-timers. Members of the Commercial Club placed their cars at the disposal of the railroad men. Mr. Baldwin, who has lived here 36 years, saw more new country in taking the gentlemen around than he ever dreamed of before.

Rains Not Very Evenly Distributed

Heavy showers are reported from the Willow creek country the first of the week. So heavy, indeed, that in some localities they amounted to washouts.

Lots of rain is reported from the Powell Butte section of the county. Strange as it may seem Lamonta got none of the heavy rains. Northwest of Prineville the rain seemed to fall in half-mile streaks. One farmer would get too much while his neighbor would get none at all. Such are the vagaries of the weather man.

Madras Bad Check Man Out on Bonds

John Benson, who has been boarding with Sheriff Elkins since last April, regained his liberty Monday. A sister, living at Corvallis, stood good for him in the sum of \$500 until the September term of court. Benson was sent over from Madras on a charge of obtaining money under false pretences. He got money on bad checks.

Condart Sells Mortgaged Car

Chas. F. Condart of Prineville closed a deal with C. R. Powelson on Monday transferring a two-passenger auto to the latter and receiving a substantial check in payment. After the deal had been closed and Condart was on his way to Redmond, Mr. Powelson discovered that the car was mortgaged for many times what it is worth and also that there are a number of liens for labor and other obligations against it that make the car one of the most valuable and popular in the county. Payment was stopped on the check, which soon leaked out and the creditors got busy trying to gain possession.—Sisters Herald.

RHEUMATISM ARRESTED

Many people suffer the tortures of lame muscles and stiffened joints because of impurities in the blood, and each succeeding attack seems more acute until rheumatism has invaded the whole system. To arrest rheumatism it is quite as important to improve your general health as to purify your blood, and the cod liver oil in Scott's Emulsion is nature's great blood-maker, while its medicinal nourishment strengthens the organs to expel the impurities and rebuild your strength. Scott's Emulsion is helping thousands every day who could not find other relief. Refuse the alcoholic substitutes.

Eastern Star Initiates Seven New Members

The last meeting of Carnation Chapter O. E. S., was an unusually interesting one. About fifteen members of Bend Chapter were visitors and witnessed the initiation of a class of seven candidates. After the regular work a banquet in honor of the Bend guests and the newly initiated was enjoyed by all. M. E. Brink acted as toastmaster.

Mrs. H. P. Belknap gave a toast to "Our Visitors," which was ably responded to by Mr. Minor, worthy patron of Bend Chapter.

Mrs. C. W. Elkins, in her pleasing way, admonished the newly initiated that they continue to be "Learners," gathering some valuable lesson each day from the school of life.

Mrs. C. I. Winnek told "Why I Would Not Be a Mason" and Oscar Hyde gave his reasons "Why Women Should Not Be Masons."

Mrs. J. H. Wigle complimented "Our Men" in an original poem which met with the hearty approval of all the gentlemen.

L. M. Bechtel declared that it was a difficult matter to live with "Our Women" but much more difficult to live without them.

After a few pleasant and appropriate remarks from the toast master the banquet ended. Carnation Chapter then bade her guests good-night, hoping that many such happy visits might be exchanged between Bend and Carnation Chapters.

Bend Man Falls and Breaks His Neck

The coroner and county physician were called to Bend Monday by the accidental death of George Brosterhaus. Brosterhaus is a carpenter and had the contract for a new school building. While on the roof he accidentally lost his balance and fell 40 feet to the ground floor. His neck was broken. He leaves a widow, son and daughter.

The Big Car Got the Best of the Encounter

Carey Stearns put a bad looking front on Columbus Johnson's Ford Monday. Both cars were standing in front of the high school building where they are left while members of both families attend school. Carey was getting ready to leave and backed with such force into the smaller car that it was considerably damaged. It will take a new wheel, fender and radiator besides several and divers other parts before the car is ready for service again. The Chalmers car was not injured.

Ladies' Annex Holds Regular Meeting

The regular meeting of the Annex was held on Tuesday afternoon, June 2. The following committees for the preparation of the floats for the Fourth of July were appointed by the president:

Goddess of Liberty float—Mesdames Rice, Dishman, Biggs, Jordan, Carlson.

Annex float—Mesdames Oscar Hyde, Bell, Leo Lafollette, Cooper.

Mrs. Hamilton was appointed as chairman of a committee to see that the Annex rooms were open all day on the Fourth of July as a resting place for mothers with little children from out of town.

A vote for the Goddess of Liberty resulted in the election of Miss Suzah Cowherd for that important position.

The Annex adjourned until the first Tuesday in September.

The following committee was appointed to have charge of the refreshments for that meeting: Mesdames Warren Crooks, L. C. Morgan, Pope, Brewster, Ross.

Dry Creekers Feel Good Over Water Supply

Dry Creekers are jubilant over the fact that R. R. Rimpler struck a good flow of water at 228 feet. He has 65 feet of excellent water. Everyone of the 35 families in that section was interested in the well, not financially, of course, but whether or not water could be obtained at a reasonable depth. This well settles the question, at least for domestic use. Heretofore shallow springs furnished the water supply.

A co-operative effort will be made this summer to build a ditch to take water out of Dry creek during the months of January, February, March and April, to cover most of the 10,000 acres available for agricultural purposes. Community effort is what counts. Carry out the same idea in marketing your products and you have made a good start on the road to independence.
