

An Electric Railroad to Sisters Soon

That an electric railroad is going to be built from Redmond westward to the timber belt at Sisters and on westward over the mountains to Jefferson City on the Oregon Electhat it will be the first branch road to be built in Central Oregon is the opinion of I. W. Gray, agent for the Oregon & Western Colonization Co. who returned from Portland and Seattle Tuesday. The company which Mr. Gray represents is controlled by the Hill interests. It owns a large body of lands between Redmond and Sisters which will be traversed by the new road. The right of way for the entire road has been quietly secured, according provements. to a statement from Mr. Gray published in the Oregon Journal. He cording to the lines proposed, will said:

fifty miles long and crosses the in 1916. mountains through a very narrow pass. The power will be secured from Cline Falls on the Deschutes west of Redmond. There is a 90will equal the power from the Spo- 7,527. kane falls."

Bend People Want to Form New County

Bend, Or., July 13.-Following the lead of the north end of Crook county, which is about to petition the county court for a vote on the question of the formation of Jefferson county out of their section of Crook, the residents of this section now plan to cut off the southwestern portion to form Deschutes county. At a meeting of the local comtric in the Willamette valley and mercial club on Saturday it was unanimously voted to circulate the petition and a committee was appointed to do the work,

Those who are taking the most interest in the movement point out that the present Crook county, with its large area and lack of transportation facilities, is more extensive to run than smaller counties would jealousies and prevent needed im-

BRIEF NEWS OF OREGON

Prompt action by Mrs. A. Austin, wife of Albany's chief of police, prevented the escape of a prisoner her husband had placed in the city jail.

Young prune orchards in the country about Monmouth are making a rapid growth, surpassing apple, pear and cherry trees in many places

An order has been placed for 80,000 pounds, or 40 tons, or two carloads, of paper for use in printing the initiative pamphlets. This amount of paper is sufficient to print 300,000 copies of a pamphlet with 128 pages.

Retail meat, poultry, fish markets and grocery stores do not come under the workmen's compensation act, according to an announcement of the state industrial accident commission. The commission said the businesses were not of a hazardous nature.

After many months of correspondence between the state railroad commission and the officials of the Southern Pacific and Oregon Electric, the be and that the diverse interests of two railroad companies have agreed the different sections tend to local to a rate of \$2.25 on coke shipped from Fairfax, Wash., to Salem.

The immense flag provided by the people of Oregon for the gigantic tree that is to do service as a flagpole in front of the Oregon building at the have an area of over 1,000,000 exposition was raised at San Francis-"The right of way has already acres and an assessed valuation of co. the ceremony being the principal feature of the Fourth of July celebration on the exposition grounds.

> The state printing board has decid ed to bring the state printing department under the workmen's compensa- To the Honorable County Court of tion act. The construction work on the Tumalo irrigation project has been brought under the act, so all the hazardous industries under the supervision of the state have been given protection under the new law.

There were 94 industrial accidents reported to State Labor Commissioner O. P. Hoff last week, this being the largest number reported any week this year. Three of the accidents were fatal. J. O. Foulke was killed at Coyote in connection with railroad work. Duke Staul was killed at Goble while logging. Claude Beaman was killed while logging at Camp Creek.

A. W. Cornell, a farmer living near Riddle. Douglas county, never saw a streetcar in his life until he came to Eugene in his automobile and the first one he saw he collided with. He ran into an Eleventh avenue car with his automobile as he entered the city. He appeared greatly chagrined and offered to pay for the damage done to the car, although his automobile was damaged more than the car.

Deputy Sealer of Weights and Measures Buchtel announces that all counties but two will soon be equipped with weight-testing and measuring apparatus. Mr. Buchtel has received equipment for Baker, Harney, Oregon, and Lincoln, Mauheur, Union and Umatilla counties. Immediately after testing the apparatus it will be divided and forwarded to the various county

Twenty-nine measures will be voted on at the general election in Oregon next November, which is nine fewer than were submitted to the voters at Eleven of the measures to be placed before the voters were submitted by the last legislature. An important amendment to manufacture or sale of intoxicating more than two million dollars. liquors in the state. Another amendment would abolish the state senate. It was initiated by the officers of the Oregon state grange, Oregon State Federation of Labor, People's Power league, Farmers' union, Farmers' Society of Equity and Proportional Representation bureau. An amendment for proportional representation, initiated by the same organizations, provides that every voter may vote for any one aspirant for representative in the legislative assembly and no more. The 60 aspirants who receive the greatest number of votes throughout the state would be declared elected.

Water permits issued by State Engineer John H. Lewis during the quarter ending June 30, call for the expenditure of approximately \$11,000,-000 to make use of the water. There were 147 permits to appropriate public waters issued during the quarter. The proposed ditches and pipe lines aggregate 202 miles in length, and provide for the irrigation of 21,587 acres of land; for the development of 1715 horsepower and for the municipal supply of six towns. One of the most important of these permits is that granted to L. C. Seawell of Payette, Idaho. He proposes to irrigate 10,544 acres with the waters of the Owyhee and Crooked creek in Malheur county. This land lies a short distance from Ontario. The Eastern Oregon Land company of San Francisco proposes to irrigate 4818 acres in the Willow creek valley in Mauheur county with the waters of Burnt river. The water is to be conveyed from the Eldorado ditch, which was constructed many years ago for mining purposes. The six towns for which water was appropriated for municipal supply are Turner, Marshfield, North Bend, Beaverton, Myrtle Point and Falls City.

It Pays to Look Properous

We have many articles in our different departments which would add greatly to your personal appearance. No matter what you pay, your selection is what counts. We are showing many exclusive patterns in all lines. You always notice the clothing other people wear? Well, other people notice yours just the same. Many good opportunities have been lost because of carelessness in personal appearance. Think it over.

Make YOUR Summer Days Play Days-

Get Out Into The Open

SPRING and Summer are beckoning! Don't stay cooped up in the house—it isn't necessary. In over 70,000 homes the day's cleaning is done in an hour after breakfast. The happy hum of the motor; the whirring brush of the Frantz Premier have finished the day's cleaning in

these homes. Every room is spick and span and the home is as bright,

clean and healthful as the cool air of the woods.

The dirt-devouring nozzle of the Frantz Premier has gone into every nook and corner, over every rug and carpet, easily, smoothly and efficiently. Not an atom of dirt or grit, not a thread, scrap or bit of lint have escaped it.

These 70,000 good housekeepers have found that the Frantz Premier is their best

friend in the hot, dusty days of summer, because it leaves them the best part of the day for enjoyment. Open doors and windows (even the screened) admit dust and dirt from the unswept streets. The way to clean easily and economically, the
