

**Getting Your Money's Worth**

When you buy a "used" Winton Six from the Winton Company you know exactly what to expect in point of service, for the Winton Six has a reputation to sustain and nothing is ever allowed to interfere with the standard of excellence up to which every Winton Six is brought before the car leaves the shops.

Furthermore, in purchasing a "used" Winton Six you obtain the same quality of material and workmanship that is put into every new Winton car.

You get this for just about half the original cost, in other words you buy a standard product of an established reputation that will give many times the satisfaction that can be bought for the same money if put into a new car of cheaper construction.

Isn't it much better while you are about it to get the car that you've always wanted. A rebuilt Winton Six solves this problem and you'll be agreeably surprised to find how easy it is to own a fine six cylinder self-starting Winton Six.

Send to-day for complete list of "used" automobile bargains.

Belknap Springs—Things are doing in Belknap as well as in Europe these days. Fifteen firefighters passed through here today on their way to help get a forest fire under control. The fire is located sixteen miles to the northeast of us.

The Prinevilleites in camp had a big taffy pull Thursday evening. The younger element formed in line and paraded the camp grounds yelling—

Prineville, Prineville,  
Zip, boom, bah,  
The best town in Oregon,  
Rah, rah, rah.

North or south,  
East or west,  
Prineville's the land  
We love the best.

—and similar loyal yells were heard far and wide. To the crackling noise of a big bonfire Mrs. C. M. Elkins, Miss Ethel Williams, Mrs. Arthur Templeton and Mrs. Mingers sang many old-time popular songs. About forty Prineville people were present.

Johnny Templeton came into camp this (Friday) evening from his camp about 15 miles to the southeast of us. He has had good hunting, he says. Fish are plentiful, too. He came in for supplies and will return to the wilds in the morning. He will remain in the mountains until September 1st.

Arrivals not heretofore reported are Joe Lister and family, Theodore Mingers and wife, George Ray of Post, Mr. and Mrs. Arthur Templeton of Sisters, Jess Yancey and family, who are homeward bound from their California trip. They are glad to get back to Oregon again, they say.

The Prineville hunters have not yet reported. As game is plentiful they will no doubt supply the camp with venison in a few days.

Berry pickers have hard luck stories to tell, or rather hardwork stories. They all get some berries but the "some" depends entirely on the energy and ability of the picker. Berries are scarce in this part of the Cascades.

The road between here and Eugene is decidedly tough for autos. Road crews are at work and where new grades are built the going is hard. The dust is deep in other places covering ruts and boulders. Better going next year.

**HAPPY MOTHERHOOD**

The happiness of motherhood is too often checked because the mother's strength is not equal to her cares, while her unselfish devotion neglects her own health.

It is a duty of husband or friend to see that she gets the pure medicinal nourishment in Scott's Emulsion, which is not a drug or stimulant but nature's concentrated oil-food tonic to enrich and enliven the blood, strengthen the nerves and aid the appetite. Physicians everywhere prescribe Scott's Emulsion for overworked, nervous, tired women; it builds up and holds up their strength.

thing by not erecting sign boards on all trunk roads. He has been directing tourists into Central Oregon who want to return to Portland by way of The Dalles. All report great inconveniences because of the uncertainty of roads. The doctor urges the erection of sign boards between Prineville and The Dalles. One season's auto travel will amply pay for all trouble and expense in erecting them.

Joe Lister and family and C. M. Elkins and family leave tomorrow morning for home. The Elkins family expect to return in ten days.

**Farmers' Institutes for Crook County**

Beginning August 22d, there will be held a series of farmers' institutes in Crook county. Through the activities of the extension division of the Oregon Agricultural College and the efforts of A. E. Lovett, Crook county agriculturist, three professors from the college will be present at each meeting for the purpose of assisting the farmers to solve their farming problems. The staff of speakers will be as follows:

Prof. John E. Larson, agronomist; Prof. R. E. Reynolds, stockman, and Prof. A. L. Lovett, entomologist.

One-day meetings will be held as per schedule given below. The time and arrangement of the program will be in the hands of each local farmers' organization or local commercial club in co-operation with the agriculturist, but general plans will be to hold meetings in the afternoon beginning about 1:30 p. m., the agriculturist with the professors visiting farms in the neighborhood of the place of meeting during the forenoon. Schedule of meetings as arranged are as follows:

- Saturday, Aug. 22, Prineville.
- Monday, " 24, Madras.
- Tuesday, " 25, Metolius.
- Wednesday, " 26, Culver.
- Thursday, " 27, Laidlaw.
- Friday, " 28, Cloverdale near Sisters.
- Saturday, " 29, Opal City.
- Monday, " 31, Redmond.
- Tuesday, Sept. 1, Bend.

The meeting at Opal City will be in the nature of a picnic under the auspices of the Farmers' Grange on the farm of Tom Alderdyce. Attendance at these meetings will largely influence the meetings to be held during the winter.

A. E. LOVETT,  
County Agriculturist.

**Council Rejects Bids**

Not having a reporter at the council meeting last week and the city recorder being too busy to write up the minutes of the meeting in time for us to get the proceedings of the meeting in last week's issue, we will not go into detail this week, but only give the more important things that came up for discussion.

Engineer Kelley reported that it would cost \$300 to level and grade East E street. A remonstrance was read and on motion lost. The council then voted to accept the engineer's report and to have East E street opened and graded.

Bid of J. G. Bulger for cement sidewalks read and rejected. Bid of M. M. Phipp was not read as no certified check accompanied the bid. It was moved and carried that bids be readvised and be opened at next regular meeting of the council which is September 1.

**Editor Out for Deer.**

T. H. Jolly, editor of the Leader, departed yesterday for a 30-day vacation which he will enjoy in the Crescent country. Fred LaFollette, who will have charge of the paper while he is away, reached here Tuesday night on the stage truck. Thomas has his hunting license and confidently expects to slaughter his limit of deer within the next few days. The deer are plentiful in the Cascades this year, the bucks ranging near the mountain peaks and the does and fawns remaining on the border of civilization, particularly in the region of the lakes.—Silver Lake Leader.

**35,000 Steel Head Trout Put in River**

W. S. Rodman, president of the Redmond commercial club, received a letter Sunday night from the game and fish commission saying that the fish car "Rainbow" would arrive here Monday night with 35 ten-gallon cans, each containing 1,000 steel head trout, and asking that the car be met upon its arrival here and the fish taken and placed in the river with as little delay as possible.

Mr. Rodman put the matter before the members of the commercial club and secured enough volunteers with autos to meet the train and transport the fish to the river.

The fish were taken to the Deschutes river, four miles west of the city. Some of them were placed above Cline Falls, a portion below the falls, and some placed at Tetherow Bridge. The fish were in good condition, and it is expected they will thrive well in the waters here.

Fish that were placed in the river here two years ago have shown a rapid growth, and by next year will be large enough to be caught under the legal size limit.—Redmond Spokesman.

**READ BELOW HOW AN OLD GENTLEMAN WHO HID HIS MONEY OVER THE CLOCK NEARLY LOST \$2000**

After an intelligent old gentleman at the age of 76 dropped dead in his home, his son found over \$2,000 in paper money over the old clock which stood on the wooden mantle, surrounding an open crackling fire. Not even his own wife knew that much money was there. The old gentleman was simply careless. His son had married the town banker's daughter, and the bank was trusted. Both the old gentleman's money and life were in danger, for burglars have a way of learning where money is hidden, and fire at any time might have burned the house. Are you careless?
