### Strong Artesian Flow Struck in Prineville

E. Waggoner & Co., the well drillers, have struck a strong artesian flow of soft water on the premises of J. L. Wonderly on the north side. The drill was sent down 160 feet. After passing through 14 feet of surface gravel, 40 feet of volcanic sand was encountered, then 50 feet of quicksand, the rest of the distance was through blue clay. A 4 1/2 inch pipe was put down. Mr. Waggoner believes that if the water is confined it will rise 10 feet above ground. The present pipe is four feet above the surface. An additional six feet will be added and then capped.

The water has a slight taste of iron when it comes from the ground, but if allowed to stand for a time is not noticeable. The water is practically the same as that obtained at the artesian flows of Slayton and Willirms farther down the valley.

### CONSUMPTION TAKES 350 PEOPLE DAILY

Over 350 people succumb to consumption every day in the United States. Science proves that the germs only thrive when the system is weakened from colds or sickness, overwork, confining duties or when general weakness exists. The best physicians point out that during changing seasons the blood should be made rich and pure and active by taking Scott's Emulsion after meals. The cod liver oil in Scott's Emulsion warms the body by enriching the blood; it peculiarly strengthens the lungs and throat, while it upbuilds the resistive forces of the body to avoid colds and prevent consumption. If you work indoors, tire easily, feel languid or nervous, Scott's Emulsion is the most strengthening food-medicine known. It is totally free from alcohol or any stupefying drug. Avoid substitutes. 24-42 Scott & Downe, Bloomfield, N. J.

### Mr. Sam. Jordan at the Lyric

Next Saturday the Lyric will again present Mr. Sam Jordan, baritone, in the latest eastern song craze, "You Can Tango, You Can Trot, but be Sure and Hesitate."

The picture attraction will be the ninth episode of "The Perils of Pauline." Again we witness a series of thrilling incidents and accidents in the attempts of the conspirators to do away with Pauline. We see Pauline become a moving picture actress, taking the part of an angel in "Paradise Lost." In this role she is attacked by a devil of the company, and escapes from the island whereon the play is being staged by the timely arrival of an aviator with his hydroplane.

Even then she is not safe, for while flying the plane is set afire by an ignited cigarette carelessly thrown away by the aviator who, coward at least, seizes the only parachute and leaps, leaving Pauline to her fate. She is able to right the plane and lands safely, but not so fortunate is the aviator, who is seen dropping from the clouds and lands in front of a fast moving train.

For thrills this installment furnishes about the most ever crowded into two reels of film. Two other pictures complete an exceptionally strong bill.
