

Serious Accusations

Continued from first page.

philanthropic disposition. There is always a motive behind the movement."

Now will the News please state the motives that are behind the Madras business men? Does Madras want to be a county seat? Would some Madras people like to hold office? Why not? If Jefferson county is cut off Madras is the logical county seat and naturally she is willing to work for it.

But why impugn the motives of "four or five business men of Prineville who are working so hard against the indicated wish of the majority of the county that it shall be divided?" According to the News way of thinking our citizens have not public spirit enough, or honesty of purpose, to go out and work for that which seems best to them. To the mind of the News editor there is an ulterior purpose to accomplish.

We would like to ask if the business men of Prineville have not the same right to work for their town as either Madras or Bend?

Again the News goes on to say: "Some of these men are in a business that will necessitate the establishment of other offices in the new counties if they cover the same field of operation as now. Others of the opposition have received considerable county business which is all right from their business standpoint. The division of the county means the breaking up of the support of certain political alliances which might result in some of the county business falling into other hands. These men, from a selfish business standpoint, are justified in opposing county division."

The implication of the above paragraph does a great injustice to the standing and integrity of some of our public spirited citizens. To insinuate that "the division of the county means the breaking up of the support of certain political alliances which might result in some of the county business falling into other hands," requires, in justice to the county court and merchants indicated, that the News publish the facts upon which such an accusation is based. Let us have the names of the guilty ones and state specifically their offense. Give us facts instead of insinuations.

"But are ALL the people of Crook county to suffer, as they have during the past few years," innocently asks the News, "just because a re-arrangement of affairs, according to the wish of the people, might blight the POLITICAL aspirations of one small community, or, because it may open the county business according to law, or, because it may interfere with individual political plans of three or four persons?" More facts are needed here. Show us where all this suffering is. Tell us about the political aspirations of one small community. Amplify your statements with concrete "facts" that you talk so much about. Give us "facts."

What do you mean by the statement, "it may open the county business according to law, or, because it may interfere with individual political plans of three or four persons?" Here are insinuations that should be cleared up. The dissemination of such idiotic drivel should not be allowed to go on unchallenged. Produce your "facts," Mr. Editor of the News, so that this community may pass judgment upon you. Some of the business members thereof have done so in the following resolutions:

To the people of Crook county in general and to the people and business men of Redmond in particular:

Whereas, It has come to our attention that a rumor has been circulated that the business men of Prineville have threatened to divert trade and change their shipping point from Redmond, unless the people of that town "lined up for county division," and

Whereas, The Prineville News of October 16th strongly insinuated that "Only four or five" business

men of Prineville were opposed to and working against county division,

Now, Therefore, we, the undersigned, resent and denounce, unqualifiedly, the said rumors, and the said insinuations and statements in the News as lies, pure and simple, and, moreover, we believe them to have been circulated with malicious intent.

Why You Should Vote for BOOTH

Republican Candidate for United States Senator

Are you better off now than you were under a Republican administration?

Are you satisfied?

If you believe in the principles of the Republican party, if you are convinced that these principles are best for the country, then prove it by voting for your standard bearer, Robert A. Booth, Republican candidate for the United States Senate.

You know that under Republican presidents the people of the United States have good times.

You know that under Democratic presidents you have Democratic times.

Remember the prosperity under McKinley, Roosevelt and Taft.

Remember the conditions under Cleveland and Wilson.

The issue in this campaign is not one of personality. It is not one of non-partisanship. It is a question of whether you prefer prosperity under Republican administration.

Do you have enough work?

Are your wages good?

Is your business what you want it to be?

If you are satisfied with present conditions, well and good. If you believe that the present situation is better than under McKinley, Roosevelt and Taft, you know what to do.

The way to bring prosperity is to help elect a Republican Senate. The Republican candidate in Oregon is R. A. Booth.

This is a Republican year. Vote the ticket straight.

(Paid adv. Republican State Central Committee, Imperial Hotel, Portland, Ore.) 10 22 21

All troubles come to him who waits. Hunting them may be good exercise, but displays poor judgment.

Life for most of us is made up of little things, so don't despise the opportunities for small enjoyments.

Monte Carlo made a profit of over \$4,000,000 last year, notwithstanding the men with sure systems to beat it.

Some French scientist has figured it out that in 2,000,000 years the earth will be frozen by the cooling of the sun.

A good example of wasted energy is a book agent trying to sell an encyclopedia to one of those fellows who know it all.

Facts and Figures Against Division

Continued from Page Four

printed forms and warrants, etc. They allow only \$2500 for all of these items. Now any one can see at a glance that this amount would not properly fit up at least eight offices, pay for one year's supplies in a manner that any taxpayer would demand, as we all want the records of our lands to be secure and safe. We want our prisoners secure and we should not undertake to have a county until we can afford to pay for the necessary items. Why, the sheriff's office with jail would cost the \$2500 by itself. We feel safe in stating that it would cost at least \$15,000, and look at the difference between that amount and \$2500.

Jefferson budget has allowed but \$800 for her poor. Crook has paid \$6350 in eight months, estimate for 12 months would be \$9525. Jefferson's one-third would be \$3175, or if they should only be allotted one-fourth it would be \$2381.25, another underestimate.

They have omitted entirely juvenile court, fruit inspector, stock inspector, sealer of weights and measures, insurance and library which are small taken separately but counted together they amount to quite a sum. The larger omissions are bounties, county fairs, miscellaneous account (In Crook it amounts to about \$4000 annually), water master and fire patrol.

They advanced the argument that with their own county they would have their own representative in the state legislature to help them out on irrigation matters and other matters of importance. They did not seem to know that under the Oregon Law we are represented in the state legislature by a joint representative, who represents four counties—Crook, Lake, Klamath and Grant—and it will be some time before this condition changes, yet these men undertake to divide up Crook county and tell the people how much better they can do things than our present county officers. Do you think they have the ability to do so?

We are informed that it is the opinion of our circuit judge that if Crook is divided into three counties and they were to be added to the present work of our circuit judge it would take four or five months to do the work that should be done in twelve months. This would mean another circuit judge at an increase of expense on all the counties in the circuit.

Hygiene Meeting is Postponed

The Oregon Social Hygiene Society meeting announced for this evening at Club Hall has been postponed until next Tuesday evening, October 27, at the same place. The postponement was necessary because Dr. Williamson, of Portland, the principal speaker, was not able to be here at that time. Besides Dr. Williamson, there will be also present Dr. Calvin S. White, secretary of the State Board of Health.

This is an effort to enlist the cooperation of the people of Prineville in an active campaign against a great social evil that touches the life of every home. The meeting will be called to order at 8 o'clock by Supt. Baughman.

Tuesday afternoon, October 27, at 3:30 o'clock, there will be a mothers' meeting at the M. E. church. Drs. White and Williamson will be present. The mothers of Prineville are urged to be present.

ACCIDENTS ON THE WATER.

How a Pot or Pan or Even a Hat May Be Used as a Life Preserver.

The worst thing to do in an accident on the water is to founder around and shriek and cry. That expels the air from the lungs, and then the body will quickly sink. With this fact understood we may experiment with a number of things to show how little it takes to support the body. The high silk hat of man contains sufficient air to keep him from sinking if he grasps it by the rim and holds it upright so that the air is imprisoned under the hat. Even a derby hat will support a half grown boy or girl if held right.

Dishpans and buckets or tin pails can also be used as life preservers. Invert these in the water and grasp the rim with both hands and do not tip them so the air can escape. Not long ago a party of girls out rowing had their boat upset in a mountain lake. All of them except one could swim. This girl had an umbrella with her, raised to ward off the sun's rays when the accident occurred. Finding herself in the water some distance from the boat, she grabbed for the nearest thing in reach. It proved to be her umbrella, floating with the handle down in the water. She threw both arms frantically around the open umbrella. To her surprise and to that of her comrades, she did not sink. The imprisoned air under the umbrella supported her head above the water until help arrived.

The small amount of air contained in a bicycle tire will keep one's head above water for hours. Even if one is a fair swimmer, the day may come when a knowledge of some of these every day life preservers will prove of the greatest value. If thrown in the water a long distance from shore you may be able to float and swim with such an aid three times as far as you could without them.—George E. Walsh in Leslie's.

* The proposed Dentistry Bill will license to practice dentistry in Oregon a graduate from a college course of two years of six months each—

12 MONTHS TO MAKE A DENTIST

To obtain a license to pursue the business of a barber in Oregon the law requires a person to have at least three years' special preparation in shop or college—

36 MONTHS TO MAKE A BARBER

The barber who shaves a man must have three years' actual experience. The young fellow from a dental college can operate on the mouth of a child after 12 months' study.

Is the Mouth of a Child as Vital as His Father's Beard?

Defeat the Dentistry Bill. Vote 341 X NO

(Paid Advertisement, Oregon Society for Dental Education, M. C. Raymond, Secretary, 538 Morgan Building, Portland, Oregon.)

Voters Beware

The Dental Trust, with all its powerful political organization, is moving heaven and earth to defeat the dental reform bill.

In every town and city members of the Trust are out working against the bill.

The Medical Trust is helping the Dental Trust by forcing nurses and druggists, under threat of boycott, to work against dental reform.

All kinds of campaign lies are being circulated to deceive the voters. Don't let the Trust scare you.

The Trust made the present dental law. Under this law it controls the State Board of Dental Examiners. Every member of that board is a member of the Trust. In this way competent dentists are kept out of Oregon, and the Trust prevents competition and keeps up prices.
