

**POLICIES OUTLINED
BY DR. WITHYCOMBE**

Primary Law Endorsed, Economy Urged and Rural Development Advocated.

In a statement issued at Medford Thursday, Dr. James Withycombe, Republican direct primary nominee for governor, outlines the policies and ideals of state government to which he adheres as an aspirant for the office of chief executive. The statement, in effect, is a platform and in it he discloses fully and unmistakably his stand on the vital issues of the campaign. The statement follows:

"As the Republican direct primary nominee for governor of Oregon, I wish to address to the people of the state a brief general outline of those ideals of state government which it is my ambition to put into effect and which moved me to become a candidate for the high office of governor.

Aim is to Lighten Burden.

"At the outset I am going to name economy in the administration of state affairs. Not economy at the expense of efficiency, but economy as a part of efficiency. It is my firm belief that the present burden placed upon the taxpayers of Oregon is out of all proportion to the taxable wealth of

DR. JAMES WITHYCOMBE

the state. The burden has become galling, particularly at this time, and it will be my aim to lighten this load. It can be done. It must be done. Eliminate extravagance in state affairs, administer the affairs of state on a sane, business-like basis and the harvest will be tens of thousands of dollars saved to the people who foot the bills.

"It is hardly necessary for me to say that rural development is a matter of the greatest possible importance to the state. Our wealth and prosperity have their foundation in farmer and producer. Encouragement and co-operation must be given to the men who till the soil and develop that wealth which is reflected in every industry and in which each and every citizen shares.

Needs of Oregon Known.

"In this connection I believe I appreciate and understand fully the needs of Oregon, the richest of states in natural resources. During the 43 years of my residence in Oregon there is no part of Oregon whose resources, industries and special needs I am not thoroughly in touch with. For 16 years, as a member of the Agricultural College faculty, practical and scientific agriculture have occupied a considerable share of my interest and activity.

"The building of good roads is another matter the importance of which must not be lost sight of. It is unnecessary to dwell upon the value and importance of good roads in the development of Oregon. The working out of a network of good roads will add to the welfare and prosperity not only of the farmer, but of every one of us, since the prosperity of the farmer is reflected to the state at large.

Construction Cost a Factor.

"Of equal importance is the cost of constructing these roads, a cost which may grow out of proportion to the value of a specified road. There must be an equitable method of placing the cost of good roads, and above all there must be insisted upon a system of highway construction which will give a dollar's worth of road for every dollar expended.

"On the subject of law enforcement, and as to my attitude on the laws now existing and which may exist, any man who aspires to represent the people honestly as their governor can have but one view. Law enforcement is a fundamental duty, one which must be met fully and firmly at all times. I have always been on the side of decency and law enforcement. My whole life, public and private, bears that out to the fullest possible degree. And I will always be found on that side.

Primary Law Supported.

"The direct primary law has my fullest sympathy and support. It has passed through its experimental stage and become a successful established fact. The direct primary law marks a big forward step in constructive legislation and there is no stronger evidence of its triumph in Oregon than is to be seen in the fact that the seven Republican candidates who contested with me for the Republican nomination for governor at the direct primary election are now united in supporting

Vote to Save Industrial Oregon

VOTE "NO" 329 AND "NO" 331

The very life of the future manufacturing and industrial progress of Oregon hinges upon the defeat of the so-called "Water Front" bills, to be voted on Tuesday November 3d.

So cunningly and adroitly are these bills worded there is grave danger that many people will be deceived. If these measures become laws the result will be that the state will take title to the tidelands and submerged lands and will be prohibited from selling any of these lands. They can only be leased for docks. No more ship yards, saw mills, canneries or other plants requiring access to deep water—nothing but docks, docks.

Every citizen of Oregon—wage earner, farmer, business man or woman, wants to prosper. These measures if enacted will throttle progress at the gate. Investors will shun Oregon. This means no work for the wage-earner, nothing to pay the storekeeper with, and therefore nothing to pass on to the farmer or producer. Let no one think these bills do not concern him.

Before going into the booth to vote, read 329 and 331 carefully. Talk to your neighbors about them.

Oregon is rich in natural resources, but poor in development. What the state needs above everything else is outside money to come in and develop its resources. That means **GOOD WAGES, PLENTY OF WORK, GOOD PRICES and GOOD TIMES.**

This is not a political question. It concerns only the prosperity of Oregon and you. Give Progress and good times a helping hand by voting "NO" 329 and "NO" 331.

me actively as the successful candidate.

"I hitherto have indicated my fullest sympathy with the construction measures placed upon the statute books by the people and I construe it to be the unalterable duty of the governor to uphold and defend these laws. I am particularly opposed to use of the 'emergency clause' for any purpose other than that intended by the constitution, and never would I, as governor, permit use of the 'emergency clause' to defeat the initiative and referendum.

Harmony Held Desirable.

"The relationship between the chief executive and the legislature is a matter upon which I desire to bring attention. As the highest representative of the people's interests it is the duty of the governor to stand between the people and the legislature as the guardian of the people's interests. I believe more can be accomplished for the good of the people if the governor and legislature work with some degree of harmony rather than at swords' points, with mutual attempts at brow-beating. Such would be my aim, as governor, but at the same time I shall safeguard the public in the strictest way from unnecessary or extravagant appropriations or in any action which may not be directed towards the best interests of the people, or the laws enacted by the people.

"I wish to call attention to the fact that I was the first man in Oregon to advocate publicly the single-item veto. I have said, and now reiterate, that the single-item veto might prove dangerous in the hands of a narrow, vindictive and venal governor. By this I mean that I oppose the giving over of the reins of state government to any man who has not the poise, balance, dignity and fairness which the high position of governor demands. The single-item veto itself is a necessity of the first importance."

A HORSE OR A CHILD—WHICH?

The proposed Dentistry Bill gives the preference to the horse.

To treat a horse, a veterinary surgeon in Oregon must have three full college years of special study and a diploma of graduation from a recognized college.

To treat the mouth of a child, the Dentistry Bill requires of a dentist but 12 months' training.

The mouth of a child may be disfigured for life by neglect or unskilled treatment.

DOES YOUR CHILD DESERVE AS MUCH AS YOUR HORSE?
