# Budget Day at the County Court

All parts of the county were represented Wednesday at the budget meeting of the county court. Bend had a strong delegation, so also did Redmond and Madras. The Paulina country was well represented as well as the Ochoco valley.

Commissioners Brown and Bayley were on hand early, but Judge Springer lost a day in his reckoning and did not get here to hold court until noon. He was brought to task for his tardiness by George Russell, and after agreeing to pay for the expense of sending for him, the meeting proceeded.

Judge Springer explained that an item had been unintentionally omitted from the county budget that carried the expenses of the county agricultural expert. It would cost the county \$1,500. He said he was in favor of retaining the expert and from his labors. After considerable discussion it was put to a vote which stood 20 for and 24 against. Representatives from Bend and Redmond came out strong for agricultural instruction, but the big ranch owners opposed.

The road budget called for much talk. Some favored the \$10,000called for in the Budget, but others wanted more. Some thought it was false economy to let things slide after spending so much on roads last year. Good speeches were made on both sides.

The county court made an order that all unused road warrants be called in and cancelled. It is thought this step will save the county \$10,000.

The judge explained that a road moneys given road supervisors and will bring suit if the county court stomach open and found about a visit with her sister and family. all work performed by them will be persists in its illegal methods. accurately checked up. By this method it is hoped to prevent a great deal of waste.

The widows' pension fund was gone over and the methods of granting pensions explained. Judge D Springer stated that he tried to be very careful and cut down every item wherever possible. He would T be pleased to get suggestions at any time and thought it the duty of the I public to inform him if anyone were H getting money from the county who were not entitled to it.

The assessor, watermaster, sur- R veyor, sheriff and school superin- J tendent were called to make explanations about their respective budgets.

Mr. Kelley, surveyor-elect, stated R that \$1000 could be cut from the L. M. Bechtell, Nov. salary surveyor's budget if the books of Prineville Merc. #### BEING A DICTATOR.

A Case of Quick Thought and Speedy Action In Latin America

Half a dozen men in the lobby of a New York hotel were discussing the ations in Mexico and other Latin-American countries. A short, dumpy little Englishman, who had a cold, gray eye, told this:

In a country which we will call Dumala there was a president whom we will call Harers. He had made it the custom, by official proclamation, for the guard of honor, which consisted of sons of prominent families of his country, to present arms whenever be emerged from the presidential palace. While the men and officers presented arms, the standard bearer raised the

People who wanted Harera put out of business bribed the standard bearer and six members of the guard of honor to assassinate him. The plan was that, when he came out of the palace the section.

Joe Shearer and Ruth and Mrs. flag, shout "Viva Dumala!" and throw the heavy banner over the president. While he was knocked down and blinded by the folds of the fing, the six

> As Harers went down under the weight of the falling fing, he had the presence of mind to lie flat on his back and hold one of his arms straight up from him, thus supporting the flag and giving the impression that his fist was his head. The only wound he received was one bullet through his hand.

The traitors, having figured that six of them shooting at him would be sure to kill him, did not have extra cartridges. When he stood up and threw off the flag their companions arrested

"You must have your hand dressed," suggested one of the officers, seeing the blood flowing from the president's

"I'll do that," said Harera, "as soon as these traitors have been executed." He had them lined up in front of the palace and gave the word that resulted in their death from a volley by their companions. After that he went into the palace and had his wound dressed, all of which indicates that the gentle art of being president in Latin America calls for quick thought and speedy action.-Popular Magazine.

"What profession do you think our boy Joe had better adopt?" asked Mrs. Brown.

"I dunno," answered her husband. "Joe is rather handicapped by circumstances. The only profession he's naturally adapted to is that of a capitalist, and I don't quite see where he's goin' to get the money."

#### METHOD.

The absence of method, which characterizes the uneducated is occasioned by an habitual submission of the understanding to mere events and images as such and independent of any power in the mind to classify or appropriate them. The general acare the only relations which persons of this class appear to regard in their statements. As this constitutes their leading feature, the contrary excellence, as distinguishing the well educated man, must be referred to the contrary habit.
