Cooking is so important!
Good cooking helps the health and happiness of your family. Surely you should have a range that will enable you to do your best cooking. "Majestic" makes good cooking easy. It is not just "so much metal put together to hold fire," each part is scientifically built to do its work just right. Made of malleable and charcoal iron, metals that resist rust and wear three times as long as ordinary range metals. All joints bolt-riveted (no petty used)—a Majestic stove light-holds the heat in, maintaining uniform baking heat with least fuel. The Majestic provides perfect baking qualities, plus fuel-saving and work-lessening features that you cannot get in ordinary ranges. The little extra it costs is more than repaid by the years longer wear that it gives. The health and happiness of your whole family is effected by the range you buy. Investigate thoroughly. Before you buy any range, come to our store and see the Majestic—we know you will want a Majestic when you see its advantages.
