RUSSIANS ADMIT ROUT BY GERMANS

Seven Generals, 100,000 Men and Large Quantities of War Materials Are Taken.

Berlin.—What appears to have been the bitterest defeat yet administered to the Russian army in east Prussia became known with details of the fighting which has been going on in the vicinity of the Mazurian lakes district.

Even Petrograd admits utter rout, declaring that retreat was the only thing left to do. Grand Duke Nicholas in his report confesses frankly that there was large loss in lives. He gives to the German army great credit for its superiority in numbers as well as in planned attacks, which, coming as separate blows, wrought havoc to his men, making retreat absolutely necessary.

In the eastern theater, the pursuit after the winter battle in the Mazurian district has come to an end. During the clearing-up operations northwest of Grodno and in the battles reported during the last few days in the Bobr and Navew districts, one commanding general and four other generals and approximately 40,000 men have been taken prisoners.

The total booty taken in the winter battle in the Mazurian district as a result of these additions has been increased to date to seven generals, more than 100,000 men, upwards of 150 cannons and quantities of other material of all descriptions, the amount of which cannot yet be approximately estimated.

Russia Explains Retreat.

Petrograd.—Explanation of the Russian retreat from east Prussia is contained in a communication given out by the general staff. Success of the German coup is attributed largely to the lack of strategic railways which prevented the Russians from concentrating "with necessary rapidity on our east Prussian front forces indispensable to ward off the drive of the enemy."

SHIP SUBMARINES IS CHARGE

Germany and Austria-Hungary Complicit and Bryan Will Investigate.

Washington.—Renewed complaints were made to the state department in behalf of the German and the Austro-Hungarian embassies that submarines were being built in the United States and shipped in sections to Canada for reshipment to England. Secretary Bryan promised an official investigation.

In a communication on the subject, the German embassy says:

"The plants of the Bethlehem, Pa., and the Union Iron Works, at San Francisco, are, according to reliable information, sending the component parts of submarines ordered by the British government to Canada. Submarines for England also are being built at Boston and Seattle."

DARDANELLES ARE SHELLED BY FLEET

London.—The first serious attack by the British and French Mediterranean fleets, assisted by aeroplanes and seaplanes, on the Dardanelles forts, met with considerable success, according to the British official account and unofficial reports received at Athens from the island of Tenedos, at the entrance to the straits.

The Turkish official report however, stated that no damage had been done to the forts and that the casualties of the defenders consisted of one killed and one wounded, but that three of the warships were damaged by shots from the forts.

The British report said that the forts on the European side of the straits were silenced and that only one of the forts on the Asiatic side was still firing, while none of the warships had been damaged.

The bombardment must have been one of the most serious ever undertaken, in the opinion of naval experts, for no less than eight battleships and armored cruisers took part, these warships having a total of 30 12-inch and six 10-inch guns, which outranged the guns on the forts.

CONSPIRACY IS CHARGED

Prominent Men Said to Be Implicated in Scheme to Overthrow Carranza

Los Angeles.—The indictment of Harry Chandler, millionaire son-in-law of General Harrison Gray Otis, owner of the Los Angeles Times, on the charge of having encouraged a revolutionary movement against Lower California, brought statements from agents of Venustiano Carranza, the constitutionalist leader in Mexico, that prominent men in various parts of the United States probably would be arrested soon on similar charges.

The indictment of Mr. Chandler, Walter Bowker, manager of a great ranch on the California-Mexican border, and six others by a federal grand jury was only the beginning of the results of an investigation by the government of the United States, asserted department of justice agents.
