TOO MANY CHILDREN

are under-size, under-weight with pinched faces and poor blood; they do not complain but appetite lags, they have no ambition and do not progress.

Such children need the rich medicinal nourishment in **Scott's Emulsion** above everything else; its pure cod liver oil contains nature's own blood-forming, flesh-building fats which quickly show in rosy cheeks, better appetite, firm flesh and sturdy frames.

If your children are languid, tired when rising, catch cold easily or find their studies difficult, give them **Scott's Emulsion**; it supplies the very food elements that their systems lack.

Scott's Emulsion contains no alcohol and is so good for growing children it's a pity to keep it from them.
