

Fire at Foster & Hyde's

Continued from page 1
completely burned.
While the amount of stock destroyed was small compared to the total stock carried, the damage to the entire stock is estimated at some 50 per cent. Insurance to the amount of \$12,000 was carried on the stock and fixtures, \$2,000 being on the latter. This amount covers the amount of the damage fully.
Although the origin of the fire is not positively known, it is thought that it started from an electric iron which had been used pressing clothes the day before.
The store has been closed since the fire, awaiting the adjustment of insurance.

CARD OF THANKS.
