NO. 36

BUSINESS MEN VISIT MITCHELL

Distance is Fifty-Two Miles
Scenery and Roads Good

Good Fruit Country

Trip Was an Eye-Opener to
Several Automobile Loads
Who Participated

A party of some twenty-five business men of this city visited the Mitchell country Saturday, making the trip in cars furnished by G. N. Clifton, D. F. Stewart, Homer Ross, E. S. Dobbs, Gardner Perry, and J. W. Carlson.

The road from Prineville to Mitchell, which is about 52 miles in length, is in excellent condition and can be covered by an automobile without much effort.

Leaving Prineville at 9 o'clock the car driven by D. F. Stewart arrived at the ranger station 25.3 miles up the Ochoco from this point just one hour and ten minutes later. The summit of the Blue Mountains was reached on very easy grade in one hour and fifty minutes. There is located at this point which is 32 miles from Prineville, Crystal Spings, from which flows the coldest water that one can wish for on a hot day.

Five miles farther is found the Beaver range station which is on the headwaters of West Branch, which point was reached in two hours and twenty minutes from Prineville.

From this point to Mitchell consumed one hour and ten minutes, making just three and one half hours from Prineville to Mitchell. The last fifteen miles of the road are the slowest ones by far because of the fact that the road is about as crooked as can be made, due to the unevenness of the country, and lack of efforts to straighten them by Wheeler county.

The return trip was made starting at 5 o'clock and arriving at Prineville at just 9. More stops were made on the return however, and the road up the other side of the mountain is not as good as on this side.

One of the most noticeable things in the Mitchell country just at present is the large crop of cherries of every variety, including Royal Ann, Bing, Lambert, Black Republican and many of the less favored kinds. It may be well stated that the Prineville party took occasion to sample all of them.

Weather Prediction For Tomorrow

CAPT. W. H. G. BULLARD

Capt. W. H. G. Bullard, U. S. Navy officer, placed in charge of the German wireless station at Sayville, L. I.

Attending the Fairs A Habit With All

The Crook County fair will be held in Prineville this year on October 6, 7, 8, and 9. Smaller local fairs will take place in Redmond, Sisters, and at Tumalo, all at an earlier date than the county fair. The matter of preparing exhibits and attending these fairs is a habit, one that should be acquired by everyone, not for the small gain that may be had from the amount of the premium, which by the way is something of an object, but because of the good that it does you and your neighbors to associate with them and compete with them with your best products.

This fair habit and others of this kind are what make life worth while.

The fair comes after the season is over, after the crops are harvested, and at a time when everyone should take time off from the regular work to compare the fruits of their labor with that of their neighbors and find wherein they may improve for the coming years.

And don't forget the sports. The county fair will have a number of new features this year, things that will be worth your while, and are real thrillers. Help yourself by helping these fairs. Attend your local fair if you have one, and furnish the season right by attending the county fair, October 6, 7, 8, and 9 and you will feel better toward yourself and the world at large, be in a better shape to go into the winter.

Mrs. C. M. Cartwright Dies at Gearhart

Mrs. C. M. Cartwright of Hay Creek died at Gearhart last week at the age of 73 years. She was an Oregon pioneer, having moved to this state from Illinois in 1845. Mrs. Cartwright lived at Hay Creek many years and was well known here.

Hobart Belknap is in San Francisco visiting the fair

Five Garages Take Place of Five Barns

Where there were at one time five thriving livery and feed barns in Prineville, the combined business of those remaining today would not equal that of the least of the five in the old days. In their stead there are five automobile shops which house a total of thirty-five cars each night on an average besides the many private garages, etc., Truly times are changing.

Prineville Band Plans Long Trip

Prineville business men, headed by the Prineville band, will make a tour of Crook and Jefferson counties on Friday, October 1, and every owner of an automobile in the city will be called upon to take a load of people and make the trip on this date.

The cars will leave here Friday morning at 7 o'clock, stop at Lamonta, Madras, Metolius, Culver, Opal City, Terrebonne, Redmond, Cline Falls, Sisters, Tumalo, Bend

and Powell Butte station and return to Prineville in the evening.

Concerts will be given in all the above towns, Sisters will be the point where lunch will be taken, and slightly longer stop than the ordinary will be made at Tumalo, where the fair will be in progress on the above date. The trip will be 140 miles and by starting promptly, and keeping on the move can be made nicely in one day. Friday, October 1, don't forget the date.

Bend Properly Cared For Last Sunday

We have met the enemy, and they are ours, again. Never was a more decisive game played on the local diamond than that of last Sunday, when Bend came to our fair city full of confidence, and returned to the Mill City full of wisdom and experience. Result Prineville 11, Bend 0.

The visitors were not in the same class with the local nine, never at any point in the game did they show ability to care for their end of the contest properly.

In the first inning, Bend got a man onto second, and he was put out before he reached the third bag, which was nearer a tally than they were able to make at any other time during the game.

Of the runs made, three are to be credited to Estes, three to Ellis, and one each to Michel, W. Belknap, McCall, Bechtell, and L. Belknap.

The game was too one sided to be interesting, the locals hitting Springer of Bend at will, and Clow was but little better. The visitors failed to solve the mystery of Tetherow's fast ones, and don't know yet how they practically all slipped by without being seen.

Batteries for the game were; Bend, Springer, Clow and O'Donnell; Prineville, Tetherow and R. Lister.

If there remains any doubt with the Bend team as to where the championship honors belong we will be pleased to hear from them farther. The boys were good losers however, and were supported by a half dozen car loads of boosters from their town. The facts in the case were that they were just out classed and decidedly so.

Premium Lists Are Now Off the Press

The premium lists for the 1915 county fair have just been issued by the Journal job department. They contain a hundred pages, and carry some fifty pages of advertising which will defray the cost of printing for the association.

The premiums have been changed and the lists revised and brought up to date. There are many useful ideas in this booklet for those who wish to exhibit at the county fair, and a copy will be mailed to any one who asks for it. Address or call upon R. L. Schee, Prineville for one.

Wm. Jackson Notes Many Changes Here

Wm. Jackson, who was a resident of Prineville in 1887 has been in the city for the past ten days. Mr. Jackson with his brother built the old Prineville Hotel which was known forty years as the Jackson House on the location of the present hotel building. They also built and operated what is now the Hamilton Stables. Mr. Jackson says that he sees many improvements in Prineville during his absence from this part of the country.

Mrs. Ellis Sheperd Dead

Mrs. Ellis Shepherd, daughter of George Whiteis died yesterday at 2 o'clock at her home near Albany. Little information is to be had of the death except that she died of heart trouble. A letter to her father, written a few days ago stated that she was in good health.

JAMES M. SULLIVAN

James M. Sullivan, United States Minister to Santo Domingo, who resigned as a result of an investigation.

W. S. Ayers has A Labor Saver

W. S. Ayers has installed a milking machine that works wonders in the dairy business he says. The machine has two units, milks two cows at a time, and can total 25 cows in an hour. Each of the units looks like a bucket with some garden hose attached, and acts like a calf that has forgotten how to step on your toe, sits peacefully between two cows, and draws milk from each of the four teats at a time, and as soon as one cow is milked dry, you just transfer the "suckers" to the other cow, and the operation is repeated. It keeps the milk clean, handles easily, and never complains about getting up at four o'clock, and when one milks 38 cows as Mr. Ayers does, this helps some. He figures it saves him about \$40 per month and will pay for itself in less than a year.

Inland Auto Co. Garage A Beauty

The Inland Auto company's new garage is completed and is a neat and up to date institution. It is as near fire proof as such buildings can be made, having a concrete floor and metal sides and roof, and has been given two coats of battleship grey paint which makes it look real neat and attractive.

A washing rack is provided at the rear of the shop and a red gasoline pump stands in front of the building where all tired cars may quench their thirst at 25 cents per.

Large Crowd Hears Mrs. King Lecture

A canning demonstration given at the Commercial Club yesterday afternoon by Mrs. M. E. King, under the management of the O-W railway, was attended by some fifty women who report a very instructive lecture. This is the forty first lecture given by this lady for the railway people commencing on June 7 of this year.

There is a move on foot by printers in this state to secure the printing of text books to be used in our public schools in Oregon. The work could be done as well and as cheaply in our own state, and there is no reason why it should not be done here.

The christian endeavor will meet at the Presbyterian church next Sunday evening at 7:15. As the B. Y. P. U are meeting with the Presbyterians for the summer, Miss Ilda Cohrs will be the leader. The subject will be, "Little Every Day Kindnesses."

STORE ROBBED AT TERREBONE

Some \$450 was Taken Besides Checks and Notes

Arrests Will Be Made

Safe Blown Without Attracting Attention—Robbers Make Clean Get-Away

McCoy & Son's general store at Terrebonne was robbed Saturday morning between midnight and three o'clock and about \$450 in money and a quantity of notes and checks were taken from the safe after it was successfully blown by the thieves.

From the appearance of the job, nitro glycerine was used in blowing the safe, which was found with the door torn open and the contents removed on Saturday morning.

About \$75 in small coins and silver were in an outer compartment of the safe, and this sack was blown open by the explosion and the contents scattered over the floor. Most of this was gathered up by the marauders and a strong box which contained the most of the coin was pried out of its position and taken away before it was opened.

The work was evidently done by someone who was acquainted with the local conditions, and Sheriff Knox, who is working on the case, says that arrests will probably be made during the next few days.

James B. Gunn Struct by Hayfork

James B. Gunn who was stacking hay at Marion Taylor's ranch near Post was injured by being struck with a Jackson fork on Friday.

The tine of the fork entered the right side, to a depth of about four inches. The point struck a rib and slid along the side of the rib instead of going between the ribs. This probably saved Mr. Gunn's life. While the injury is painful it is not considered dangerous.

Laflers Have Moved To New Location

F. E. Lafler has moved his confectionery and studio to the new location in the Curtis building, which has been fitted up in a very modern and attractive manner. He is advertising a big opening for Saturday evening commencing about eight o'clock. There will be music and other special features.
