

LEGAL NOTICES

SUMMONS

In the Circuit Court of the State of Oregon, for Crook County. C. D. Nickelson, Plaintiff, vs. D. P. Donovan, Defendant.

To D. P. Donovan, Defendant, Nezperce, Idaho.

In the name of the state of Oregon, you are hereby required to appear and answer the complaint filed against you in the above entitled action within six weeks from the date of the first publication of this summons, and if you fail to answer, plead or otherwise appear in said action within said time, the plaintiff above named, for want thereof, will apply to the above entitled Court for judgement against you as prayed for in the complaint filed herein, to-wit:

For the sum of \$23.25 with 6 per cent interest per annum from November 25, 1914. For the further sum of \$77.40 with interest at the rate of 6 per cent per annum from December 5, 1914, together with the costs and disbursements of this action as set out in the complaint filed herein, and for an Order and decree of the Court for the issuance of a Writ of Execution and Order of Sale of the property attached in this action, or as much thereof as may be necessary to satisfy said judgement, and that the proceeds arising from said sale be applied in the payment of said judgements, as by law provided.

You are hereby served by publication of this summons and order of attachment by virtue of an order of the Hon. T. E. J. Duffy, Judge of the Circuit court of the state of Oregon, for Crook County, duly made, granted and dated on the 20th day of July, 1915 for the service of this summons and order of attachment upon you by publication thereof and in accordance therewith, which Order prescribes that the time for publication thereof shall be for six consecutive weeks, being seven issues thereof, in the Crook County Journal a weekly newspaper of general circulation published in Crook County, Oregon, and the 22nd day of July, 1915, as the date of the first publication of this summons, and you are hereby further notified that said date is and will be the date of the first publication of this summons.

Dated July 22, 1915. C. D. Nickelson, In person. Hood River, Oregon.

NOTICE FOR PUBLICATION

Department of the Interior, U. S. Land Office at The Dalles, Oregon. July 21, 1915.

Notice is hereby given that

Henry K. Welch of Prineville, Oregon, who, on March 21, 1912, made Homestead Entry, No. 010694, for N1/2NW1, Section 20 Township 14-South, Range 17-East, W. M., has filed notice of intention to make final three year Proof, to establish claim to the land above described, before Lake M. Bechtell, U. S. Commissioner, at Prineville, Oregon, on the 11th day of September, 1915.

Claimant names as witnesses: David E. Hobwood, George Whiteis, F. J. Evans, and Edgar T. Slayton, all of Prineville, Oregon. 3615 H. Frank Woodcock, Register.

NOTICE FOR PUBLICATION

Department of the Interior, U. S. Land Office at The Dalles, Oregon. July 24, 1915.

Notice is hereby given that

Charles A. Ivy, of Dry Lake, Oregon, who on October 3, 1908, made Homestead Entry No. 011156, and on May 22, 1911, made additional Homestead Entry No. 08971 for SE1/4NW1, SW1/4NE1, W1/4SE1, & SW1/4, Section 27, Township 20-South, Range 21-East, W. M., has filed notice of intention to make final five year Proof, to establish claim to the land above described, before A. S. Fogg, U. S. Commissioner, at Hampton, Oregon, on the 7th day of September, 1915.

Claimant names as witnesses: James Wilson, and Lester Hall, of Fife, Oregon, F. D. Scammon, and Isaac Wilson, of Barnes, Oregon. 3715c. H. Frank Woodcock, Register.

NOTICE FOR PUBLICATION

Department of the Interior, U. S. Land Office at Lakeview, Oregon. July 28, 1915.

Notice is hereby given that

Harriet A. Bixby, of Imperial, Oregon, who on April 26, 1912, made Homestead Entry, No. 05609, for S1/2, Section 27, Township 21 S, Range 19 E, W. M., has filed notice of intention to make final three year Proof, to establish claim to the land above described, before A. S. Fogg, U. S. Commissioner, at Hampton, Oregon, on the 8th day of September, 1915.

Claimant names as witnesses: Ira B. Huffman, Emil Van Lake, Will Litus, and Warren McConnell, all of Imperial, Oregon. 3715 James F. Burgess, Register.

LIST OF WARRANTS ISSUED OVER SEVEN YEARS

If the following list of county warrants are not called for within sixty days from July 1, 1915, they will be cancelled and the payment of the same refused.

Table with columns: Date, Payee, Amount. Includes entries for A. C. Barton (\$2.00), M. V. Turley (10.20), Mrs. M. E. Reed (8.00), Henry Wilson (1.00), Robert Ray (1.50), W. H. Moody (.90), Edward Laurance (3.00), C. S. Wiley (5.20), T. J. Wyman (3.00).

SUMMONS

In the Circuit Court of the State of Oregon for the County of Crook. Mrs. W. F. Edmundson, Plaintiff, vs. Frank Paul, Defendant.

To Frank Paul, the defendant above named, in the name of the state of Oregon:

You are hereby notified that Mrs. W. F. Edmundson is the holder of certificate of Delinquency numbered Forty (40) issued on the 20th day of October, 1913, by the tax collector of the County of Crook, State of Oregon, for the amount of one and 30/100 (\$1.30) Dollars, the same being the amount then due and delinquent for taxes for the year of 1911, together with the penalty, interest and costs thereon upon the real property assessed to you, of which you are the owner as appears of record, situated in said county and state and being particularly described as follows, to-wit:

Lot 7 in Block 2, Original townsite of Sisters, Oregon.

You are notified further that said Mrs. W. F. Edmundson has paid taxes on said premises for subsequent years with the rate of interest on said amounts at 15 per cent as provided by law as follows, to-wit:

Taxes for the year 1912, paid October 20, 1913, receipt No. 1746, amount with interest to-date, \$1.89.

Tax for the year 1913, paid April 18, 1914, receipt No. 4224, amount with interest to-date, \$2.17.

Tax for the year 1914, paid March 25, 1915 receipt No. 2399, amount paid with interest to-date, \$0.61.

Said Frank Paul, the above named defendant, is further hereby required to take notice, as the owner of the legal title of the above described property as the same appears of record, that Mrs. W. F. Edmundson will apply to the circuit court of the county and state aforesaid for a decree foreclosing the lien of said certificate of delinquency against the property mentioned therein and particularly described herein. And you are hereby summoned and required to appear within sixty (60) days after the first publication of this summons, exclusive of the day of said first publication and defend this action or pay the amount due as above shown together with the interest, penalties and accrued costs, and in case of your failure to do so, a decree will be rendered foreclosing the lien of said taxes, interest, penalty and accrued costs against the land and premises above described.

This summons is published by order of the Honorable G. Springer, judge of the county court of the State of Oregon aforesaid for the County of Crook and said order was made and dated this 29th day of July, A. D., 1915 and the date of the first publication of this summons is likewise the 29th day of July, 1915.

All process and papers in this proceeding may be served upon the undersigned residing within the state of Oregon at the address hereinafter named.

Date of the last publication hereof is the 30th day of September, A. D., 1915.

(signed) Willard H. Wirts, Attorney for Plaintiff

NOTICE FOR PUBLICATION

Department of the Interior, U. S. Land Office at The Dalles, Oregon. August 13, 1915

Notice is hereby given that

Norman L. Ross, of Prineville Oregon, who on April 3, 1911, made Homestead Entry No. 08574, and on February 25, 1915 made additional Homestead Entry No. 014522, for N1/2SW1, SW1/2SW1, Sec. 29, SE1/4NE1, NE1/4SE1, Sec. 31, W1/2NW1, NW1/4SW1, Sec. 32, Township 16-South Range 18-East, W. M., has filed notice of intention to make final three year Proof, to establish claim to the land above described, before Lake M. Bechtell, U. S. Commissioner, at Prineville, Oregon, on the 27th day of September, 1915.

Claimant names as witnesses: Eugene Phillips, Hilmer W. Fairchild, and William Carey, all of Prineville, Oregon, and John R. Knox, of Post, Oregon. 3915c. H. Frank Woodcock, Register.

TRESPASS NOTICE

Notice is hereby given that no trespassing or hunting will be allowed on the premises of the undersigned, located on Crooked River south of Prineville. This notice will be strictly enforced.

Scientific Farming

GRIMM ALFALFA.

Experiments Show That It is Best Fitted For New England Soil. (Prepared by New Hampshire experiment station.)

In the summer of 1912 eight strains of so called hardy alfalfa were sown in small plots on the college farm. In the summer of 1914, after these plots had gone through two winters, it was seen that one strain, the Grimm, was the best and most promising. Reports of numerous other tests throughout New England seemed also to indicate the superiority of the Grimm over the common alfalfa for this section of the country. Accordingly the college secured six bushels of Grimm seed from one of the large growers in Minnesota and distributed it to 122 farmers in different parts of the state who had signified their interest in alfalfa growing.

The plan of the work, which was partly a demonstration and partly an experiment, was as follows: To use a one-quarter acre plot of land, one half of which was to be seeded with Grimm seed furnished by the college, the other half seeded with common seed furnished by the farmer. One-half of the ground seeded to

GRIMM ALFALFA, SHOWING BRANCHING ROOTS.

both kinds of seed was to be inoculated; also one-half of the ground of both kinds of seed was to be limed. The ground was to be plowed in June, dressed either with manure or commercial fertilizer, or both, and kept unplowed until seeding time, July 20 to Aug. 10. Ninety-five reports have been received from the 122 lots of seed sent out a year ago. These are as follows:

Table comparing Grimm vs common seed. Columns: Plots, More or less successful, Limes, Seed not sown. Includes a summary of 72 more or less successful plots.

A summary of the seventy-two more or less successful plots is as follows: Grimm versus common seed: No difference 42, Limed the better 42, Common the better 8. Inoculated versus uninoculated: No difference 25, Inoculated the better 41, Uninoculated the better 1. Limed versus unlimed: No difference 21, Limed the better 21, Unlimed the better 2.

The average estimated per cent of stand of Grimm alfalfa the middle of June was 73.6; of common alfalfa, 70.9. These tests indicate already some difference in favor of the Grimm whose superiority lies in its characteristic spreading or branching root system as compared with the usual single tap root of the common. Like all hardy strains its early growth is not as large or as rapid as that of the common, but its better "staying" qualities which have been repeatedly proved have earned for it the name "everlasting clover," given by Wendell Grimm, who originated the strain. The only unfavorable thing about the Grimm seed at present is its scarcity and high price. Sixty cents per pound is the usual price asked.

As to the necessity and value of inoculation there seems to be little doubt. In nearly all of the best plots the effect of inoculation was very marked, while only in the poorer ones was no difference noticeable. Inoculation may be accomplished by a careful use of the commercial cultures, like "farmogerm," "nitragin" and others, but in the opinion of the writer the best and surest way is to take soil from an alfalfa patch where nodules are found on the roots and sow five or six bushels of this broadcast as you would fertilizer and harrow it in, preferably in the evening or on a cloudy day. Although the effect of lime alone was not as marked as that of inoculation, the best sections of alfalfa were always found where the ground had been both limed and inoculated. The lime should be applied soon after plowing at the rate of one ton per acre of burnt lime or two tons per acre of "agricultural lime," marl or ground limestone. The best stands of alfalfa have been secured on well drained, stony or gravelly loam soils with a southern exposure. Great care must be taken to secure a well pulverized but compact seed bed for alfalfa. Plenty of stable manure is the best fertilizer.

TREATMENT OF LAND.

A farmer who has traveled in China tells us that he saw there land which the Chinese authorities informed him had been raising things for fifty centuries. They also told him that this land is more productive now than it was 2000 years ago. This may mean that raising things necessarily means impoverishing soils. It is too true that such has been the result of much farming in the past, and there is some excuse for such fact. But nobody needs to go to China for lessons on this point. There are farms in this country over two centuries old which are now raising as much as at any time in their history, if not more. No sane man advocates indiscriminate and wasteful production of the kind which is bound to result in poverty of soil and owner. Raise things, the right things in the right way, and the land will continue to yield its abundance. National Stockman and Farmer.

LATE BLIGHT ON POTATOES.

The Disease Can Be Controlled With Bordeaux Mixture.

Some cases of late blight of potatoes in fields of the central and southern portions of Wisconsin have just been reported to the plant pathology department of the Wisconsin College of Agriculture. This disease can be prevented by spraying the potato vines with bordeaux mixture. Potato growers will do well to watch the spread of the blight closely and spray their fields before the disease appears in them. Especial watchfulness is necessary so long as the weather continues damp, with foggy nights, as these conditions are favorable to the rapid growth of the blight.

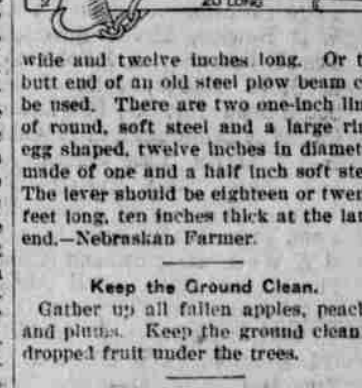

"Potato growers will remember," says J. G. Milward, in charge of Wisconsin's potato seed certification work, "that it was the late blight which caused serious losses to the potato crop in the state last year and resulted in low prices. The disease not only destroys the vines in the field, but also causes rot on the tubers in the field at harvest time and during storage."

The bordeaux mixture to be effective against this disease must be applied with a pressure spray pump that will put the liquid on under seventy-five to a hundred pounds of pressure. Where a single nozzle spraying outfit is used it is usually necessary to apply the mixture to the vines twice, spraying them from opposite directions. Applications of the bordeaux should be made at intervals of about ten days. Usually about four applications are necessary during the season. Growers are cautioned that unless thorough work is done in spraying beneficial results cannot be expected.

"Bordeaux mixture made by the following formula will be found satisfactory in controlling the late blight: 'Eight pounds of copper sulphate (blue stone), ten pounds of lime and a hundred gallons of water.'"

Pulling Stumps With a Team.

This stump puller works on the plan of a cant hook, with which lumbermen roll saw logs, only this is pulled with a team. If the stumps are extra large it is a good plan to take two stump pullers and put them opposite each other on the stump. I have seen stumps pulled in this way so large that a horse could have been buried in the hole. The hook is made of steel one inch thick, three and one-half inches

wide and twelve inches long. Or the butt end of an old steel pole beam can be used. There are two one-inch links of round, soft steel and a large ring, egg shaped, twelve inches in diameter, made of one and a half inch soft steel. The lever should be eighteen or twenty feet long, ten inches thick at the large end.—Nebraskan Farmer.

Keep the Ground Clean.

Gather up all fallen apples, peaches and plums. Keep the ground clean of dropped fruit under the trees.

TIMELY BEE NOTES.

Now that the early clover flow has been harvested and safely stored much remains to be done during the present month in the matter of preparing for the later harvest from the autumn flowers and incidentally in getting the colonies in good shape for the winter. It is a mistake to wait until cold weather to go over the colonies to get them in condition for their long winter's sleep, and it should be attended to during the month of August. While clustering on the outside of the hives would indicate earlier in the season an intention on the part of the colony to swarm, yet for some reason the bees seem prone to do this more during August than at any other time, due, no doubt, to the humid atmosphere. Where this occurs it is a good thing to give them a good smoking and drive them up into the supers and make them get to work, and generally speaking the plan is effective. If this should fall another good plan is to take from some strong colony a section, super, with all its bees that are working nicely in the sections, and place it on top of the smoking colony, and at once that colony enters the emergency of the bees supers and will start in with a rush to fill the supers.
