MANUFACTURING
and REFRACTING
OPTICIAN

Are you wearing lenses that are not satisfactory? If you are having trouble with your eyes it will pay you to come direct to me. I will give your eyes a thorough and careful examination free of charge and tell you the exact condition they are in.

I Fit Every Conceivable Style of Spectacles and Eyeglasses

Dr. Behrendt is now introducing the late Kryptoc Invisible Bifocals and Toric Lenses. Perfect fitting glasses, ground especially for weak eyes, astigmatism, near-sightedness, far-sightedness, reading or fine work.

I especially solicit complicated cases. My experience often enables me to give satisfaction where others fail.

My glasses cure headache, neuralgia, nervousness, tired eyes, aching eyes, styes, granulated lids, bloodshot eyes, etc.

Remember my responsibility does not end until you have obtained the satisfaction you expect.

Parents Should Not Neglect Their Children's Eyes

For a pair of glasses worn for a few months will enable a child's eyes to strengthen and fully develop, while neglect at this critical time will so injure the eyes as to make it necessary, sooner or later, for them to put on glasses and wear them continually.

I have been to the Expositions and I want to tell you that every man, woman and child who can, by any means, should go. Children of to-day may again enjoy such an opportunity, but you and I in the prime of life, never.

—Ask any Exposition visitor.

World conditions are such as will prohibit similar gatherings during our generation. That is why I say to you—GO. The San Francisco Exposition closes December 4th. There is plenty of time yet to see it, but not more than enough. Now is the best time of the year in California and of the Exposition season. Therefore, Go Now!

We'll take care of your travel needs—That's our business. Ask A. C. EGAN, D. F. & P. A., BEND, or General Passenger Agt., Portland Oregon-Washington R. & N. Co. UNION PACIFIC SYSTEM

In Seeking Quantity Consider **QUALITY**

"Preferred Stock" Eliminates the **ARGUMENT**

When Abraham Lincoln said that "All men are created equal," we believe he had a reason for not concluding that all would remain equal thereafter. We also believe that what applies to man in this particular case applies to the principle of scientific merchandising. While our beloved Statesman did not pass judgment on the quality of Preferred Stock Canned Goods, we believe he would have done so voluntarily, only that he was ushered on, on a preceding link of this great endless chain of time.

The key to economy is careful purchasing of dependable merchandise. This does not mean the buying of cheap goods, but the best quality of goods for the least money.

"THE STAFF OF LIFE"

Bread has been called "The Staff of Life." It is. It is the staple food in every home—the chief article of diet on every table. You seldom sit down to a meal without it. Regardless of the skill applied to the art of bread-making, it is impossible to make good bread without a good quality of flour
