TRUST IS ORGANIZED TO HANDLE EXPORTS

Company, Recognized by U. S., Will Supervise Shipments to Europe.

Washington.—Formation of an American Trust company, similar in organization to The Netherlands Overseas trust, to handle American products abroad with assurances that they will not reach the belligerents, was announced by Secretary Redfield of the department of commerce.

This was regarded as meaning that the American Overseas Trust company will assure the European governments with which it deals that no goods exported under its supervision will reach opposing belligerents.

"The object of the scheme," Secretary Redfield said, "is to secure the movement of neutral commerce under such authoritative auspices as to assure that it will not be interrupted. That part of the plan to be undertaken by the department of commerce, under the arrangements discussed, would be the ascertaining, by commercial attaches, commercial agents and other officers, that the operations of the plan were strictly impartial and neutral.

"The new company would be open to assist all truly neutral American commerce to all countries with which it is to operate. The machinery would not be officially a part of the government and it would not be a money-making scheme."

GERMAN LIEUTENANT ARRESTED FOR PLOT

New York.—In the arrest of Albert Fay, a lieutenant in the German army, and Walter Scholz, his brother-in-law, police and federal secret service agents believe they have detained leaders in a plot to wreck American munition plants and ships carrying munitions.

According to Captain Tunney, of the New York anarchists squad, Fay confessed that he came here to work out a plan for stopping the shipment of munitions.

A vast quantity of high explosives were found in the prisoners' room in Weehawken, N. J.

Police who have been watching outgoing vessels for explosives caused the arrests.

Explosives and survey charts of New York harbor are said to have been found in their possession.

The men are declared to have been testing a bomb in a small grove when apprehended.

LEAGUE CONTRADICTS BRYAN

Ex-Secretary Invited to See for Himself Charges He Made Untrue.

Washington.—The Navy League of the United States, through its secretary, Arthur H. Dadman, sent a letter to William J. Bryan, ex-secretary of state, inviting him to call at the offices of the league in the Southern building, Washington, and make a thorough inspection of the league's accounts and subscription lists.

The navy league's letter was sent as a result of frequent charges which Mr. Bryan has made both in the Commons and in his public spoken utterances that the navy league was supported by a body of malefactors of great wealth allied with the alleged armor plate ring for the purpose of maintaining a clamor of war and so improving business in armor plate. According to Mr. Dadman, the navy league has never at any time received any contribution from any armor plate ring and does not know of the existence of any such body.

Another Army Invades Serbia.

Berlin, by wireless to Sayville, N. Y.—Further advances for the Austro-German troops on the Serbian front, including a successful forward movement by the new forces which have crossed the Danube near the Roumanian frontier, were announced by the war office. The Bulgarians have advanced 12 miles north of Pirot, near the center of the Serbo-Bulgarian frontier.

Iowans to Get Liquor.

Chicago.—A permanent injunction was issued by Judge Carpenter of the United States district court, restraining officials of the Chicago, Rock Island & Pacific railway company from refusing to accept and deliver consignments of liquor to points in Iowa, and to agents of the consignees on the written order of the latter.

Bryan Fighting Ohio Liquor Traffic.

Lancaster, O.—William J. Bryan began his campaign for statewide prohibition in Ohio here with a speech favoring the proposed prohibition amendment which will be submitted to Ohio voters in the election of November 2

OREGON NEWS NOTES OF GENERAL INTEREST

Events Occurring Throughout the State During the Past Week.

Salmon Fry Seeking Sea.

Astoria.—Thousands of young salmon that recently were released from the various hatcheries have now reached the lower river on their way to the sea, and at points along the middle river scores of them have been caught during the past few days. They appear to stay around the canneries which are running, seeking the offal for food, and bite eagerly at hooks baited with salmon eggs. The young fish are about six inches in length.

Workmen Law Test Cases Advanced.

Salem.—The supreme court has advanced for hearing the cases of Evanheff and Upton against the state industrial accident insurance commission. The cases are brought to test the constitutionality of the Oregon workmen's compensation act. Of the 21 states having compensation acts, the law has been declared constitutional in 15. The law was only recently upheld by the California supreme court.

Land Products Show Great.

Portland.—Portland's second annual Manufacturers' and Land Products Show, presented by the chamber of commerce at the armory, which began Monday and will continue for three weeks, is one of the greatest displays of the state's agricultural and horticultural resources ever assembled. Collections of fruits, grains, grasses and vegetables from 23 of Oregon's 35 counties are being shown.

DRY QUERIES ANSWERED

Attorney General Brown Says Physician May Give Liquor.

Salem.—In answer to an inquiry from a district attorney of Oregon regarding several phases of the prohibition law effective January 1, 1916, Attorney General Brown holds that in a case wherein the owner of a drug store is not a druggist but employs a registered pharmacist to sell drugs and dispense and compound prescriptions, the pharmacist must execute and file the \$250 bond required by section 2 of chapter 141, general laws of Oregon of 1915, before intoxicating liquor can lawfully be sold at the drug store. Other rulings are as follows: Ignorance of intemperate habits of a person would be no defense in a case wherein a sale is made upon an affidavit by a pharmacist. From and after January 1, 1916, a registered pharmacist cannot fill a prescription for intoxicating liquor other than alcohol.

A prescription stating that the alcohol is required for medicinal use is not sufficient, and such prescription must show on its face the purpose for which the alcohol is prescribed.

A physician can administer intoxicating liquor to a patient when the same is actually necessary as a medicine in the treatment of disease.

Dory to Take Long Trip.

Albany.—In a boat which they expect to use in the halibut fishing business of Yaquina bay, Captain L. A. Wood and son, Charles Wood, of this city, left Albany to go to Newport by water. They will travel down the Willamette to the Columbia and thence to the ocean and down the coast to Yaquina bay. Their boat is a dory 26 feet long with a nine foot beam.

Grant Conference is Set.

Salem.—Thursday, November 18, was set by Governor Withycombe as the tentative time for holding the meeting between the committee named by the recent Oregon-California land grant conference and representatives of the Southern Pacific company. The executive has written to the members named by the conference to ascertain if the date selected will be satisfactory.

Baker Plant Disappoints.

Baker.—The official tests of the Baker municipal power plant, following the completion of a new 24 inch steel line, from the top of the hill to the penstock at the plant, a distance of 1200 feet, proved a disappointment. The engineers estimated that 100 kilowatts could be developed at the plant, but 56.8 was the best recorded.

Cement Mixer Kills Man.

Roseburg.—Charles L. Robbins, formerly of Milton, was instantly killed at Table Creek, about 40 miles south of Roseburg, when he fell into the mouth of a cement mixer which he was operating.

Medford Armory Dedicated October 27

Medford.—Medford held a large celebration October 27 when Governor Withycombe and staff dedicated the new armory of the seventh company, coast artillery.
