

CROOK COUNTY JOURNAL

GUY LAFOLLETTE, Editor-Proprietor

Entered at the postoffice at Prineville, Oregon, as second-class matter.

The Journal stands for the best interests of Prineville and Crook County. Is independent in politics.

Published every Thursday afternoon. Price \$1.50 per year, payable in advance. In case of change of address please notify at once, giving both old and new address.

HAPPY NEW YEAR

The year 1916 is upon us, and the ushering in of the new year foretells many changes. Most prominent of these is the promised increase in prosperity in the land.

In the eastern part of the United States we are told that trade conditions are far above the normal, and that the influence is being felt all over the coast is an established fact.

For our readers we predict and expect that 1916 will be more prosperous than the closing year has been, and to them we pledge 52 issues of the Journal that will be devoted to assisting in the best manner we are able to determine, in achieving that end.

To all of you, individually and collectively, we say: A happy and prosperous new year!

QUITE ANOTHER STORY IN PRINEVILLE

The business men of the city expect The Spokesman to boost for Redmond all the time, and show up the good points about the town and country. And this the paper has done for the past six years in every issue.

And in doing this the paper naturally expected to receive the support of the men for whom it boosts and helps in a business way.

But has The Spokesman received this support?

No! During the year 1915 a number of merchants and business men of the city have been sending out of town to mail order concerns for their job printing. They have not even asked prices of The Spokesman on this kind of work, but have sent the money away and taken it out of circulation here.

Is this a square deal to a paper that has been working for the best interests of Redmond and all the people here?

It looks to us as if it was a very one-sided deal, and no justice in it. —Redmond Spokesman.

It is certain that the question of county division will come up again at the election next year. Whether there will be as hot a fight this time over the question as there was last year remains to be seen.

Last year columns and columns of arguments for and against division were written, and thousands of newspapers and circulars printed and distributed to the voters, and a good deal of hard feeling made that has not yet been healed over.

It is to be hoped that the county divisionists the coming year can get together on some satisfactory plan of division and work for a common object.

Mud slinging and lying in politics always works as a roorback and it isn't worth the game. —Redmond Spokesman.

CALIFORNIA

Always delightful, is most enjoyed during her Warm Winter Weather. Sunny days, soft breezes, laughing surf and inviting beaches are irresistible attractions to those who know California.

GO—AND ENJOY THIS WINTER.

DISEASE AND ITS MASTER CHIROPRACTIC

Disease is a lack of or an excess of function in any part of the body. All function is controlled by mental impulses from the brain. Therefore the CAUSE OF DISEASE must be an interference with the line of communication between the brain and the diseased part. Why not remove the obstruction and restore free communication? Chiropractors do this by adjusting the subluxated vertebra causing the obstruction. Such diseases as Appendicitis, Asthma, Bronchitis, The Grippe, Goitre, Headache, Typhoid, Pneumonia, Paralysis, Diseases of the kidneys, Stomach, Bowels, Liver, Bladder, Pelvic Organs, Lungs etc. and many others are being successfully treated by Chiropractic adjustments. Edison says: "The doctor of the future will give no medicine, but will interest his patients in the care of the human frame, diet and in the cause and prevention of disease. Investigate. Consultation free. 9 to 12, 1:30 to 5:30. Evenings by appointment."

Dealing Squarely With The Public

WHAT assurance have you after you have purchased a piano on which a reduction of from fifty to one hundred dollars has been made that you have really bought at the bottom price? How are you to know that the next buyer who happens in will get an additional twenty-five or fifty dollars reduction? Does it seem reasonable to you that a piano built to sell at three hundred dollars can be sold for two hundred and leave a legitimate and fair margin of profit for the dealer? Bear in mind this fact—no merchant sells his goods at a loss, and the piano that is offered at a reduction of one-third off or one-third added is a dangerous and unsafe investment at any price. It is built to deceive, sold by dealers whose policy is to charge all the traffic will bear and who do not hesitate to take advantage of the fact that the average buyer is unskilled in piano construction and the quality of materials.

ON OUR FLOORS may be seen pianos that are very low in price, as low in fact, as good dependable pianos can possibly be sold. They are the production of factories which have established their reputations by the merit and quality of their pianos, and the prices, save for the addition of eastern freight, are identically the same as in New York, Boston or Chicago. IT IS A PROVEN FACT that dollar for dollar, your money will buy more real piano quality here than at any other store in the west. Because we respect the intelligence of the buying public and because we know no other method than to deal

fairly, squarely and out-in-the open, you may rest your case with the positive assurance that you will get the best piano possible at the price paid. No matter what may be your piano desire, no matter what may be your income, we are in a position to satisfy that desire and to make the ownership of a really good piano or player piano a more economical proposition than any other firm: Leave orders for piano tuning and repairing at our store. Factory experience.
