

### A Distinctive Reason

What is the chief reason for the superiority of Royal Baking Powder?

There are several good reasons, but there is one which distinguishes Royal from other baking powders.

This reason, which every woman should know, is that Royal Baking Powder is made from cream of tartar, which comes from grapes. This means a healthful fruit origin. It means natural food as distinguished from mineral substitutes used in other baking powders.

There is no alum nor phosphate in Royal Baking Powder.

pays for the printing of thousands of tons of catalogues and the postage stamps that it takes to mail them?

Do you think for a moment that these people do business for nothing, just because they love you? You might think so by reading some of their circular matter, but when you think that they pay no taxes in this county to support the schools and help in paying the coyote and proposed rabbit bounty you see why they feel so optimistic. But to get to a more definite point, what do you suppose it costs a mail order house to get out their catalogues per copy? Ever think of that? Being in the printing business, we have naturally thought of it frequently.

Several printers have estimated it and printing, handling and mailing even in the large quantities which they are handled costs considerable more than \$1 each, perhaps twice that much. Who pays the printer? The consumer, of course. You who send in the orders pay and no one else. Perhaps it does not pay them you think. Yes, but it does. You paid for your catalogue last year, the year before, and they are now making you another one that they expect you to dig up your good old Prineville dollar to pay for.

Will you do it? Think it over. Will you give the Prineville merchant the same chance that you do the mail order man?

Perhaps there is an old store bill and you don't like to face the merchant while that is unpaid. If so, when you get a ten-spot and want to spend it, do you think it is right to send it to Seattle or somewhere else, and let the local man hold the sack? Serves him right for extending credit in the first place, doesn't it? It may be that there are some wrong ideas expressed here. We think not but are willing to stand corrected.

The Ladies' Aid Society of the Presbyterian Church will meet with Mrs. Mary Howard, opposite Central Garage, on Thursday, February 4, at 2:30 p. m. All members and friends of the church are invited.

Floyd Hill was arrested in Portland yesterday on a warrant sworn to in Bend charging him with passing forged checks in that city. Sheriff Knox left yesterday for Portland, and will return the prisoner to Crook county for trial.

The C. H. Voegtly hardware business, and the printing plant of the Burns Tribune, were destroyed by fire in that city on Thursday of last week. Some insurance was carried, but the loss was heavy. The Tribune was a new paper which had issued but three times, and probably will not be continued, as the loss to its owner was too heavy.

The fire department was called out Monday morning about 8:30 when the residence of Fred Stroud was threatened with destruction. Flames were discovered in the upper story of the building, but were subdued by a bucket brigade before the arrival of the department. The exact cause of the fire is not known. It is presumed however, that someone stepped on a match, which ignited the window curtains and carried the blaze to the ceiling and into the gable of the house. The damage was slight.

is of course compelled to pay the freight, and if he buys of the Prineville merchants he gets the advantage of large shipment rates, while if he buys at the other points, he is compelled to pay much higher rates, express or mail charges.

Then too, the truth remains that the farther a dollar is sent from your home town, the more damage is done to the party who spends the dollar.

In answer to this the buyer sometimes says: "Look at the profit the home merchants make," and thinks that he has scored a great hit. True, the home merchant makes or should make a profit. So does the farmer and stockman make a profit on his goods. Just a few questions in this connection. Did it cost you \$1.00 per bushel to grow your wheat this year, \$12.50 per ton to raise the alfalfa hay, or \$70.00 to raise a steer? Did you ever hear a merchant who wanted to deny you these prices, or who wanted you to sell for less because he was afraid that you would make a reasonable profit?

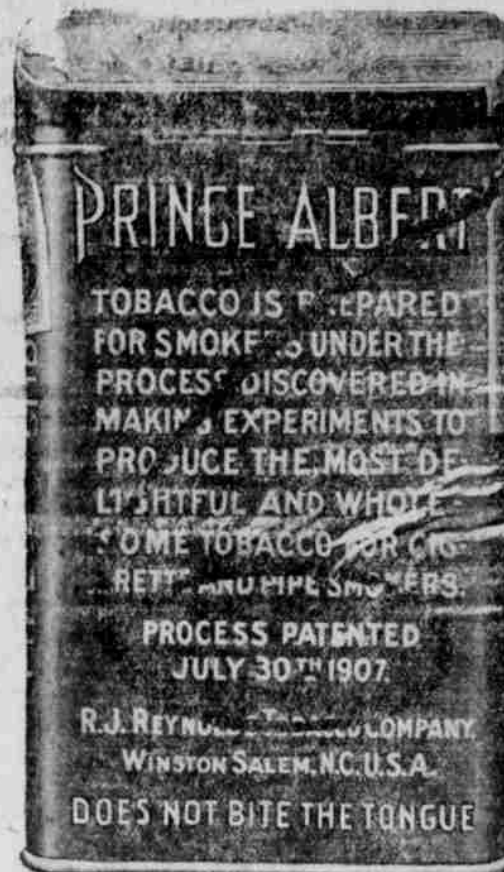

Also please consider: Who makes the profit on the goods shipped from the mail order house? Do those people do business for nothing? Think it over and let it settle. Who
