NOT ENOUGH CHILDREN

ever receive the proper balance of food to sufficiently nourish both body and brain during the growing period when nature's demands are greater than in mature life. This is shown in so many pale faces, lean bodies, frequent colds, and lack of ambition.

For all such children we say with unmistakable earnestness: They need Scott's Emulsion, and need it now. It possesses in concentrated form the very food elements to enrich their blood. It changes weakness to strength; it makes them sturdy and strong. No alcohol. Scott & Bowne, Bloomfield, N. J.

"The End of the War. Does it mean the coming of Christ? A great spiritual and ethical revival, or an out break of materialism and sensual rebellion against spiritual ideals and forces?" Thinking men and women are especially invited to attend this theme at the Presbyterian Church next Sunday morning. The evening service will follow the same theme.

George Walker and Mrs. Anna Maling were married in this city on Monday evening. Judge Bowman officiating. Mr. Walker is a respected business man of this city, having been a resident for the past three years, while Mrs. Maling has resided in Prineville for many years, and has a host of friends, all of whom join with the Journal in wishing Mr. and Mrs. Walker much happiness.

At the Christian Church next Sunday the following services will be held: Bible School at 10:00 a. m., communion and morning worship at 11. Christian Endeavor at 6:30 and preaching at 7:30 p. m. The Gold Rooster play "Via Wireless," will be presented Saturday and Sunday. This is by far the most sensational picture shown here in some time. Touched in the picture are modern things of the daily press, the war in Europe, the need of America for big guns, a glimpse in a Pittsburg steel factory, West Point Cadets at drill, one of the great ships that fly Old Glory, scenes at Washington, New York Harbor, Constantinople, and scenes on and under the ocean. "Via Wireless" is a big picture and will please all who see it.

Warm spring days, a tint of green on the hills, and reports of the first sage rat all combined to emphasize the contrast with the extreme weather which prevailed a month ago. A great change has come over the livestock situation. There is no more talk about high priced hay, and if the present open weather prevails for two or three weeks, the feeding season will be over for most of the stockmen. Roads that were frozen and covered with snow have become dry, and cars create considerable dust on them. Trains arrive on time, and everything is assuming normal conditions again.

Prayer meeting every Wednesday evening at the Christian Church. You can not spend a more profitable time any where. All the regular services next Sunday. Subjects, "The Greatest Work in the World," "Noah's Ark and the Church." The great Bible School meets at 10 a. m. sharp. Communion at 11, Christian Endeavor at 6:30 and preaching at 7:30 p. m. There is room if you come early.

Are Your Hens Laying Eggs or are they Non-Producing For the Lack of Proper Winter Foods and Attention?

HOW TO GET MORE EGGS

In winter a regular system of feeding should be adopted and steadily adhered to throughout. Give your hens a comfortable shelter with plenty of light; keep dry, clean and well ventilated, but avoid draughts of cold air. Feed regularly a variety of good clean food. Table scraps thickened with bran, boiled together, are also very good in winter, to which add a teaspoon-full of DR. HESS' POULTRY PAN-A-CE-A as directed. Give in a mash of wheat, bran and shorts which should constitute the morning feed. In winter give warm. Small grain should be thrown among chaff, which will compel the fowls to exercise. Keep fowls well supplied with fresh water and plenty of grit, bone or oyster shell. Keep your hens free from lice by adding DR. HESS' INSTANT LOUSE KILLER in the dust bath every other week.
