FLY DON'TS

DON'T allow flies in your house.
DON'T permit them near your food, especially milk.

DON'T buy foodstuffs where flies are tolerated.

DON'T have feeding places where flies can load themselves with ejaculations from typhoid or dysenteric patients.

DON'T allow your fruits and confections to be exposed to the swarms of flies.

DON'T let flies crawl over the baby's mouth and swarm upon the nipple of its nursing bottle.

CLEAN UP your premises inside and out. Then see that the community does the same.

STRIKE at the root of the evil. The housefly breeds in horse manure, kitchen offal and the like. Dispose of these materials in such a way that the housefly cannot propagate.

SCREEN all windows and doors and insist that your grocer, butcher, baker and every one from whom you buy foodstuffs does the same. There is more health in a house well screened than in many a doctor's visit.

The Typhoid Fly.

The insect we now call the housefly should in the future be termed the typhoid fly in order to call direct attention to the danger of allowing it to continue to breed unchecked.—L. O. Howard.

D. W. Griffith

Famous \$100,000-a-year Creator of Moving Pictures

"A pipeful of Tuxedo is a wonderfully pleasant form of tobacco enjoyment, mild and soothing."

D. W. Griffith

Scores of Big "Movie" Men—

producers as well as actors, are constant smokers and outspoken friends of Tuxedo. It's just the soothing, restful, refreshing smoke men of their nerve-racking vocation need. Nothing calms and comforts a hustler like a pipe of mild, cool, sweet Tuxedo.

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

Tuxedo is aged from three to five years in wooden hogheads to make it mellow and sweet flavored. But the thing that takes out all the bite and harshness and makes Tuxedo so bland and gentle that it can't hurt the most sensitive tongue or throat, is the famous and exclusive "Tuxedo Process."

One week's trial of Tuxedo will show you.

You can buy Tuxedo everywhere

Filth Means Flies and Death

FLIES love to feast on filth and then get into the house and wipe their feet on your cake or on baby's bottle. Screen your house.

It is true they are nature's scavengers, but they spread filth and disease in doing their work, and, besides, it is better to be your own scavenger by keeping clean than to have the flies do it for you, for not only is the fly a dangerous companion, but clean people are beginning to suspect that those who have flies about them are dirty housekeepers.

If therefore you wish to bear a reputation for cleanliness in your neighborhood be sure that your trash and manure heaps are frequently removed and that your house is properly screened.

"Swat a Fly and Save a Life!" Is A Good Slogan

IF every child and adult American were today to adopt the slogan, "Swat a fly and save a life!" the health bulletins issued next summer from the various sanitary boards throughout the country would have sparse reference to such causes of death as cholera infantum, typhoid fever and the numerous infantile maladies of the torrid months.

If you wait until spring or summer

to kill your ubiquitous fly it will be too late. The single isolated fly that survives the frosts of winter and the vigilance of the housewife, the musca domestica that lies hidden in the rafters of your cellar and pantry, "unfed, unheralded and unsung," is the hibernating villain who breeds multitudes of baby flies upon the arrival of spring.

A Swat In Time Saves Ninety-nine— And Then Some More!

DO your spring fly swatting early! One swat at that time of the year will prevent a line of descendants from a mother fly that would reach around the globe at the equator 5,000 times by the middle of August. This was the statement vouched for by F. M. Washburn, state entomologist of Minnesota.

Just an ordinary, healthy female housefly, Mr. Washburn explained, produces at a minimum 120 eggs at a sitting. He says it is safe to suppose that at least half of these will hatch female flies. Four months uninterrupted breeding would result in the startling population of 214,337,844,320,000,000,000,000, all of whom might claim the same great-grandmother.

So as a precaution don't wait until your house and its surroundings are infested, but start right away in swatting the fly.

After a visit to an ordinary well-lit alley an industrious fly has collected from 550 to 6,000,000 germs on its hairy legs and wings, according to the reports of the United States department of agriculture.

I hereby announce my candidacy for the Republican nomination for Treasurer of Crook County at the primaries to be held May 19, 1916. R. L. Jordan.

The office of Circuit Judge, for Crook and Jefferson Counties, was created in 1915, and T. E. J. Duffy, was appointed by Governor Withcombe to fill the position. Although Judge Duffy registers as a democrat it may be noted, that his appointment was made by a republican governor, who among a great number of people regards such office as nonpartizan. Judge Duffy, entered upon the discharge of the duties of such office, giving up his private practice of law, to devote all of his time to it, and it can be safely said that he has administered such office fairly, impartially and in a business like manner. It would therefore seem no more than right, in view of his record, that he be nominated and elected to succeed himself for a further term. Paid Advertisement.

McCormick Mower Saves All the Hay

FINE notches in the tilting quadrant of a mower are a big advantage. The McCormick mower has them and with a McCormick you can cut the stubble as close as you desire and get all the hay. In seasons when the grass is short, this feature makes a difference of tons in the hay crop.

This same close tilting adjustment means that the grass can be cut on rough and stony ground without danger of dulling the knife on rocks or breaking the bar by striking roots.

The next time you are in town, come in and look over the McCormick mower and note the close adjustment of tilt. The McCormick mower also has many other features that will appeal to you but this is one you should know about before you buy any mower.
