WHY THE BEST OF CHEWS IS "SPEAR HEAD"

Its Rich, Sweet, Mellow Flavor Has Been Famous for a Generation

MADE OF CHOICEST RED BURLEY

The secret of tobacco satisfaction is known only to the man who chews *plug tobacco*. The reason is that a good chew gets right next to your taste, while the leaf in *plug tobacco* is in a state of fresh, juicy richness that is not possible in any other form of tobacco.

There's no tobacco in the world that can give you the hearty, wholesome flavor that you get from a delicious chew of Spear Head.

Spear Head is made exclusively of ripe, red Kentucky Burley—the most richly-flavored chewing tobacco that grows. Still more, only the very choicest red Burley leaf is used for Spear Head.

This choice leaf is selected with the most painstaking care, is stemmed by hand, is thoroughly washed free of all foreign matter, and is pressed into Spear Head plugs so slowly that not a drop of juice or an atom of the natural flavor escapes.

Try Spear Head, and you'll get a sweet, mellow, luscious, satisfying chew that cannot be obtained in any other tobacco. In 10c cuts, wrapped in wax paper.

SPRAY TREES NOW AND KILL THE APHIS

During the past two seasons I have found that a large number of our fruit trees are attacked by the insect commonly known as the "tree louse" or aphid. The best time to combat this pest is when the leaf buds open in the spring.

At this time the first aphid appear and from them the large number is propagated and the damage done. The aphid is a sucking insect and cannot be killed with paris green or other poison sprays.

A very good spray to use is kerosene emulsion composed of kerosene and whale oil soap and made by dissolving one half pound of whale oil soap in one gallon of water by boiling. Remove from the fire and add two gallons of kerosene stirring vigorously. Vigorous stirring must be continued until the solution assumes a thick, creamy consistency that does not separate on cooling. The use of a small bucket pump is very good for the necessary agitation. For the aphid, a seven per cent solution should be used and is made by adding eight and one half gallons of water to the above solution. Another very good spray for the aphid is the commercial nicotine sulphate, one of which is known as "black leaf 40" and directions for using are given with each can or bottle of this mixture. Use a good force spray and be sure that all of the leaf buds and all parts of the tree are well sprayed.

These same sprays will prove of value and are very effective for the aphid which attack field peas, cabbage and other garden crops. College bulletin No. 228 may be obtained from the Oregon Agricultural College or from my office and

gives directions for orchard spraying in detail for all infestation of either insects or disease.—A. E. Lovett, County Agriculturist.

A thin sickly little man entered one of the stores in a small town recently and quietly seated himself on a convenient chair. One of the clerks approached and asked if he wished to purchase anything. "Oh no," said the man, "I just dropped in for a few minutes." After half an hour passed the manager of the store, becoming curious, approached him and asked what could be done for him. "Why nothing that I know of," said the man "You see have nervous prostration and the doctor told me to stay in a quiet place. Noticing that you do not advertise, I thought this would be about the quietest place that I could find." Let me tell you, it was anything but quiet there for five minutes. The poor little man found himself in the street wishing he had landed on a feather bed. But the next week the store surprised itself with a big display ad in the home paper.—Blue Mountain Eagle.

Ty Cobb Famous Ball Player, Says:

"Tuxedo is a good, pure, mild tobacco and makes a wonderfully pleasant pipe-smoke."

Many Famous Athletes—

men of mighty muscle and keen brain, testify that they smoke Tuxedo with never a trace of tongue-bite or throat-parch. That's partly because Tuxedo is mellowed by ageing in wood from three to five years. Ageing is only the beginning—the big thing is the famous "Tuxedo Process," that nobody else can use.

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

Right ageing makes Tuxedo mild, sweet and delicious—the often-imitated-but-never-equalled "Tuxedo Process" makes Tuxedo the mildest, coolest and most delightful of all tobaccos.

One week of Tuxedo will make you its lifelong friend. Get a tin and smoke it.

You can buy Tuxedo everywhere
