RIGHT AGAIN.

A number of very important steps concerning Prineville's railroad were taken at the council meeting Tuesday evening and throughout the meeting the spirit of harmony and co-operation prevailed.

The council agrees to a man upon the important issues involved and the greatest measure of progress is the result. And what is even more to the point, the people are supporting the council as one unit. All of which demonstrates the fact that all things are worth while.

Last December it appeared that there would be little if any important business for the council to perform during the year, and good men were induced to run for these offices with some difficulty. In fact there was some doubt whether a full ticket would be in the field until the last moment almost.

That the people made no mistake in their selections is now evident.

ENCOURAGING BIRD LIFE.

One of the most worthy movements in the United States today is that one tending to promote an awakening among children of the beauty and preservation of bird and other wild life.

In a neighboring city an enterprising business firm recently conducted a contest for boys in which cash prizes were awarded for the building of bird houses. Even the promoters were surprised at the number of boys entering the contest, and, every visitor to that place when the contest was ended was more than surprised at the workmanship resulting from the boys' efforts. The promoters, after the contest had closed and the prizes were awarded, offered the houses for sale and netted a sum equal or greater than the aggregate sum offered as prizes.

Needless to say, that city will this summer have hundreds of well built and ornamental bird houses that it never would have had only for the contest put on by that one enterprising business firm.

Any boy can build a bird house, and every yard in our city should have one or more of them. Watering places, too, can be provided, and when these simple inducements are offered the birds will come. Some of us may think that we do not care whether there is a bird in the city, but if we have none, we should miss them just as we miss many things when they are gone and cannot be recalled.

DOLLAR WEEK TOO.

Chautauqua week and Dollar week will be celebrated simultaneously in Prineville this year, July 3 to 8. Extensive plans are being made by practically every business house in the city for these events. Everybody help.

ROBERT W. SERVICE

Candidate for Public Service Commissioner, Eastern Oregon District

To begin with the railroads don't want him on this commission for he has hammered them too often when they were wrong to expect their support, but if the common people do give him the necessary vote to elect him he proposes to do as follows:

He will be absolutely fair with the railroads for they are entitled to and should be given a "square deal."

He will defend the interests of the common people against unlawful encroachments by our public servants and will bend every effort to the end that the public has the benefit of an economical administration of the affairs, its railroads

I hereby announce my candidacy for the Republican nomination for Treasurer of Crook County at the primaries to be held May 19, 1916. R. L. Jordan.

The office of Circuit Judge, for Crook and Jefferson Counties, was created in 1915, and T. E. J. Duffy, was appointed by Governor Withycombe to fill the position. Although Judge Duffy registers as a democrat it may be noted, that his appointment was made by a republican governor, who among a great number of people regards such office as nonpartizan. Judge Duffy, entered upon the discharge of the duties of such office, giving up his private practice of law, to devote all of his time to it, and it can be safely said that he has administered such office fairly, impartially and in a business like manner. It would therefore seem no more than right in view of his record, that he be nominated and elected to succeed himself for a further term. Paid Advertisement.

and utilities and that the business, for which they were chartered, be conducted honestly, without discrimination and at reasonable rates.

Rates are higher in Oregon than those charged on the first railroad operated by steam and opened to public traffic.

All merchandise L. C. L. shipments on the primitive railroad for a 25 mile haul was \$1.25, on the O.-W. R. & N. it is \$8.13 and on the Sumpter Valley railroad it is \$13.23.

Rates today are the highest in railroad history, while the cost of produce, the "ton mile" (the unit of transportation) is the lowest. This shows the need of regulation.

Robert Service has had five years experience as an expert accountant, 16 years of wholesale shipping business and eight years in the study and practice of law, almost exclusively on the subject of "Railroad Rate Regulation" as shown by his record.

He stands high in his community and is considered one of the best qualified men in the state to fill this position.

A vote for him is a vote for the best interests of the common people and he would like to serve the masses one term. His slogan on the ballot is "Regulate, give a fair return on honest capital, nothing on watered stock." Paid Advertisement.
