CITY OFFICIAL PAPER FOR CITY OF PRINEVILLE

VOL. XX

PRINEVILLE, CROOK COUNTY, OREGON, THURSDAY, JUNE 15, 1916.

NO. 31

JOURNAL MAN VISITS TERREBONNE DISTRICT

Truck Farms, Several Orchards, Good Buildings.

DAIRY INDUSTRY PROMINENT

Prineville Has Many Friends There--All Will Attend Our Chautauqua.

Prineville has many friends in Terrebonne and the farming section surrounding, for it is here that a ready market is found for their produce and a friendly feeling for their enterprises. These citizens are anxious for a good connecting road, either wagon or rail, between the towns of Prineville and Terrebonne, for they realize that our advancement is their gain. The farmers of this community are planning on spending a day or week at Prineville's Chautauqua, July 3-8.

Few people in the cities or on easily developed lands realize the unceasing labor and hardship necessary to bring an irrigated ranch to a stage of production. The strides made in five years by settlers in the vicinity of Terrebonne have been wonderful and another tide of years will show an equal measure of progress.

Those who have passed east of Terrebonne near Smith Rock, have noticed the apple orchard of F. T. Gardner. Here 750, seven year old trees show uniform growth. The late frosts have killed most of the apples but there will be an abundance of small fruit and berries. Mr. Gardner sold potatoes last year for dining car service to the railroad which features the "Big Baked Potatoes" on its menu.

J. A. Foss has a pioneer ranch of 160 acres which is devoted to alfalfa and gardening. Mr. Foss predicts four and five crops of Alfalfa a season when the farmers realize the value of manure. In one instance a rancher came ten miles to Terrebonne for manure to use on his land. This should be an example to the man who allows this valuable by-product of a stock ranch to go to waste.

Geo. Junker has a five acre truck farm in this neighborhood which clears more profit than the average one of 40 acres. Last year he raised 700 pounds of beans besides large amounts of other staples. John M. Perry also has a larger acreage which is used extensively for truck gardening.

The irrigated section west of Terrebonne is divided chiefly into 40 acre tracts. A fine \$1500 house is an attraction on the J. C. Norris farm. Mr. Norris is making plans for a dairy and believes that every farmer should take up stock raising.

Otho Baker has 300 apple trees on his forty that will be bearing next year. After considerable damage had been done to the trees by rabbits, he acted on a suggestion and took the dead bodies of several of the pests and rubbed the scent on the trees. By doing this every four months the rabbits were kept away.

J. C. McVey and L. R. Snap have each forty acres of alfalfa and clover which have ideal stands. Careful irrigating is the secret of such success. Irrigate quickly and quit, too much water is as bad as too little, they say.

John Almeter has the largest acreage in this farming section.

CHARLES E. HUGHES

320 devoted to alfalfa and grain raising. He has over a hundred Duroc Jersey hogs that he is raising artichokes for and expects to ship them to the fall market. Mr. Almeter has erected a cow barn and other preparations for a dairy. The Farmer's Union of Terrebonne will hold a picnic at Tetherow bridge next Saturday, June 17. You are invited.

STATE HEALTH OFFICE APPOINTS REGISTRARS

Dr. David N. Roberg, state health officer, together with county health officer, Dr. J. H. Rosenberg, has just completed a trip over Crook county establishing registrars in twelve different points in the county, for the registration of vital statistics which includes births and deaths. These officers will have authority to issue burial permits to undertakers, and no burial can be legal without one of these permits.

It has been the law for some time to record these events, Dr. Roberg says, but the people have neglected to attend to it with the result that there is no information that is worth anything.

A new law, which is known as the "Model Law" which provides for the registration of births and deaths in smaller precincts than the county, is one under which the present registrars were appointed.

Centers at which these officers were appointed are: Redmond, Bend, Howard, Paulina, Post, Sisters, Powell Butte, Roberts, Brothers, Imperial, Millican, and La Pine.

Mrs. Anna Estes and Son Buy Confectionery

Lafler's Confectionery was purchased the first of the week by Mrs. Anna Estes and son Ernest. The business will be conducted on practically the same line, Mr. Lafler retaining the photo and picture framing part of the business, which will be moved into a new location as soon as one can be provided. The new business will be conducted by Ernest Estes, and particular attention will be paid to the ice cream, confectionery and kindred lines. The stock is being invoiced now and the transaction will be completed during the week.

RUY BLAS TOMORROW BY REDMOND TALENT

Don't forget the play, "Ruy Blas," tomorrow night at the Club Hall. This is a good play, and it will be ably presented by these people who have much more than the ordinary ability in this line. Redmond always supports the efforts of Prineville in various fields, will be present in numbers at the Chautauqua next month and they are entitled to a packed house tomorrow night. Besides you get your money's worth and more. Under the auspices of our Ladies Annex.

M. J. McGRATH FINED \$300 FOR BOOTLEGGING

Bend Man Sold Liquor to Two Girls.

TWO OTHER CHARGES PENDING

Formerly Conducted Log Cabin Saloon--Convicted in Judge Bowman's Court.

M. J. McGrath of Bend was convicted twice Tuesday afternoon in Judge Bowman's court on charges of illegal sale of liquor.

The state's witnesses were two girls who purchased the booze from McGrath at his home in Bend.

His defense was that he did not take pay for the liquor, but that it was merely a present to the girls.

In deciding the first case the jury was out about ten minutes, in the second about two hours and a half.

McGrath was fined \$100 and costs in the first case and \$200 and costs in the second. He has thirty days in which to prepare an appeal to the circuit court, and is at liberty on a \$1000 bond.

District Attorney Wirtz says that in all probability McGrath will have to face two further charges when the grand jury meets. They are giving liquor to a female child under the age of 18 years, which he has admitted, and contributing to the delinquency of a minor, as one of the girls who bought wine and beer from McGrath was under the age of 18 years.

The district attorney will take up the delinquency charges and conduct an investigation before Judge Springer of the juvenile court Saturday.

S. G. Hinkle returned from Portland the first of the week.

The honorary degree of Doctor of Laws was conferred upon Samuel W. McCall, Governor of Massachusetts at Columbia University on June 7.

MEETING HELD AT POST YESTERDAY

Twenty Prineville Men in Attendance.

GOOD ROADS WAS TOPIC

Post Commercial Club Organized With Large Membership.

A delegation of five cars of Prineville Commercial Club members went to Post yesterday to attend a meeting of the newly organized Commercial Club at that place. The ladies of the community had a bounteous spread prepared at the Newsom Creek school house, and after partaking of this the real matter of a business nature was taken up.

Dr. Rosenberg, as acting chairman, outlined the policy of the local club in regard to road work. Stating that they were always ready to help in any way possible, at any time, and pointed out the instances of good work rendered. The way in which this was done, he showed, was through a highly concentrated action and actual donation of half the cost of road construction.

The road in question is undoubtedly very bad and it is a grievous matter with these people, but it is too late to receive extensive aid from the county this year. However with the organized effort now apparent and with the help of the local club, we feel sure that the court can be made to see the need of repairs during the Summer.

A delegation from the upper country will be sent for this purpose to confer with the court at next Friday's luncheon at the Methodist church.

W. C. Congleton of Paulina was a business visitor yesterday.

Spencer Mayhew who graduated from the local high in '13 graduates this year from O. A. C., and has a position with good pay.

C. W. FAIRBANKS

PRINEVILLE DEFEATS BEND 3-4, 12 INNINGS

Prineville 4, Bend 3, 12 innings. With old Sol shining warmly on 250 wild-eyed and rabid fans and on the players of two intensely rivaled ball teams the above setting is complete for the longest and most exciting game on record in Prineville. A game re-outrant with good plays, few errors and a real pitchers' battle, full of smoke and vim.

Burdon and Tetherow were the slab artists in competition, the work of the latter being at his usual clip, striking out 14 batters and walking none. Burdon, however, opened the eyes of Prineville fans to the fact that he is the equal of Tetherow and in the technic of the game, superior. He struck out 11 men, walked one, made two hits, held Bend to one hit until the ninth and crossed the plate with Prineville's winning run in the twelfth.

The game was called at 3 o'clock sharp. Horton, lead off man for Bend, safe on Bechtell's error, but out in double play when Tetherow lined to Bechtell. Kuyf filed to McCall. No runs. No hits.

Prineville started with a rush. McCall and Bowman singled, both advancing on passed ball. Estes singled, scoring McCall. Ellis fanned, Bechtell out at first, Bowman scoring. Estes scored on catcher's error with Burdon safe at first and out stealing. 3 runs, 3 hits. Batsmen on both teams were retired in 1-2-3 order until the ninth, when Bend staged a rally that all but won the game. Horton hit by pitched ball, caught napping at first. Tetherow beat out an infield hit, stole and scored on Culp's double, who also scored when O'Donnell tripled. Houston brought in the tying run with a double. Clow out, Stied filed to Bowman. 3 runs, 4 hits.

The game went to extra innings with tension at a white heat for runners were on bases in each canto. In the eleventh the local team had two on with none out when Clark was nipped ten feet off second. With Bowman on that sack Ellis lifted a long fly to left fielder who juggled the ball for a heart breaking second, but finally froze to it.

After Bend was retired in the twelfth, Bechtell popped to Tetherow, Burdon singled, Morris safe at first, Lister grounded to Horton, forcing Morris and in an attempt to make a double the ball passed first allowing Burdon to score the winning run.

Notes of the game.

Prineville 7 hits, Bend 8. Horton, Culp, Bowman and Burdon hit twice safely. Estes accepted six chances at short without a miss. Tetherow fanned three in the seventh. Prineville has won two out of three games from Bend. The game was ably umpired by Ralph Lee of Grizzly.

Omar Wilson purchased a three acre tract of land in Prineville Acres the first of the week. He will equip it for a modern chicken ranch.

CHAUTAUQUA IS BUT TWO WEEKS AWAY

Best Talent Ever Brought to Pacific Coast.

BASEBALL TOURNAMENT, TOO

Big Celebration on July 4--Free Camp Grounds and Use of Tents--See Claypool.

On Monday, July 3, which by the way is but two weeks from next Monday, Prineville's first Chautauqua will start its six-day session.

The advertising campaign is well under way, a large number of programs which explain the twelve big numbers that are to be rendered during the week have been distributed and others are being sent out daily.

One of the novel features of the advertising campaign is the use of about 500 buttons which are distributed one to each person. The buttons are numbered, and among the lots are three sets of duplicates. Should the holders of these duplicates find their duplicate number, each is given a season ticket to the Chautauqua without charge.

Two sets of these have been found already, Harry Hudson and Sylvian Michel having duplicate numbers and Farnk Brosius and Judge Bowman also. The third set has not been reported to headquarters up to this time.

The ticket sale has been progressing slowly but steadily, and will be taken up with a rush during the next few days by the ladies of the Annex who will care for the sale in the city.

The sales in the country districts are to be cared for by the guarantors who have already made some trips and will make more into different parts of the country, advertising and selling tickets for the big event.

A committee was appointed on the location of the big tent but has not definitely decided where it will be.

Commence now to plan your affairs so that you can attend this big event. Besides the Chautauqua, which is a great attraction, there will be a baseball tournament. Teams from various Central Oregon points and a team from Portland for three games will appear during the week.

The second day of the Chautauqua will come on July 4, and an old time celebration will be staged in addition to the other attractions.

Another attractive feature of the Chautauqua season is Dollar Week. This is a system of profit sharing which has been practiced throughout the large cities of the country. The double page ad in this paper shows the many bargains to be had. The merchants wish to say that these goods are not old stock, but new merchandise bought especially for this week.

INTERESTING FIGURES ABOUT RESERVOIRS

In order to clear up some apparent misunderstanding of the economic features of storage reservoirs, land owners under the Ochocho Project and other interested parties will do well to ponder over the following figures.

As an illustration, let us take the Continued on page 12.
