

THE FLAVOR OF "SPEAR HEAD" IS UNIQUE

A Chew That Has Been Famous for a Third of a Century

HAS THE RICH RED BURLEY TASTE

Chewing is the only way to get the rich taste of the tobacco leaf. And the only form of tobacco in which you get the leaf as Nature made it is the plug form.

A chew of Spear Head plug tobacco has a wonderful flavor such as you never did and never will taste in any other tobacco.

That Spear Head flavor is unique, mellow, fruity, everlastingly delicious and satisfying.

Spear Head has been famous for a third of a century as the richest, tastiest of chews.

It's made of sun-ripened, red Burley. And it's produced by the most modern methods, which develop the luscious flavor of the leaf to the supreme degree.

It is safeguarded at every step in its making. The factory is clean and sanitary—the processes are pure-food processes.

When the choice red Burley has been pressed into mellow, sweet Spear Head plugs you have a chew that simply can't be equalled.

Spear Head is the high quality chew of the world.

Try Spear Head—you'll never again be satisfied with any other chew. In 10c cuts, wrapped in wax paper.

FORM COW TESTING ASSOCIATION IN COUNTY

The First Central Oregon Cow Testing Association is the name of the new organization which was perfected, by dairymen of the county, at the Powell Butte hall last Friday.

The importance of this move for better dairying was recognized by those present and the business of organization taken up without opposition or hesitation. The officers elected for this year are: H. McCull, president; John Kemmling, of Prineville, vice president; E. C. Park, of Redmond, secretary-treasurer. These officers are the directors and executive board of the association.

The meeting was fortunate in having Mr. Mickle, State Dairy and Food Commissioner, present for a few minutes talk while hurriedly

touring the county. Mr. Mickle, having been a dairyman for 15 years, was able to present vital and interesting facts on this industry. An industry, he stated, that hard times do not materially effect and one which builds up the land instead of tearing it down.

He says, patronize the home creamery. Recognize only the true dairy breeds, either Jersey, Holstein, Guernsey or Ayrshire, for the dual purpose cow does not produce the best results.

The by-laws of the association place the smallest herd to be entered at eight cows for \$12 a year, payable semi-annually. The tester to be lodged by the dairyman during the tests of the herd each month. Operation will begin about August 1.

Too Late to Classify

In behalf of myself and brothers I wish to thank all those who sent flowers and showed other kindnesses during our recent bereavement. C. M. Stroud.

Days You'll Never Forget

CHAUTAUQUA TICKETS ARE SELLING FAST

At a meeting of the Chautauqua committee last night it was found that more than two thirds of the guaranteed number of season tickets have been sold and the remaining third are almost all promised. Another meeting will be held on Saturday evening at 7:30 at the Annex parlors, Commercial Club building, and by that time it is expected that the entire amount will be sold.

The price of season tickets will be advanced to \$3 each on Monday, and all tickets will be purchased direct from the association after that date.

If you haven't already bought your tickets, get on the band wagon today and help the local committee by helping yourself.

The Journal is only \$1.50 per year.
