PLUG CHEWING
A WHOLESOME
HABIT

In No Other Way Can You Get All the Richness and Flavor of the Leaf

"SPEAR HEAD" BEST CHEW

Many prominent physicians declare chewing to be the most wholesome way of enjoying tobacco.

"I began chewing some years ago," said one, "and I soon found that it is the only way to get the benefit of all the rich juices stored up by nature in the tobacco leaf. I refer, of course, to the plug form of tobacco, which is the most natural and the cleanest form."

"Chewing good tobacco like Spear Head makes the salivary glands more active, which in turn has a beneficial effect on the whole system. Add to this the sweet, mellow, delicious flavor of a chew of Spear Head, and you have the highest possible degree of tobacco satisfaction."

"I mention Spear Head because I have found that this brand is exceptionally pure, being made in a factory that's run strictly according to pure-food rules."

Spear Head is made of sun-ripened Burley, which is acknowledged to be the richest, mildest, finest flavored tobacco leaf in the world. And it is produced by the latest processes, which develop the quality and luscious flavor of the choice Burley to the supreme degree.

A chew of Spear Head has a wholesome relish that is not found in any other chewing tobacco. In 10c cuts, wrapped in wax paper.

Several dances were given at the Club Hall last week. Kekuku's Hawaiians furnished the music for Saturday evening's entertainment. Prizes for waltzing were presented to Millard Elkins and Miss Crystal White; Luckey Bonney and Mrs. Wilfred Belknap and to Robert Osborn and Miss Leola Estes.

A mother, elderly in appearance and frail in health, rode a horse from Dry Lake Sunday, a distance of 70 miles, to see about a school for her children. It seems that the people of her neighborhood had donated a school building, but a lack of taxable property had caused the county to consider closing the district. But this little woman came to plead for an education for her children, stating that she would ride across the continent for such a purpose. Such a spirit is deserving of a school even at a cost to the county.

WHAT CATARRH IS

It has been said that every third person has catarrh in some form.

Science has shown that nasal catarrh often indicates a general weakness of the body; and local treatments in the form of snuffs and vapors do little, if any good.

To correct catarrh you should treat its cause by enriching your blood with the all-food in Scott's Emulsion which is a medicinal food and a building tonic, free from alcohol or any harmful drugs. Try it.

Deering Cutting Machinery

When You buy a DEERING MOWER you have purchased an implement that has been tried to the satisfaction of thousands of farmers. Ask the man who has used it. You cannot afford to experiment at a saving of a few dollars on the cost of a machine at a critical moment. The purchase of a standard mower insures service when service is actually needed and repairs are always obtainable.

Harvest Supplies

We make a specialty of filling orders for harvest time and are OFFERING SOME SPECIAL BARGAINS in Canned Goods, Coffee, Syrup, Dried Fruits, Pickles and other commodities.

O. C. Claypool & Company

PRINEVILLE, OREGON

An eclipse of the moon will be visible in Central Oregon tomorrow night from 8:30 until 10 o'clock, watch for it.

Paulina Items

Now that we have recovered from the event of celebrating our day of Independence, we are again thinking of our crops.

The crops are all looking fine in this vicinity. We had a rain of about twelve days duration which did much good. Some rye and real early crops were frosted in the

early part of the season, but not much damage was done. All crops not touched by that frost are looking exceedingly well. We have had very warm weather for the past week.

Everyone returning from the Chautauqua reports a very good time.

Haying will not commence in full blast until about August first, owing to the lateness of the season.
