

## RAILROAD ELECTION CARRIED AGAIN; 1 "NO"

358 Favor Bond Issue in the Sum of \$100,000.00

BY THEIR VOTE PEOPLE SHOW CONFIDENCE IN THE COUNCIL

Council is Ready to Act—Plans For Immediate Survey and Construction Are Made

With a vote of 358 for and one against the \$100,000 railroad bond issue the citizens of Prineville for the second time on Monday made known to the world that they are in favor of the bond issue and the plan by which the city is to have a road.

While it was certain that the vote would be favorable, and the council had made plans for the immediate construction of the road, it seemed that a unanimous vote of this nature would be almost impossible to get.

There were three more votes cast than in the former election, which was held on March 28, one vote in each case being against the issue and one ballot not counted in both elections because of error.

The day was ideal and a larger vote would have been polled but for the reason that the polls closed at 5 o'clock which is earlier than in a general election.

Action was taken immediately by the council to get things under way for the construction of the road.

A band concert on the streets Monday evening and general celebration was indulged in by a number of those who had been most active in the election. As the various legal steps taken by the city in connection with this election have all been advised by the firm of Keebler Bros., of Denver, who specialize in this class of legal work, there is no possibility of a delay in the financing of the road, councilmen say.

Prineville not only wants the road, but by this vote has expressed a willingness to pay for it and has the resources with which to justify the investment.

## AUTOS STOP AT HOTEL OREGON NOW

R. P. Scheurer has a new Hudson super-six which is being used in the passenger business between this city and Redmond.

Arrangements have just been made with Mr. Scheurer by Manager F. K. Barber of Hotel Oregon by which the headquarters for all of Mr. Scheurer's business will be at the Oregon. Autos are advertised to meet all trains, and for trips to interior points.

## Natorium Fund To Be Started Soon

The fund for the proposed natatorium will be started tomorrow evening by the Ladies Annex when they will entertain the members of the Annex and Commercial Club at cards and bowling. Come and help in a good cause.

## PRINEVILLE DEFEATED BEND ONCE MORE; 4-1

Mill City Team Failed to Come Back.

## WIN SIX OUT OF SEVEN GAMES

Final Contest on Sunday on Davidson Field—Visitors Coming for Revenge.

Once again the Prineville baseball team defeated Bend on the latter's diamond last Sunday, score 4-1.

The game was between Prineville, the regular Bend team, Shevlin-Hixon players and what other strength Bend was able to summon and as one final effort to defeat Prineville by the Bend supporters.

Bend succeeded in getting Horton home in the first inning and it looked for a moment like Prineville might suffer defeat, but their strength all faded away before the team work of the Prineville men, and after the third inning it was a walkover.

The Bend team succeeded in getting but one man to third after the first inning, Burdon's pitching and the Prineville team-work proving too much for them.

Manager Jordan says that the Baby Beavers will be easy money and that his team is getting stronger every day. They are truly above anything they have met during the year and Bend is entitled to the medal for real bone-head baseball, much additional proof being added to their claim for this title in Sunday's game.

The last game of the season with Bend will be played at Davidson field Sunday. The Benders are coming with all the strength they can get and are seeking revenge.

## PUBLIC SCHOOLS OPEN WITH BIG ATTENDANCE

The Prineville Public Schools opened Monday with an attendance of 201.

The school has already assumed an air of business and the teachers and pupils are settling down to the winter's work, with every prospect of the biggest and best year in the history of the institution.

In charge of the various grades are: Principal, Albert Schreder; Mrs. G. Whiteis, seventh; Miss M. Bilyeu, sixth; Miss Wattenburg, fifth; Rei Powell, fourth; Florence Wass, third; Mrs. John Wigle, second and Leola Eates, first. Professor Thos. J. Hill is special instructor in music.

A meeting of the faculty, at which every member was present, was held on Saturday. Every teacher in the school is working for the state "professional certificate" which is obtained only by teachers doing special work. There are fourteen such certificates in the county at present, five of which are held by Prineville teachers.

A meeting of the Parent-Teachers association was held Tuesday evening and plans made for the work of the year.

The faculty announces that they will receive no pupils in the first grade after the second week of school because of the crowded condition of that grade and the effect of additions to the classes after that time.

Only fourteen days until the big County Fair opens.

## COUNTY SEAT REMOVAL IS A DEAD ISSUE

County Division Campaign Very Quiet.

## CANDIDATES GETTING BUSY

A Review of the Men Who Are Running for Office—Don't Forget to Register.

With the fall election less than two months away and candidates commencing to get busy once more after practically three months of inactivity, the voters are commencing to realize that a campaign is again on.

The matters that perhaps have taken the attention of everyone since the primaries are those with regard to the county seat and

## BREWERS' AMENDMENT WOULD OPEN SALOONS

Cleverly Worded Measure Should Be Defeated.

## OREGON DRY REDUCED LIQUOR

Register, Register Now, Is Plea of R. P. Hutton of Anti-Saloon League.

"The amendment permitting breweries to manufacture, sell and deliver in this state, beer having four percent of alcohol, would undoubtedly pass if voted on today," said R. P. Hutton, state superintendent of the Anti Saloon League of Oregon, speaking at the Baptist church, Monday night.

"The reasons for this are three fold," said he continuing. "First

## CIRCUIT COURT NOW IN BUSY SESSION

Grand Jury at Work Three Days.

## FOUR MEN ARE INDICTED

Many Civil Matters Claiming Attention of the Court

Circuit court convened Monday morning and has been busy every minute since that time on criminal and civil matters.

A grand jury was selected consisting of W. P. Vandervert, foreman; H. Brookings, E. A. Bussett, J. B. Miner, R. B. Gould, H. A. Scoggins and M. W. Knickerbocker. The grand jury was dismissed after three days of hard work yesterday.

## ENGINEERING CONTRACT TO BE MADE SOON

Bond Election Ratified by Council Last Night

REAL CONSTRUCTION WORK TO START IN NEAR FUTURE

Ordinance is Passed and Proclamation Issued by Mayor; Harmony Prevails

A contract will be signed soon, perhaps on or before Tuesday evening of next week, for the engineering work on the city's railroad.

This will be a contract that will provide for the permanent location of the line, all engineering work and the supervision of the construction work as well, it is said.

Because of the fact that the council desires to rush the work as rapidly as possible, plans are being completed that will make this possible.

A meeting of the council was held last evening at which the required ordinances were passed, the proclamation of the mayor issued, the results of the election canvassed and ratified and much work that is necessary at this time completed.

Funds are available for the commencement of the work it was announced and everything that was possible to do up to this time has been done.

The road will be constructed by the city, from a point within the city to the main line of the Oregon Trunk at a point either between Redmond and Terrebonne or at one of the towns. The exact location of the western terminus will be decided by the council and their engineer as soon as possible.

The work of construction will be done with local help as much as possible, and it is thought that grading can commence at a very early date.

## GILKEY STORE AND CONTENTS DESTROYED

The general merchandise store of Gilkey & Son near Paulina was destroyed by fire about eight o'clock Sunday evening, causing a loss to the owners of about \$18,000.

The building, which was more than a mile from Paulina and about a quarter of a mile from the Gilkey residence, was seen to be afire, but as there was no one at the building at the time, the interior was filled with flame before people arrived from Paulina.

The owners of the store had gone to the home of Andrew Bernard several miles away to deliver some goods and the store had been left alone for some time.

Besides the loss of the building which was about 40x60 feet in size, and its contents of merchandise of all kinds, a motor truck which stood in an adjoining shed was also consumed.

No one can give any information as to the origin of the fire, and the amount of insurance carried is not known.

The owners have made no announcement as to whether the store will be rebuilt or not.

## Crook County High School Buildings and Male Members of the Faculty

THE Faculty which is making the Crook County High the best school in its class in the state: H. C. Baughman, Superintendent; Nellie G. Tirrill, Normal; Catherine V. Conway, English; E. E. Evans, Commercial; Ada Wilde, Assistant Commercial; Eva Jackson, Domestic Science and Art; J. W. Smith, Science; Robert R. Davis, Manual Training.

The Crook County High School is starting what promises to be the biggest year in its history. The largest number in attendance on an opening day enrolled on Monday, 145 students signing enrollment cards on that morning. The nearest to this attendance was in the fall of 1915, when 116 students enrolled on opening day. Sixty-four people were in the freshman class on Monday this year, many of whom were from close in districts while some came from many parts of the country. Looking over the assemblage one cannot fail to notice the high character of

the student body. Besides the increased number in attendance, the spirit with which they are taking up the work insures a big year.

Military training will be taken up this year for the first time, and a shipment of 60 rifles has been forwarded by the United States army service which will be used by the students.

At a meeting of the board on Monday it was voted to supply uniforms for the boys and military drills and training of various kinds, under Principal H. C. Baughman and Mr. E. E. Evans, will be a regular feature for this school in the future.

The girls will be given a training in physical culture as well, and Red Cross work will be a feature with them also. The board will give this work some needed assistance in getting the matters started and these new features added to what the school already had, will make the institution more popular and stronger than ever before.

One of the greatest needs of the school is a gymnasium on the school campus, and Superintendent Baughman says that he will have a move under way at once for the erection of a building of suitable size for that purpose on the school campus during the next six weeks.

H. C. Baughman

E. E. Evans

J. W. Smith

Robert R. Davis
