

Days You'll Never Forget

BREWSTER WINS IN SUPREME COURT AGAIN

The Supreme Court on Tuesday of last week handed down its decision in the case of Brewster against Crook County, in which every ruling of Judge Duffy in the trial of that case was carefully gone over by the Supreme Court and sustained.

A part of the Supreme Court's decision is as follows: "A demurrer by plaintiff to the further and separate answer was sustained and defendant predicates error upon such ruling. It seems too plain for argument that the allegations of the further and separate answer did not add anything to nor change the denial of defendant. If there had been any error or want of approval of the claims by the superintendent, the defendant could have shown the same under the general denial and the demurrer was properly sustained."

The Supreme Court further says in its opinion: "The trial court judge (Judge Duffy) thoroughly explained the issues of the case to the jury and plainly submitted to the latter the following questions: (1) Did the plaintiff perform his work upon the order of the superintendent? (2) Did he present claim to the county verified by oath? (3) Did the claim have the approval of the superintendent? The jury found these three things in favor of the plaintiff. The charge given properly submitted the questions of fact to the jury. The instructions of the court were in strict conformity with the statute and were not erroneous. The interests of the county are carefully safeguarded in the statute and it is our guide. Finding no error in the record, the judgment of the lower court is affirmed."

PENDLETON IS IDEAL LOCATION FOR NORMAL

CITY'S RAILROAD, HEALTH, EDUCATIONAL AND OTHER FACILITIES ADAPT IT FOR SCHOOL SITE.

Pendleton, Ore.—Pendleton's claims for the establishment of a State Normal School are based upon the unusual advantages offered for such an institution. It is ideally located with respect to railroad facilities and in the center of the country which it will serve. Its health conditions are excellent. It has a bountiful supply of clear, cold, pure mountain water.

It offers a library of 12,000 volumes, to which are added 3000 annually, housed in a beautiful new building, erected at a cost of \$40,000. The largest athletic stadium in the Northwest, capable of accommodating 20,000 people; a natatorium, modern and equipped for the use of men and women, built at a cost of \$11,000; ample auditorium room for lyceum courses and lectures and a school system that is without equal in a city of its size. Its facilities and the students necessary for practice teaching have been guaranteed by the city board.

OREGON RANKS LOW IN NORMAL SCHOOLS

U. S. BUREAU OF EDUCATION REPORT UNCOMPLIMENTARY TO STATE'S SCHOOL POLICY.

Pendleton, Ore.—Oregon is one of the most poorly equipped states in the Union for the training of teachers, according to the United States Bureau of Education.

Only five states in the Union have less Normal equipment than Oregon. Oregon has one Normal School and forty states have more than one. New York has 18, Pennsylvania 18, Massachusetts 12, California 8, Washington 3 and Idaho 2.

The report of the Bureau of Education shows that even the little state of Idaho, with a population only half as large as that of Oregon, is spending more than twice as much for Normal Schools as is this state.

The same report urges that Normal Schools be located in the railroad centers with public schools sufficiently large to give teaching practice to the Normal students.

State Superintendent Churchill's annual report shows that of the 6955 teachers in Oregon last year but 791, or 13 per cent, were Normal School graduates. The same official estimated that 1000 new teachers are needed each year and the present Normal school is turning out but 150. The majority of Normal trained teachers are shown to be teaching within a small radius of Monmouth, although Eastern Oregon pays on the average of \$10.41 a month more for teachers than does the Willamette Valley.

THE CITY

A total of 65 high schools in Oregon have signed up for the debating league this year. The total number of schools that were registered in the league last year was

308 X YES IS A VOTE FOR YOUR CHILDREN

SQUARE DEAL FOR EASTERN OREGON

If you are in favor of a square deal for the country East of the Cascades you will vote for and work for THE PROPOSED EASTERN OREGON STATE NORMAL SCHOOL AT PENDLETON, OREGON. Oregon has but one Normal School. This school is located at Monmouth and is not able to supply more than TEN PER CENT of the teachers required in the public schools of Oregon. Of the more than six thousand teachers in our public schools, BUT 13 PER CENT are graduates of Normal Schools. It is a matter of simple justice to the country East of the Cascades to establish a Normal School East of the mountains to furnish thoroughly trained teachers for the schools of Eastern Oregon.

TRAINED INSTRUCTORS WANTED

Every resident of Eastern Oregon has a vital interest in the passage of this measure for Eastern Oregon pays HIGH SALARIES to her teachers and is entitled to the services of TRAINED INSTRUCTORS.

ONLY COSTS 4 CENTS PER \$1,000

The annual cost of maintenance of the proposed State Normal School amounts to BUT ONE 25TH OF A MILL OR 4 CENTS ON A THOUSAND DOLLARS of taxable property. Isn't it worth this to you to have your children trained to become USEFUL AND PRODUCTIVE citizens?

STRONG ENDORSEMENT

J. A. Churchill, the State Superintendent of Public Instruction, voices the sentiment of the educators of the state when he says:

"Oregon's greatest need for its rural schools is the teacher who has had full preparation to do her work. Such preparation can best come through Normal School training.

"I trust that the voters of the state will assist in raising the standard of our schools by establishing a State Normal School at Pendleton. The location is central, the interest of the people of Pendleton in education most excellent, and the large number of pupils in the public schools will give ample opportunity to all students to get the amount of teaching practice required in a standard normal school."

The educators of the State insist that Standard Normal Schools be located in towns of 5000 population or more and having ENOUGH GRADE PUPILS FOR TEACHER PRACTICE.

BE LOYAL AND VOTE RIGHT

Show your loyalty to the best interests of Eastern Oregon and of the whole state by working for this measure and by voting YES FOR NO. 308. By voting YES for No. 308 you will help to GIVE TO THE SCHOOL CHILDREN OF OREGON THE SAME ADVANTAGES ENJOYED BY THE SCHOOL CHILDREN OF OUR NEIGHBORING STATES.

Eastern Oregon State Normal School Committee By J. H. Gwinn, Secy., Pendleton, Ore.

51. The Crook County High stood at the head of this list last year, and we hope and feel that it will be there next June again, when the contest closes.

One of the most beautiful lighting effects on the street this week is on the Cornett & Company building which is the home of the big department store. This building has a row of lights at regular intervals about one foot apart, near the top of the building, around the entire front and down the length of the building on Fourth street to the postoffice. This is the kind of cooperation that is really worth while, in making a real fair.
