

**WOMEN'S NERVES**

Women, more than men, have excitable nerves, because tiring work and physical strain tax their more delicate nervous systems and bring premature age and chronic weakness—unless treated intelligently.

Drug-laden pills and alcoholic concoctions cannot build up a woman's strength, but the concentrated medicinal food properties in

build strength from its very source and are helping thousands of women to gain control of their nerve power—overcome tiredness, nervousness, impatience and irritability.

**News of the Films**

Friday and Saturday nights the Lyric Theatre will present Thomas A. Wise, the famous actor of the speaking stage in "Blue Grass," taken from the play by Paul Armstrong, of the same name. "Blue Grass" is a story of the race track and we can recommend it as being one of the cleanest and best productions seen in Prineville for some time.

Mr. Wise is one of the most beloved actors of the American stage having been featured in "Are You a Mason?" "The Gentleman From Mississippi," the "Song of Songs" and made the "Old Homestead" famous. Comedy and pathos follow each other in close succession in this production and the race track scenes are taken from the famous Louisville race track at Louisville, Kentucky. Mr. Wise as Colonel Taylor, the owner of Blue Grass is a irresistible character and as the good hearted bankrupt colonel will cause many chuckles. This is the story of a true southern character and a true southern play, reviving the old days when the sport of kings was supreme.
