BEND ITEMS

The people of the vicinity of Sisters are circulating a petition throughout Deschutes county praying the county court to officially designate Sisters as the place to hold the annual county agricultural fair. The reasons given in the petition are set forth as follows: First, the Sisters fair is an established fact. Second, that district is one of the best agricultural sections of the new county. Third, they have a race track which is claimed to be the best in the new county. Fourth, they ask for this only so long as the grounds and improvements shall be maintained without any expense to the county—Press.

The improvement of the McKenzie road would be of far-reaching benefit. In connection with the Columbia River Highway this route places Bend and other Deschutes County communities on most desirable loops for auto touring from Portland, and its betterment will mean the attraction of much profit-producing travel through this territory. The development of our tourist resources is highly important.—Bulletin.

A year of state-wide prohibition seems to have been most successful and officials of all sorts are endorsing the satisfactory working of the law.—Bulletin.

County Surveyor Young received a letter this morning stating that the annual election of the Suttles Lake Irrigation District was held last Tuesday and that H. J. Chenoweth, Claude I. Henline and Albert Webber were re-elected on the board of directors and that Mr. Herritt and Mr. Rogers were elected new members of the board.—Press.

JEFFERSON COUNTY

Wm. Boegli, we nearly said Judge Boegli, is very busy these days on his ranch. He has prospect of a good fruit crop this year and says it beats official life all to pieces.

Mother Peck is about the only real fighter in Culver according to W. S. U'Ren for when he and his raiders made the second swoop on Culver he met Mother Peck and be-

fore she got through with him he must have felt like a last year's bird's nest after a hail storm. What she didn't tell him about himself wasn't worth telling and it appeared to be all true. When U'Ren and his bunch came they scared out a W. C. T. U. meeting and then Mother went to the fray. Mr. U'Ren is quoted in Portland as saying that Mother Peck has the largest vocabulary and the most perfect command of the English language of any person he had ever met. Hurray for Mother Peck.—Culver Tribune.

There seems to be considerable traffic between Madras and Culver today. What's all the excitement about? Still looking for more county records?

The Irrigation District election Tuesday passed off quietly, the old board of directors being re-elected by close majorities.—Metallus Searchlight.

Fair Play

In an article appearing last week in the Culver Tribune, of which Mr. W. P. Myers is editor, we notice, in his statements of the affair covering the removal of the county

records from Culver to Madras by the editors of the north end of the county, that a part of them are incorrect, whether by intention we are not prepared to say.

We think the truth would serve the purposes of all concerned much better.

In a recent issue of the Tribune an appeal for fair play was made. We wish to return the compliment, with the added force that Mr. Myers be fair—and be content with confining himself to the facts.—Madras Pioneer.

LOWER RYE GRASS

(By Our Regular Correspondent)

Why do we not have a suitable name? Would not "Valley Bridge" be more appropriate?

The school organ dream has at last come true. Mr. Terrill and the school children started the fund last year by means of a basket social. Another social this year and a small donation from another source, completed the desired fund. A friend of the school, on business in Portland, found just the right organ and shipped it the first of January. The organ is one of unusual richness, and the children feel they have a right to be proud of it.
