NEWS FROM THE SCHOOLS

(By Our Regular Correspondent)

Last week may well be termed the climax of this school year for old Crook County High. The following are a few of the things that were accomplished:

The new students enrolled were: Wister Rosenberg, Clark Pollard, Orval Hayes, Jeanette Stevens and Mildred Young, making our number 170. We welcome each of them in the hope that they may soon catch the spirit of our endeavor and pass it along.

Miss Ruth Brennan gave a very instructive discussion on Oregon Literature, Miss Conway rendering some of the best selections in song.

The Juniors won by a score of 28-14 over the Seniors in basketball.

The domestic art girls finished their wool problem and gave their second dress parade. Their dresses met with approval and the accomplishment is indicative of the high standard of work upheld in our domestic art and science department.

Two basketball teams were organized among the girls. We are fortunate in having as captain of our first team a Portland girl, Miss Bernice Scott, who was captain there for two years.

Last but not least, our boys made a splendid start on their way to the state championship in debate for another year. Prewett and Hillyer won a unanimous decision from Madras at Madras, Yancey and Barney winning the same kind of a decision from Culver at home. The Culver boys made a splendid showing indeed, both being young and inexperienced in the art. The decision was very close being rendered solely on the score of delivery. While this is perfectly true, and it is likewise true that our boys deserve credit for their work, both the "Boss" and the boys say there remains a lot of hard work to be done if we are to keep the "cup", for we are, in a large measure, still unprepared. Even so, we are hopeful because our boys have shown that they believe in preparedness. The judges for the

Prineville-Culver debate were Mr. Barnes of Tumalo, Mr. Volt of Bend, and Mr. McCall of Prineville. Rev. VanNuys presided in the absence of Mr. Baughman, who accompanied our negative team to Madras.

Raymond Goodmiller, one of our best and most noteworthy students left school last week to work on his uncle's ranch. He plans to be in school next year and we hope to have him. He was prominent in athletics as well as in the class room.

Miss Ruth Adamson gave a splendid address Monday morning on the work of the Chautauqua throughout the United States. She told us that the Chautauqua was organized at Lake Chautauqua, where the oldest one now is, and that the work done by it has always been of the highest character and bears the endorsements of the most prominent statesmen of the present day. She also said that the richest Chautauqua is at Winona Lake, New Hampshire, and the largest, for eight days or less, at

Lincoln, Nebraska. The Chautauqua is one of the most effective modern institutions for the spreading of truth, broadening the ideals of men and women and thus rendering an invaluable service to the Nation.

Miss Hazel Bayn will give her Senior address next Monday morning. These addresses are from 15 to 20 minutes in length and should interest everyone who is concerned in the welfare of our students and school.
