The church at Prineville, Oregon, is temporarily without a minister since the going of Geo. H. Ramsey to Ballard, Washington, but the work goes along under the good leadership of her workers. At last report there were 72 at the mid-week service and 126 at the Bible school, and 73 at the communion service. The church has its fingers on the pulse of the community, and the community recognizes the church as a mighty factor for community uplift. The local paper there, the Crook County Journal, speaks in high terms of the church work. The new minister, Brother Gervin, of Indiana, will begin his labors as minister on the 18th of February. J. H. Gray is the competent Bible school superintendent there.—Christian Journal, Eugene.

NEWS FROM THE SCHOOLS

(By Our Regular Correspondent)

Last Friday evening both debating teams of the Crook County High School were defeated by The Dalles by a vote of 2 to 1. Our boys made a splendid showing at both ends of the fight and those who know have no "kick" to register against the work done here in debate. We wish our fortunate competitors success all along the line of debate. The cadet band made their first appearance Monday afternoon on the campus of the high school. These boys have done remarkable work and will give an open air concert one week from Monday afternoon.

The basket ball team of the high school will play their first competitive game with Bend next Saturday evening in the Commercial Club Hall.

The track meet spirit is running high among the boys who expect to enter. Crook County High hopes to have a large representation this year and carry off the honors.

The Sophomore class will give a short play, recitations, songs and possibly band music soon. Date of performance will be announced later.

Tuesday afternoon the high school board visited us both in the class room and on the field. The cadet band played, then drilled, for about twenty minutes, the company drilling the full hour. The board seemed well pleased with the work that is being done in all of the departments.

Miss Jackson has begun work on the track meet for the girls to be held sometime later in the spring. This meet will consist of the lighter track work given by the boys.

Miss Hazel Bayn gave her senior speech in the Assembly room Monday morning on the "Life and Work of Helen Keller."

Clyde Clark will speak next Monday morning on this subject: "Thomas Edison and the Re-creation of Music."

OREGON IS DRIEST STATE IN UNION

NEW LAW WENT INTO EFFECT YESTERDAY AT 4 O'CLOCK

CRIME TO BE INTOXICATED

Local Officials Will Enforce Law to Letter—Little Difficulty is Anticipated However

As far as intoxicating beverages may be concerned, Oregon became as dry as the Sahara last Friday at 4 o'clock when the governor affixed his signature to the so-called bone dry bill which had passed the legislature on schedule time. The law that has been enacted is simply an act amendatory of the law passed by the 1915 legislature and which went into effect January 1, 1916.

The new act, passed as the result of the action of the people at the polls on November 7, 1916, prohibiting the importation of intoxicating liquor, makes it unlawful to give away intoxicants, to have them in one's possession, to carry them from place to place, to import them, to drink them or, in plain words, to have anything whatever to do with them.

The local authorities have expressed their intention of enforcing the law in Crook County to the letter and are making preparations with that end in view.

While the new law does not give the authorities warrant to search for and seize intoxicating liquor, the former search provisions of the law of 1915 still remain, allowing the officers to enter and search premises where intoxicating liquors may be kept for the unlawful purpose of sale or barter rendering any place or habitation a nuisance, or any place where people resort for the purpose of drinking or carousing although no sales may be made.

It is now more difficult to get alcohol than ever before. Dentists, druggists, physicians, scientists, artists, etc., must get a permit from the district attorney before they can purchase supplies. All other persons must get a prescription from a physician.

The law allowed five days within which persons having ordered "shipments" before the law was signed by the governor, might recover them from the express offices. This five days of grace expired yesterday afternoon at 4 o'clock and the express agents have 25 days more within which to return all uncalled for packages to the consignors.

Little difficulty is expected in this county by the authorities. Drunkenness is now made a crime by state law, and all such offenders will be handled by the county authorities as well as by the city. As a result drunkenness is likely to become unfashionable.

Chas. Montgomery is having his new house and barn wired by the Deschutes Power Company, and will have the buildings both well lighted.

ALL PEACE OFFICERS REQUESTED TO ASSIST

WILL BE ON ALERT TO PREVENT HOSTILE ACTS

NO TROUBLE IS ANTICIPATED

Any Unusual Demonstration Will Be Promptly Reported However

The first local consequence of the present strained condition of our foreign relations came Tuesday in an official communication to District Attorney Wirtz from United States District Attorney Clarence L. Reames of Portland requesting that the sheriff's office of Crook County and all police and other peace officers of the county be advised to employ such precautionary measures as may be deemed necessary to prevent any demonstration hostile to the property or right of the United States government.
