**A Remarkable
Invention**

It is no longer necessary for the motorist to get stuck. This little device, if carried in his tool-box, multiplies his power by 75, and makes him independent of road conditions. If his auto sticks in the mud, skids into a ditch or overturns, he can right it in 10 minutes by simply driving the three stakes in the ground, attaching

Pull-U-Out

to them and to the auto and giving the ratchet crank a few easy turns. The stakes will hold, even in very soft ground—and out comes the auto. No trouble, no expense, not even soiled clothes! This wonderful little device lifts a ton, of dead weight, or pulls 50 tons on wheels; yet its shipping weight is only 25 lbs., and it fits easily into a space 4x6x14 inches.

SAVE 11,000,000 LOAVES A DAY

The above caption is a new war cry that has led the friends of food conservation to victory in the passage of a law on Saturday in the national house of representatives, which besides having a great many regulatory clauses, prohibits the use of food materials in the manufacture of alcohol.

The nation appears aroused to the folly of extensive campaigns for back yard gardens, prevention of food waste in the kitchens of the nation, and poor handling of food stuffs while the enormous amount of grain and other materials is being wasted in the liquor manufacturing business.

This has not been brought about by the efforts of so-called prohibitionists, but is an action in which the people of the nation are to a great extent united.

The efficiency of its fighting men is also a factor. Our war department is not blind to the fact that the best insurance actuarial authorities state in the cold calculations of science that one hundred and eighty men die among moderate drinkers for each one hundred among abstainers under exactly like exposure and circumstances.

The Connecticut Manufacturers Association, representing over 200 of the leading manufacturers of that state passed a resolution favoring complete War Prohibition by a vote of 175 to 1.

The American Medical Association, the most representative body of its kind in the world, at its national convention in New York this month adopted resolutions declaring alcohol to be neither a food nor a stimulant.

The National Conference of Charities and Correction violated its custom of passing no resolution on a contraverted subject, and recognizing the patriotic character and overshadowing importance of the question, unanimously adopted a resolution of the same nature.

**LAUGH MAKERS
AT CHAUTAUQUA**

The Wasser Company Presents Two Programs Full of Laughter and Happiness.

The Wasser Company in programs of music, sketches, readings and original stunts present one of the delightful entertainments of the Chautauqua.

Mr. and Mrs. Wasser were formerly prominent entertainers at Northwestern University and later graduated from one of the leading Boston training schools. For several years they

THE WASSER COMPANY.

have been attracting unusual attention on the Chautauqua platform.

Mrs. Wasser has specialized on child impersonations and is strikingly realistic in her portrayals of youthful eccentricities. Mr. Wasser in his readings and songs introduces clever and laughable stunts all his own. Both of their programs bubble with fun, mimicry and merriment. Don't miss the Wasser Company on the fifth day, but come prepared to laugh.

**ANDREW JOHNSON
AT CHAUTAUQUA**

Johnson One of the Best Story Tellers on American Platform.

A rousing Ellison-White Chautauqua event for 1917 Assemblies is the coming of Andrew Johnson, noted platform humorist. Johnson has taken the East and Middle West by storm. That he will repeat his previous triumphs on

ANDREW JOHNSON.

the Pacific Coast is certain. The "Johnson smile" alone starts the diaphragm to shaking and the risibles to bubbling. Into the wrinkle of every laugh Johnson lays a thought. The famous humorist is said upon authority to possess the richest store of point illuminating anecdotes in Chautauqua or Lyceum.
