CROPS AT GRIZZLY LOOK GOOD BUT NEED RAIN BADLY

### NEW WELL AT BARNES SCHOOL

Wallace Hunt Injured by Car at Lower Bridge—Red Cross Meeting at Post

### GRIZZLY NEWS

Born, June 21, to the wife of J. H. Shively, a baby girl. Crops are beginning to look fine and although late, the stand of grain is excellent but a rain is very much needed. A number of people of this vicinity attended the Grange picnic at Opal City on June 20. A large crowd was present and a fine time was had by all. J. W. Dee has been busy hauling lumber and grain to Metolius. N. A. Newbill has purchased a Ford car. Perhaps never before in the history of this community have the sage rats been so numerous as they are this year. They have become so wise that it is hard to get them to eat poison.

### BARNES ITEMS

### AN EXTRA RAISE

Note What This Baking Powder Offers

The baking powder that is pure, yet raises the dough best, is the best baking powder. This is logic, isn't it? Then for comparison: Crescent Baking Powder affords two leavening actions. Practically all other baking powders afford but one. Where other powders die Crescent continues to generate leavening gas. Where failure results with single acting baking powder success crowns the success of Crescent. In use, Crescent B. P. completely expends itself. So none of the powder in original form remains in the food. Crescent, the modern, efficient, double acting baking powder sells 25c lb. CRESCENT MFG. COMPANY Seattle, Wash.
