GROCERIES

We have the pleasure of announc- ing that we have a large stock of fresh groceries, a portion of which was bought considerably under the market and which we are selling under the market today. To our sat- isfaction we have stopped thousands of dollars from going to the Portland mail order houses during the past two years and the only business we have not stopped is the business that was not presented to us for quotations.

We invite the public to price their own orders from any Portland cata- log of most recent issue and mail or deliver to us and we will fill the orders with freight charges added.
