

These Lands Will Make Their Own Payments

We will sell you farms or grazing lands, give you a deed, allow you to place a federal loan on the lands for whatever the appraisers decide to fix the amount of the loan and take a second mortgage for the remaining part of the selling price on such terms that the lands will way for themselves.

LAND IS THE BASIS OF ALL WEALTH

And such raw lands as we are offering you will be worth more each year for the very fact that all livestock and crops are worth more will increase the value of the lands.

The World Growing Smaller Every Day

The demands for foodstuffs are constantly increasing, and the lands where these crops are produced are fast coming into the hands of people who know their values and will not part with them for the prices we are now offering them. Between January 1 this year and June 20 we sold 19,470 acres of land in Crook and Harney counties besides the sales made in other counties. Purchasers of these tracts are:
