### NO FALLEN CAKES

The use of Crescent Baking Powder has proved a boon to thousands and thousands of housekeepers. When baking cakes, they no longer have to face a hot oven—taking straw vote after straw vote—endeavoring to ascertain whether the cake will raise. The double acting principle of Crescent Baking Powder is positive assurance it will raise. This baking powder has two leavening actions and from 20 to 25 per cent greater leavening power than other baking powders offer. Though extra efficient, the price of Crescent Baking Powder is low—25c a pound.
