CELEBRATE SALE OF THE OCHOCO BONDS Hundreds Join in Festivities **At Annual Picnic** MANY COME FROM OTHER TOWNS

Upton, Wiggins and Gervin, in Able Addresses, Told of **Great Possibilities**

-

The second annual Harvest Festival was a decided success. About three hundred people motored out from Prineville to Gulluford's grove, eight miles north of the city in connection with the anual harvest picnic to join with the farmers of that section in celebrating the selling of the Ochoco Irrigation bonds.

Several cars came from Bend, Redmond, Paulina, Madras, Lamonta and the surrounding country.

A picnic lunch was enjoyed at noon after which the band gave a short concert. The speakers of the afternoon were, J. H. Upton, S. L. Wiggins and Dr. J. H. Gervin.

Dr. J. H. Gervin helped put the usual brilliant manner from the subject: "What Prineville Needs es a Newcomer sees it."

He said in part "When God made Chicago price. men of other nations he made them of the dust, but when he made the grade wheat would bring \$1.90 in the men of America he made them of inland empire district, where most of the best stuff he had on hand and the grain of the northwest is proplaced the best of them in and duced. GOVERNMENT TO STOP SETTING OF FIRES

A warning has just been issued from the war department, which is self explanatory. It reads as follows:

"All persons entering the forests must be extremely careful at this time about lighting fires. This is not the Fire Marshal warning of the usual type. There is a very urgent reason for this warning. The woods just now are filled with military patrols with rigid instructions to shoot public enemies caught setting fire to the forests.

"Therefore, it is doubly necessary to be careful as military patrols, while instructed to exercise every precaution, might possibly make a mistake.

"These military patrols are operating in every part of Oregon where forests are to be found. Their location is not revealed for obvious reasons. They move from place to place and keep to cover as much as possible. Their task is that of hunting down public enemies who have been firing the Oregon forests, and they are under orders from the Western Department of the Army to deal instantly and vigorously with such public enemies.

"So if necessary for you to go ber 1, according to present plans of into the woods, be careful about the treasury department. It is ex- lighting fires. No doubt it would be better to keep out of the woods \$3,000,000,000 and that the subscrip- unless you have urgent business therein.

It has been decided to hold all of the sessions in the Methodist church and all meetings will be open to the public.

An appropriate prize will be given to the club sending the largest delegation.

WASHINGTON LABOR UNEASY

Prevention of Shipyard Strike, How ever, is Prospective.

Seattle .-- Labor Day found great unrest among organized workmen in the state of Washington. A strike of 13,-000 men employed in the Seattle ship yards was called last week, but postponed pending a conference, with a prospect that the strike will be averted. A majority of the sawmills and shingle mills in the state have been closed for several weeks by a strike of workmen for the eight-hour day and higher wages. The employers say that owing to the dull market for lumber they can afford to leave their plants idle. The building trades throughout the state have decided to refuse to handle lumber made in tenhour mills.
