### Giving Baking Failures The Laugh

Baking failures used to be looked upon as a necessary evil. That was before the day of Crescent double acting Baking Powder. A baking failure now is a cause for mirth. It is unnecessary. A change from old style single acting baking powder, permits one to look back with a smile upon baking failures. They are part of the past. Crescent Baking Powder has two leavening actions; so it is a positive, sure-rise baking powder. When used according to directions, there is never a failure. 25c buys a full pound.

There's Much To Consider in Buying SILVERWARE

Most important of all is the dealer. Reliable dealers limit their selections to dependable and recognized patterns only, in both the sterling and plated ware. Jaeger Bros. is a reliable house. Among our selections in sterling silver are such popular patterns as Mary Chilton, Fairfax, Washington, Lafayette, Chatham and others.

The princess and Hudson are two of our leading patterns in high grade plate. Set of 3 teaspoons in the Hudson for \$2.95. Three-piece Tea Sets in plated ware as low as \$10.00.

OUR SPECIAL \$100 DIAMOND RING offers the utmost in value. If goods when received are not satisfactory, money will be cheerfully refunded upon their return.

### REBELLION EXISTS IN RUSSIAN CAPITAL

### Kerensky Orders Korniloff to Resign Command; Successor Is Appointed.

Petrograd.—Premier Kerensky has declared that a state of war exists in the town and district of Petrograd.

Premier Kerensky has ordered General Korniloff, commander in chief of the Russian armies, to resign in consequence of General Korniloff's demand for supreme power. General Klembovsky has been appointed commander in chief.

Premier Kerensky has issued the following proclamation:

"On September 8 a member of the duma, M. Lvoff, arrived in Petrograd and called upon me in the name of General Korniloff to hand over all civil and military powers to the generalissimo, who would form a new government at his pleasure. The authenticity of this summons was afterwards confirmed by General Korniloff himself who had a conversation with me over the direct telegraphic wire between Petrograd and main headquarters.

"Considering this summons, addressed through me to the provisional government as an attempt by certain quarters to profit by the difficult situation of the country and establish a state of things contrary to the conquests of the revolution, the provisional government has recognized the necessity of charging me, for the safety of the republican regime, to take the urgent, indispensable measures necessary to cut at the roots all attempts against the supreme power and rights of the citizens won by the revolution."

### SWEDISH LEGATION IS GERMAN AGENT

### Accused of Having Transmitted German Official Telegrams to Berlin.

Washington.—The government's exposure of how Sweden's legation in Argentina acted as a secret channel of communication for Count Luxburg, German charge in Buenos Aires, and the Berlin foreign office, has created a sensation which absorbs the diplomatic corps and all official quarters almost to the exclusion of all other subjects connected with the war.

As a revelation of the machinations of German diplomacy it takes rank second only to the celebrated Zimmermann note plotting war between the United States and Japan and Mexico.

No break with Sweden is even thought of at this juncture. At the present stage it is wholly a matter between Argentina, Sweden and Germany, with the United States, her allies and the rest of the world interested onlookers.

Copies of three brief dispatches made public by the state department revealed the Swedish foreign office in an apparently grave breach of neutrality and diplomatic propriety.

They were messages to Berlin from Count Luxburg, the German charge at Buenos Aires, forwarded by the Swedish legation there as its own communications. Besides advertising that no concessions be granted Argentina in the submarine controversy, they suggested that the South American country's ships be sunk "without leaving any trace," and gave information as to the sailing and positions of certain vessels.

The department's announcement was sent to the Argentine embassy and the Swedish legation here at the same time it was given to the public.

### EVIDENCE AGAINST I. W. W. ACCUMULATES

Washington.—Numerous indictments for conspiracy to thwart the government's war plans appear to be in prospect as a result of the nation-wide raid of Industrial Workers of the World offices by department of justice agents.

Evidence is said to be fast accumulating to support the belief that a gigantic conspiracy has existed for some time to cripple the government in carrying on the war, that its ramifications have extended into virtually every state and that numerous anti-war activities which appeared to emanate from many sources in reality had their fountainhead in a single group of conspirators.

The government's hands have been greatly strengthened by the seizure of papers in contemplated proceedings against persons identified with the I. W. W. and others who activities have been for some time under surveillance of the department's bureau of investigation.

Many of these documents are said to relate to labor disturbances in the west and the Pacific northwest.

Federal officials are said to have obtained information that the I. W. W. has a national membership of 50,000, of whom 12,000 to 15,000 are in Chicago.

### SWEDISH AFFAIR SENSATION

Stockholm Government Long Regarded as Strongly Favoring Germany.

London.—The United States state department's revelation of a Swedish diplomat in Argentina acting as a intermediary for transferring German messages to Berlin has created one of the greatest international sensations of the war. The development itself is not, however, a great surprise, the chief surprise being that the American officials were able to obtain the messages, as they did the Zimmermann note of last winter regarding German overtures to Mexico.

The suspicion has been current in England throughout the war that Germany was obtaining much information of military movements which could not be secured through the ordinary spies. The Swedish government, with the monarchy, the aristocracy and the army officers, has been rated strongly pro-German throughout the war.

Swedish Minister Denies Charge.

Buenos Aires.—The Swedish minister to Argentine, Baron Lowen, has denied that dispatches in cipher had been sent to Berlin by the German charge through the Swedish legation at Buenos Aires.
