### Let the Children Play

OVEN SHOCKS WON'T CAUSE CAKES MIXED WITH CRESCENT BAKING POWDER TO FALL

If there are children in your home, they can continue their games in the house while cakes mixed with Crescent Baking Powder are baking. Rumping, no matter how intense, won't cause the cakes to fall. For Crescent Baking Powder contains egg albumen which forms retaining pockets, holding the excess quantity of leavening gas the powder generates, until the completion of a perfect raise. Through being years ahead of the general baking powder field in manufacture as well in superiority of product, a 25c a pound price is possible. Buy a can next time you need baking powder; and send 4c, stamps today for the new Crescent Cook Book.
