

PRINEVILLE CATTLE FIRST AND SECOND

BEST FAT STOCK BRED BY S. S. STEARNS OF THIS CITY

FIRST CAR SOLD AT 15 CENTS

Seconds Bring Twelve and Third Car Eleven Cents—Large Crowds Attracted

Prineville fat cattle, real utility beef, brought first and second prizes at the Pacific International at North Portland this morning.

The stock, three car loads of them were white faces, grown by S. S. Stearns of this city, and finished for him on contract by the Fairview Stock Farm of this city.

After the cattle were judged, they were sold, the first car bringing fifteen cents on foot, the second twelve and a third eleven cents per pound.

Large crowds were attracted to the show ring, for while the other exhibits attracted favorable comment, the Prineville finished beef appealed to everyone immensely.

LYCEUM WAS SUCCESS

First Number Well Attended By Local People

The first number of the Lyceum

Course, the Berkeley Sextette, was enjoyed by a large audience. The affair was a financial success also, the Ladies Annex having sold enough season tickets to more than fulfill the contract.

EXEMPTIONS FROM DRAFT CANCELLED

Washington.—New regulations under which the remaining available of the 3,000,000 men registered for military duty will be drafted for service with the colors have been announced. The new regulations are coincident with the division of eligibles into five classes, and the circulation of the official questionnaires which have been discussed in previous announcements. The new regulations repeal all preceding regulations, cancel all exemptions and discharges granted under the old system and restore every registered man to his original status. He will hereafter be required to undergo all examinations anew and present his claims for exemption again.

As the new classifications make more liberal provision for leaving men with dependents in the classes to be called last, it is practically certain that every man who had a legitimate exemption under the old regulations will get the same under the new ones. The first class, which embraces men wholly without dependents, is expected to bring in fully 2,000,000 men.

Roads Will Accept Federal Control

Washington.—Formal announcement was made that the railroads of the United States had decided that if any crisis should arise, to place their interests in the hands of President Wilson for protection and such disposition as he may deem necessary to prevent interruption of transportation during the war.
